

## HONOR IS PAID TO J. T. ARBUCKLE

Newly Elected District Governor of  
Kiwanis Clubs And District Sec-  
retary Honorary Guests

### AT ROTARY CLUB MEETING

Felicitated by Judge Will M. Sparks.  
They Respond That Honor Is Be-  
stowed on Rushville

Honor was paid by the Rotary club today to J. T. Arbuckle, who was recently elected district governor of Kiwanis clubs of Indiana, and Omer Trusler, the new district secretary, at the weekly meeting of Rotarians at the Social club at noon.

Dr. J. B. Kinsinger, president of the Kiwanis club, and Samuel L. Trabue, the first president of the Rushville club, were also guests. A number of other guests were present and Miss Helen C. Jaehne, Latin instructor in the high school, sang two solos that received vigorous applause. Miss Virginia Lucas played the piano accompaniment.

George Griesser, who presided as president in the absence of Hugh Maury, the president, on account of illness, introduced the Kiwanis and other guests and the Kiwanians honored by the club were welcomed by Judge Will M. Sparks.

"We want you men to know that we keenly appreciate the great honor that has come to the great Kiwanis club of Rushville," Judge Sparks said. "We esteem it a great honor to have been associated with you and to have been benefited by it, and we hope that you likewise have been benefited by it."

"We think it a great honor to Rush county for you men to have been elected to these high offices and we are glad that you are honoring Rush county because we love it above all other counties in the state and in the United States."

"We feel that this is a distinct honor that has come to us as a community. But the fact that Tom Arbuckle has been preferred above others is significant. The fact is that he has never failed to help the other fellow, that a call for assistance for any community enterprise has never gone unanswered. He has never failed to show his interest in his fellows' welfare."

Judge Sparks said that the same held true with Mr. Trusler—that he was always ready and willing to roll up his sleeves and go out and work for any undertaking that had the betterment and improvement of the community as its goal.

Judge Sparks praised the spirit that moved men to serve others and said that Rotarians and others took great pride in the elevation of the Rushville Kiwanians to their high positions.

## FIRST GAME SCHEDULED TO BE PLAYED OCT. 10

World's Series Will Open in New  
York Yankee Stadium, According  
to Arrangements

### GAMES TO BE ALTERNATED

New York, Sept. 25.—The first game of the 1923 world series between the New York Yankees and the winner of the national league pennant, will be played in New York on Wednesday, October 10.

Details of the conduct of the series were announced here this afternoon by Kenesaw M. Landis, commissioner of baseball, after conferences with officials of the National and American leagues.

The series will open in the New York stadium and if the Giants should win the National league pennant, the second game will be played at the Polo grounds.

The Yanks will be regarded as the home team in games number 1, 3 and 5; the Giants will be home team in games 2, 4 and 6.

If the Cincinnati Reds should win the National league pennant, the first two games will be played in New York and the next two games will be played in Cincinnati. It would be decided later when the remaining games of the New York and Cincinnati series will be played if they are necessary.

## WOULD REPLEVIN TWO HOGS

S. C. Kirkpatrick Files Suit Against  
Isaac Campbell

Sylvester C. Kirkpatrick is plaintiff in a suit filed in Justice Steel's court against Isaac Campbell, the complaint being to replevin two hogs, which are alleged to be in the custody of the defendant. The plaintiff also seeks \$25 judgment as damages. The case will be heard September 27.

The Starr Piano Company also has filed a replevin suit against Scott and Lizzie Lawson for the possession of a phonograph, and with the demand being for \$65 judgment. This case will be heard September 28.

## LOCAL TELEPHONE PLANT INSPECTED

Mayor C. J. Horne Of Anderson Here  
To Get Ideas Regarding A Co-  
operative System

### MAY INSTALL AN AUTOMATIC

C. J. Horne, mayor of Anderson, was in Rushville Monday afternoon inspecting the local telephone building and plant, getting an idea as to how an automatic exchange is operated.

The people of Anderson, upon protest of the high rates charged by the Bell Telephone company, are planning the financing of an independent system, and they are thinking seriously of installing the automatic system which is used here and at Richmond.

The rates at Anderson were said by Mayor Horne to be \$7.00 for business houses and \$4.00 for residences, which has brought up the agitation for a co-operative system. Mayor Horne was highly pleased with the results obtained here.

Anderson, Ind., Sept. 25.—Following the movement started by Indianapolis civic organizations to organize an independent telephone company in protest against the Indiana Bell's \$1,600,000 annual rate increase, Mayor Horne today suggested a similar movement on the part of Anderson citizens.

Mayor Horne, who is chairman of the committee of the Indiana Municipal league which will lead the fight against the rate boost, declares he is opposed to two phone systems in Anderson, and if an independent system is started, the Bell may eventually be squeezed out of Anderson.

## PRINCIPALS TO MEET HERE ON WEDNESDAY

School Officials Will be Given In-  
structions, Putting Ban on School  
Hazing in Future

### OTHER BUSINESS MATTERS

The principals of the Rush county schools, who recently organized an association to promote their welfare in the county, will hold their first official meeting in the assembly room of the court house Wednesday night at 7:30 o'clock, and several matters will come before them.

B. D. Farthing, county school superintendent will take up the matter of school hazing, and will call attention to the fact that hazing in any form, either in fun or of a serious nature, is to be banned from the rural schools. This action is being taken on account of an affair near New Salem last week when Vernon Walke, a high school student committed suicide, and there was some intimation that he had brooded over the fact that he had been hazed at school on the day before.

Among other things to be discussed are plans for a basketball team, representing the coaches of the county schools, who may organize a strong team to play independent ball this winter. Every school in the county has college players for coaches, and the schools could produce what is believed to be a winning independent team.

Plans also will be taken for the principals to have charge of a column each week in the Daily Republican, which will give school activities in brief from all parts of the county.

## IN THE NOT FAR DISTANT FUTURE

## MUSCLE SHOALS PROJECT FAILS

Falls Through Due to Sale of Gorgas  
Power Plant by War Department  
Belief in Washington

### INCLUDED IN FORD'S BID

Secretary of War Weeks Receives  
Message From Ford Engineer Ex-  
pressing Surprise at Sale

By A. L. BRADFORD  
(U. P. Staff Correspondent)

Washington, Sept. 25.—The war department is without information concerning Henry Ford's future intention regarding Muscle Shoals, it was stated today at Secretary Weeks' office.

Weeks denied, he had received from Ford any answer to the suggestion that the Gorgas Power plant be eliminated from Ford's offer to leave the Muscle Shoals project from the government.

The next move is up to Ford, officials said. The sale of the Gorgas Power plant to the Alabama Power company yesterday makes it necessary for him to revise his offer if it is to be considered any further.

Washington, Sept. 25.—Official Washington believes Henry Ford's Muscle Shoals project has fallen through as the result of the sale by the war department of the Gorgas Power plant to the Alabama Power Company.

The sale of this property was announced on page three.

## DISMISSED FROM THE FORCE

Indianapolis Policemen Found Guilty  
of Insubordination in Watson Case

Indianapolis, Ind., Sept. 25.—Lieut. Arthur McGee and Patrolman Harvey Bedford, were dismissed from the Indianapolis police force today by the board of public safety.

The board found them guilty of insubordination upon testimony that they went to Colfax, Ind., with a warrant, charging a young man there with murder of Robert Watson, a stabbing victim, without having obtained permission from superior officers to make the trip.

Demand for their removal was made at a stormy session of the board of safety last week, at which Mayor Shank declared differences over the Ku Klux Klan were threatening to disrupt the Indianapolis police force.

## DUE TO LAWYER'S ILLNESS Case Scheduled For Trial In Court Today Is Postponed

Little court business was transacted today, as the case scheduled for trial was continued on account of the illness of an attorney, and only a few minor matters came up before Judge Sparks in the circuit court.

Charles H. Tompkins is plaintiff in a suit filed today against Eva Bell McDaniel, the complaint being on an account demanding \$100 judgment.

Albert C. Stevens has also filed a petition in court against Barton Robbins, alleging that he is a person of unsound mind, and incapable of managing his own affairs, asking the court to commit him.

## PROBE OF M'CRAY AFFAIRS IS ASKED

Marion County Grand Jury Is Re-  
quested To Investigate Governor's  
Financial Affairs

### REQUEST COMES FROM MARION

Attorney For Bank Says There Are  
Circumstances Which Would Re-  
ceive Grand Jury Consideration

Indianapolis, Ind., Sept. 25.—A request has been made that the Marion county grand jury investigate the private financial affairs of Governor McCray in connection with notes endorsed by the governor, it was learned today.

The request came from Gus Condo, of Marion, Ind., attorney for the Marion National Bank. That bank has pending a suit for \$3,500 against McCray in a court at Joliet, Ill.

"It was felt that there were circumstances which should receive grand jury consideration," Condo said.

Requests for the grand jury probe was made of William P. Evans, Marion county prosecutor.

Judge James A. Caldwell, of the criminal court has been told that neither Evans, who is a son-in-law of the governor, nor the governor would stand in the way of an investigation.

In the event an investigation is ordered, it is understood that Evans will consent to the appointment of a special prosecutor to handle it.

## TO ENDEAVOR TO MEET PEACEABLY

Leader of Oklahoma Legislators  
Seeking to Meet Wednesday Says  
They Will Avoid Trouble

### "SHOOT TO KILL", ORDER

Gov. Walton Instructs Adjutant Gen-  
eral to Use All Forces Necessary  
to Prevent Meeting

(By United Press)

Oklahoma City, Okla., Sept. 25.—Members of the Oklahoma legislature leading the movement to start impeachment proceedings against Governor J. C. Walton held steadfast today in their determination to meet Wednesday noon despite the executive's orders to troops to "shoot to kill" if necessary to prevent the session.

The governor issued instructions to Adjutant General B. H. Markham to stop the legislature from meeting "at any time and any place in Oklahoma" and use all of the military forces of Oklahoma needed to carry out the order.

At the same time Governor Walton commanded all citizen soldiers in the state between the ages of 21 and 45 to hold themselves in readiness for service in the open warfare between the visible government and the invisible empire.

"At least seventy members of the legislature will be here tomorrow," it was said.

## REMUS IS FACING ARREST

Suspected In Connection With Li-  
quor Cache Near Morristown

Shelbyville, Ind., Sept. 25.—George Remus, wealthy Cincinnati lawyer, said by federal authorities to be the head of one of the greatest liquor rings that ever operated in the United States, faced arrest here today.

Remus was expected to come here from Cincinnati to replevin a passenger car, which was wrecked near Morristown, Ind., September 16. Eighty gallons of whiskey and a coat bearing Remus' name, were found in the car.

Sheriff Rees Smith, E. R. Crosby, deputy sheriff, and John D. Thompson chief of police, met all Cincinnati trains today, looking for Remus. They were armed with a warrant charging violation of the prohibition law.

## SCHOOL HACK LAW IS CITED

Auto Drivers Given Preliminary  
Warning About Passing Hacks

Drivers of school hacks are complaining now to county officers about negligent automobile drivers, who are failing to heed the law in driving their machines past a school hack that is either loading or unloading school children. An active campaign will be launched soon in the county, and drivers will be asked to report the machine licenses that fail to obey the law.

Many persons have been fined in the local courts during the last two years on account of the violation of the law. No machine can be driven past the school hack, whether it is stationed in front of a residence or school, while pupils are being loaded or unloaded, and the drivers of all approaching vehicles should not proceed to pass unless given the signal by the driver of the hack. The law applies only to school hacks that are standing still.

## PREMIERS FAVOR GOVERNMENT IDEA

German State Leaders Approve De-  
cision To Abandon Passive Resis-  
tance In The Ruhr

### OUTSIDE AID IS SOUGHT

Chancellor Stresemann Looks To  
England And Belgium In Reach-  
ing An Agreement

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Sept. 25.—The German state premiers, in their conference with Chancellor Stresemann today fully approved the decision of the government to abandon passive resistance in the Ruhr without further conditions.

The German government was preparing to attempt negotiations with England and Belgium to obtain their aid in reaching a basis for settlement of the reparations question.

Following Chancellor Stresemann's official announcement of abandonment of passive resistance in the Ruhr, without conditions, the government looked to Brussels and London to obtain leniency from France. Early reports indicated the people as a whole were accepting the statement more calmly than had been expected.

As has been reported previously by the United Press the government is certain the question of return of expelled and arrested German citizens to their homes in the occupied areas can be adjusted easily, with

## MEMORIAL PARK BONDS ARE SOLD

Issue Goes To Rushville National  
Bank, Assuring Additional Ground  
And Improvements

### BOULEVARD TO BE ADDED

The bonds for the purchase and improvement of Memorial park, totalling \$24,000, were sold this afternoon at two o'clock in the council chamber to the Rushville National bank for a premium of \$209.20, par and accrued interest their bid being the highest of five competitors.

Bids of the other banking institutions were as follows: Meyer-Kiser bank of Indianapolis, The Union Trust Co., Indianapolis, \$100; People State bank, Indianapolis, \$144; American National bank, Rushville, \$115.01; Thomas D. Sheerin & Company, Indianapolis, \$26.

Now that the bonds are sold, and the purchase of the park is assured, the council will next take steps to go forward with their plans of the improvement.

A driveway, known as Memorial boulevard, will be extended from the north end of Jackson street, along the party to the North end of Main street, at a place near Sixteenth street, or a length of about 3-4 of a mile. The bond sale includes the improvement of the park by adding the road, and other minor features that will be undertaken next spring.

## CAPITALISTIC SYSTEM PRAISED

Brings To All People Comfort And  
Greater Leisure Than Any Other,  
Banker Says

### NATIONAL MEETING OPENS

President Of American Bankers As-  
sociation Assails Various Schools  
Of Radicals Today

Atlantic City, N. J., Sept. 25.—Justifying the capitalistic system as having "brought to all the people more comfort and greater leisure than has any other system thus far tried," J. H. Puelicher, President of the American Bankers Association, in his convention address here today made a vigorous assault on the various schools of radicals of the day. At the same time Mr. Puelicher recognized a number of evils of the capitalistic system, declaring that there should be no child labor, no seven day labor week, no unduly long hours of labor, and no "treacherous business cycles." He said that "any system of society can last only if its adherents promptly abolish evils as they develop," or else reform will be forced from without "by those who will destroy with the evil all that is good."

Denouncing Government management of business as "a demonstration of its disqualification in that field," Charles E. Mitchell, president of the National City Bank of New York, in an address today before the general convention of the Association, demanded "economy in government expenditures that will bring relief from taxation as fast as it can be given. He advocated an immediate revision of the "present income surtaxes that dam the natural flow of wealth in the channels of wealth producing enterprise and divert it into tax exempt investments that mean State and municipal non-productive development and waste."

"We are enjoying in this country today a real state of prosperity," he added, "and we should be cognizant of it and instill so far as we are able a spirit of confidence throughout 'Business America' that will extend the life of the prosperous period. I am not afraid of the ability of this country to compete in the long run to secure an ample share of world trade, provided we now recognize that competition is coming, that it is going to be vigorous and that to meet it we must loosen every restraint to American industrial development to the end that in this country there may be an efficiency which will overcome a higher standard of living and still make us able to do business on the world's price level."

"Socialism, Communism, Anarchism, Syndicalism, I. W. W.-ism are seeking to make converts in their attacks upon the very foundations of

## RALLY DAY TO BE HELD OCTOBER 7

Workers' Conference of Main Street  
Christian Church Arranges For a  
Program

### DURING SUNDAY SCHOOL HOUR

At the meeting of the workers' conference of the Main Street Christian church Sunday school, held Monday evening in the Sunday school department of the church, arrangements were made for a Rally Day program to be held Sunday morning, October 7, during the Sunday school hour.

Committees were appointed to take charge of arranging for a program and plans were discussed for an excellent program at that time. The church observes Rally Day each year, and an effort is being made to make this one of the best services ever given by the church.

There will be no conference meeting during the month of October, owing to the meeting for this month being held so late in the month. The next meeting will be held in November. At the close of the meeting Monday evening the primary department served those present with a delicious course luncheon.

# Going Out of Business Sale!

Having been in the Wall Paper and Paint business either as a retailer or general contractor in Rushville and Rush County for nearly a quarter of a century, we have decided to close out our entire stock of Wall Paper, Paints, Varnish, Glass, Brushes, Lead, Oil, Mouldings, Etc., and discontinue our business. In order to do this quickly, we are going to offer to both our old and new customers for just 15 days, beginning

## Thursday, Sept. 27 and Ending Saturday, Oct. 13

an opportunity to buy goods at far below present cost levels. We wish to make it to your interest to buy goods even for your next season's requirements, for all stock must be closed out at some price regardless of first cost or present values. At this time we take this opportunity to thank our customers and friends who

have always been faithful and loyal to our store and have contributed to make our business what it is today. While our business has always shown a steady growth and is quite satisfactory in every way we are retiring for the present at least for personal reasons and contemplate spending the Winter in the South.

JAPANESE RELIEF

Ten dollars more has been added in four contributions, to the Japanese relief fund that is being raised by the Rush county chapter of the American Red Cross, for the aid of the earthquake sufferers. The total is now near \$900.00, and those who have in mind giving to the fund are urged to do so at once. New contributions are as follows:

Previously reported	\$882.22
Zora Carney	3.00
Mrs. Ollie Martin	1.00
Ruth Martin	1.00
Mrs. C. H. Parson	5.00
Total	\$892.22

ROYAL NEIGHBORS MEET

Quite a number of enthusiastic Royal Neighbors met last night at the Modern Woodman hall and enjoyed a fine pitch-in supper, at the close of the regular session of the lodge. The menu consisted of ham sandwiches, peanut butter sandwiches, potato salads, various kinds of pie and cake, sweet and sour pickles, etc. Plans for the fall campaign were discussed, and the possibility of having the Batesville Royal Neighbors degree team come here in the near future and initiate a class of candidates was also considered. The meeting was a very friendly one, and those who failed to attend missed a delightful evening's entertainment, it was announced.

Crowfordsville —Simple services marked the passing of "Cute," pet poodle of Mr. and Mrs. Arthur Jackson. After the body had been embalmed and placed in a specially designed casket, services were held in the theatre owned by Jackson. "Cute's" last resting place is under the box office of the theater.

DENIES ATTEMPT TO OUST M'CRAY

Clyde A. Walb, Republican State Chairman, Back in Indianapolis to Arrange For Meeting

PARTY WORKERS TALK IT OVER

Indianapolis, Ind., Sept. 25.—Denying that there is an organized attempt on the part of some Republican workers to oust Governor McCray, Clyde A. Walb, state chairman returned to Indianapolis today to start preparations for the special meeting of the state committee next Monday.

The meeting, originally called for Saturday, was postponed until Monday because Postmaster General New will be unable to reach Indianapolis until Monday.

Walb declared the committee will go over the entire situation brought about by the governor's financial adversities with an open mind to determine what course is best for the interests of the party.

Numerous party workers are due at the state headquarters this week to talk the situation over with Walb.

PROBE OF M'CRAY AFFAIRS IS ASKED

Continued From Page One

Judge Collins has not indicated what action, if any, he will take on the request made by Gordo.

Meantime, plans are being made for the meeting of the Republican state committee next Monday at which McCray's financial affairs will be discussed.

Clyde A. Walb, of LaGrange, republican state chairman, was expected to arrive in Indianapolis today to take up matters preliminary to the session.

Republican leaders denied there was an organized attempt on the part of some Republican workers to oust Governor McCray.

The committee, it was declared, will go over the entire situation brought about by the governor's financial adversities with an open mind to determine what course is best for the interest of the party.

Numerous party workers are due at the state headquarters this week to talk the situation over with Walb.

PREMIERS FAVOR GOVERNMENT IDEA

Continued From Page One

the exception of a few cases where the French are expected to retain prisoners at least temporarily.

At the opening of yesterday's conference, preceding the chancellor's official announcement of surrender, Herr Stresemann revived the internal situation and said the nation could not bear any continuance of resistance.

Last week's payment into the Ruhr alone amounted to the equivalent of more than \$5,000,000 for support of resistance, Stresemann said.

Diplomatic efforts to reach an agreement were fruitless, Stresemann continued, confirming previous dispatches of the United Press which pointed out that the offer through the Belgian minister failed by France's refusal to accept the German conditions.

A continuation of resistance could not help Germany's situation the chancellor said.

Following Stresemann's explanation all the delegates attending the conference agreed to surrender, although at first there was bitter opposition from the Deutsche nationalists.

Today's developments cannot be forecast. Herr Knilling, the Bavarian premier, already is in Berlin and has indicated he will balk at accepting the decision.

The Ruhr and Rhine leaders, however have adopted a solemn vow of unity with the Reich and it is learned the government, contrary to other reports, is breathing more easily regarding the threatened Bavarian outbreak. Through a clever ruse, under guise of troop maneuvers, the government has succeeded in getting all Bavarian Reichswehr troops into Wurtemberg and Baden, leaving only trusted Saxon soldiers in Bavaria.

The fear previously had existed that the Reichswehr might be induced to join the various Bavarian "fighting bands" in coup against the Berlin government.

LAST ENTRANT LOCATED

Brussels Sept. 25.—The final entrant in the James Gordon cup race which started Sunday and cost five lives, was accounted for this afternoon when the Spanish balloon, Estheria was reported as descending near Woldendorf, Holland. The aero-club has started checking up reports to determine the winner.

MRS. KATE PHILLIPS DIES

Wife of Albert Phillips, Colored, Expires This Afternoon

Mrs. Kate Phillips, colored, wife of Albert Phillips, an employe of the Joe Clark garage, died this afternoon about two o'clock at their apartment above the garage, 113 1/2 East First street. The deceased was about 50 years old, and had been ill for several weeks suffering with tuberculosis.

Besides the husband, she is survived by her mother, Mrs. Henry Hughes of this city, and several brothers and sisters.

The funeral arrangements were not completed today and will be announced later.

MUSCLE SHOALS

PROJECT FAILS

Continued From Page One

nounced late yesterday by Secretary of War Weeks.

The Gorgas plant was included in Ford's Muscle Shoals bid. He said he would not bid for Muscle Shoals without Gorgas. He has not replied to a request by President Coolidge and Secretary Weeks that he eliminate the Gorgas plant from his offer. The only word that has come from him on it was indirect.

Weeks yesterday got a telegram from W. B. Mayo, Ford's chief engineer on the Muscle Shoals plan expressing surprise at the sale and stating that Ford was away from Detroit on business.

Some officials were inclined to think that Ford would fight in whatever way is possible to overturn the sale of the Gorgas plant to the power company, basing his objections on an opinion rendered months ago by Attorney General Daugherty, that the contract with the Alabama Power Company giving it an exclusive option to purchase of the plant was made without due authority. This contract has been under fire for a long time. It was made during the war by Army officers in charge of the Muscle Shoals nitrate project.

In announcing the sale, late yesterday for \$3,472,487.25, Weeks set forth the existence of the contract, stated that under it the government was powerless to do anything but sell to the power company or scrap its plant and remove it from the power company's land on which it was erected.

"Under the circumstances, no other course was open to the government but to sell to the Alabama Power Company, and it has thereby succeeded in successfully salvaging its interest in the Gorgas property," Weeks said.

Weeks has always been opposed to the Ford offer. He and Mr. Coolidge have determined, however, to get some final settlement of the question without further delay. Ford now must either renew his bid without the Gorgas plant, or drop the whole project officials here believe.

TO ENDEAVOR TO MEET PEACEABLY

Continued From Page One

and will make every effort to meet peaceably," said W. D. McBee, chief agitator for impeachment of the governor.

The citizen soldiers were instructed to be in readiness with such arms as "they may possess or can obtain." These instructions, however, were practically superfluous because every man in Oklahoma who has any kind of a gun, or other weapon has it oiled and ready for action.

Oklahoma, whose history from the time of settlement of the "strip" to the warfare over the location of the state capital at Muskogee or Oklahoma City has been marked by tense situations, has never witnessed a more critical moment than the eve of the scheduled meeting of the legislators.

All of the surviving famous peace officers, led by "Back" Garrett and Zack Mulhall, mingle with the milling crowds in hotel lobbies. Hip pockets bulge, but not suspiciously, for everyone knows a six shooter dangles there. Machine guns command strategic points in the city from the hotels to the capitol.

Youthful guardsmen patrol streets and roads with guns of heavy army calibre displayed. Practically all members of the legislature who are expected to answer the summons for the special meeting were on hand today. Anti-Walton forces claimed there were seventy members of the lower house in that city.

Governor Walton in his final drastic orders forbidding the meeting said it was "a-betting the cause of the invisible empire, or the Ku Klux Klan" and that the Klan is an "enemy of the sovereign state of Oklahoma." He declared evidence presented to the military court showed it had taken over political government in many cities and

counties and as an organization, has murdered, whipped, beaten, flogged and out raged many citizens."

Great activity was apparent among the troops enforcing martial law here through the day. Huge trucks roared through the streets carrying heavy loads of uniformed men. All movements of the military were kept secret at headquarters.

HONORS PAID

TO J. T. ARBUCKLE

Continued from Page One

"I can't express the pleasure I have," said Mr. Arbuckle in response, "for having been invited to be with this bunch of men today. I can't tell you how glad I was to hear the friendly regard expressed by the Rotary club in the letter from its secretary read at our last meeting."

"I have been signally honored—an honor which I feel is not personal. I feel that it is not a personal honor, that the Kiwanis clubs of Indiana wanted to bestow an honor on the Rushville Kiwanis club and also on this city, which is famed for its hospitality and for its citizenship all over the country."

"I don't know anything that gives me more pleasure than to have the good will and confidence of my fellowmen. And I hope that I will continue to have it. I don't feel that I merit it, but I hope that I will."

Mr. Arbuckle said that Rushville seemed to have the habit of "bringing home the bacon," referring to the valuable links that were put in for him at the South Bend convention by local Kiwanians. He declared that he could never say too much "for this fair city."

"We should be ready at all times to say a good word for Rushville," Mr. Arbuckle continued, illustrating it with an apt story. "I don't believe there is any place that has a higher standard of citizenship and education, or a more industrious people are to be found any place."

He referred to the mottoes of the two clubs and said that they should ever be put in practice as they have been in the past.

Mr. Arbuckle said people of Rushville and Rush county had just pride in their factories, beautiful homes, lawns and shade trees, and modern highways and improved farms, but that the enduring thing is a "community spirit."

"It is the people of which you are a part that has made this the Eden of the country," he declared in conclusion.

Mr. Trusler said that he was grateful to his friends to have the confidence that they had reposed in him and was glad of the opportunity to be present at the meeting.

"It is a great thing," he continued, "this wonderful spirit of friendliness that you are glad for us. This spirit is going to be a big help to Tom Arbuckle in his work. For, after all, he is as much your governor as he is ours, because our ideals are identical. Whatever measure of success comes to him comes to us also."

Mr. Trubue, who spoke briefly, said he wanted to correct the opinion that "Uncle Tom" did not merit the honor. While it was true, he said, that the standing of the community and the local club did help, "but when you go into a campaign with a man like Tom Arbuckle, there is nothing but success certain. He said that it had been demonstrated that he two clubs can co-operate for the betterment of the community, and

WOMAN SO ILL COULD NOT STAND

Says Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

Glens Falls, N. Y.—"For over two months I was so sick I was not able to stand on my feet, and my husband did my housework. The doctor said an operation might be necessary. I read testimonials about Lydia E. Pinkham's Vegetable Compound and began to take it. Before I had finished taking the first bottle I saw what good it was doing me. I am now well and strong, doing all my work for a family of four, all my washing and my sewing, which I think is remarkable, as I had not dared to run my sewing machine, but had done all my sewing by hand. I truly feel that were it not for your medicine I would not be here today as my case seemed very serious."—Mrs. GEORGE W. BURCHELL, Glens Falls, N. Y.

Free upon Request  
Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free, upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information that every woman should have.

ANNUAL HARVEST FESTIVAL

Donations Of Fruit, Vegetables And Clothing Sought By Salvation Army

The annual Fall Harvest Festival of the Salvation Army will be held Wednesday evening at the church, and arrangements have been made by Lieut. McFall and Cadet Turpin, officers in charge of the Army work in this city, for a splendid meeting.

Anyone who will donate fruit, vegetables, chickens and clothing, to the festival, are requested to notify the officers in charge at 440 West First street. If they wish someone to call for their donations, they may call phone 2259 and arrangements will be made to get the food or clothing.

Bluffton —Mrs. James C. Runyon bride of a day, waited patiently for hubby to come, wondering if he had deserted her so soon after the wedding. Hubby was only spending the night in jail at the request of authorities in order to appear as witness in a court case next day.

**ABUNDANT PARDON:**—Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and He will have mercy upon him; and to our God, for He will abundantly pardon.—Isaiah 55: 7.

## Wheat Free of Chaff

An American business man who has just returned from Europe tells us that "France has raised enough wheat this year to supply her needs without imports. Italy has raised a bumper crop and will import 25 percent less than last year. Russia is exporting wheat \*\*\* European countries can produce food cheaper than the American farmer can lay it down in Europe."

There we have the true explanation of the present depression in the

price of wheat in America. Europe is not buying so much American wheat because she does not need it. All the "participation in European affairs" that the internationalists ask, would not increase the consumption of American wheat in Europe to the extent of a fraction of one percent. Europe will buy only as much American wheat as necessity compels, and she will buy that much regardless of our much agitated "participation."

## Making The Unfit Fit

Intensive military training develops weak men into hardy ones.

During the past summer an experiment was conducted at Camp McClellan, Ala., which has demonstrated the truth of this statement.

One hundred and twenty military training camp students were selected for their physical unfitness for military service. At the end of three busy weeks of military training they were turned out as "potentially capable fighting men."

Investigation showed that there was a remarkable improvement in weight, chest expansion, height, mental alertness and enthusiasm, thus transforming physical defectives into real men.

This ought to be an argument for military training for all of our boys. Any kind of training that is good for the individual is equally good for our country, and should be encouraged in every way.

## League Amendment Suggested

Italy claimed the league of nations was without jurisdiction in the controversy with Greece because it was a case involving Italy's honor. There is nothing in the league covenant which admits of any such interpretation but since the league acquiesced in being supplanted by the council of ambassadors, which imposed on Greece the very conditions demanded by Italy, it would seem that the league accepted Italy's statement as correct. Therefore, the covenant should be amended something after this fashion: "Provided, however, that in any case where the honor of a member nation has been attacked by another nation, member or non-member, the provisions of this covenant shall be without force or effect."

The question as to what constitutes an attack upon the honor of a member nation shall be decided by the member nation which believes its honor to have been attacked."

## Bills by Billions

"America should invest in Europe," says a prominent financier. Unless newspaper reports are in error, we have been doing that for some time. For instance, Americans are supposed to have put a billion or more into German marks. Thus far that was nearly all profit for Germany. Daily reports of bond transactions on the New York Stock Exchange show that large amounts of French, Belgian and British bonds are bought in America. These are manifestly bought by Americans, for if bought by people of Europe they would be bought in the London market. The people of the United States through their government, invested \$11,000,000,000 in Europe through the war loans. They have added enormously to that investment through private channels since.

**Tom Sims Says**

The first sign of a winter is when you wish it was summer.

Do your eyes hurt you? Quit looking daggers at people.

Does dandruff bother you? Worry about it until you are bald and the dandruff will leave.

Do your trousers bag at the knees? Loan them to a bowlegged man and he will take the bag out.

Always chew tobacco while calling on a girl you do not want to kiss. It works fine.

Cry when a girl starts kissing you. Stomping on her feet is another way to make her stop it.

Damp feet are said to be one cause of bad colds. It shouldn't be so hard to give them up.

When a bad cold meets a good disposition the bad cold wins.

Put on too much speed ahead and you may meet with reverses.

Is your face your fortune? That is why so many men feel cheap when they need a shave.

Screens may be taken down properly by hiring a man to help you and then you helping him.

A woman marries a man to mend his ways and finds all he wants her to mend is his clothes.

Never worry about how late it is because it never is as late as it will be a little later.

A grouch may be a man who married a woman to share his troubles only to learn she caused them.

The Hodge - Podge  
By a Paragrapher with a Soul

A railroad conductor's wife couldn't sue her husband for \$8,500 alimony before the war with any prospect of collecting, as a Logan-port woman has done.

Turkey wants the United States fleet withdrawn, but how does the United States know that Turkey is going to behave?

The disarmament conference never contemplated that vessels should be scrapped on the rocks.

Taxing the rich more doesn't hurt the rich, but the poor who help make the rich, rich.

When President Coolidge wrote that letter to shoemaker Luey saying that "if it had not been for you, I would not be here," he put a quietus on the numerous individuals who were beginning to claim that they "saw him first."

A man may be the 'first citizen' but he can't be both first and last.

G. O. P. minds are said to be open in McCray's case, but no one seems to know what is in them.

Recovering anything on oil stock seems about as fruitless as the proverbial hunt for a needle in the haystack.

FIFTEEN YEARS  
AGO TODAYFrom The Daily Republican  
Friday, Sept., 25, 1908

When Mrs. W. O. Headlee received a letter from her husband this morning, she learned for the first time that her daughter Norma, had been suffering with scarlet fever for the past three weeks. The little girl went to Asheville, N. C. about four weeks ago with her father, County Supt. Headlee, who hoped that his health would be benefited by the change of the atmosphere. They had been there only a week when the daughter was taken sick with scarlet fever, and has been under quarantine in the care of a special nurse for the past three weeks. The child is now on the road to recovery and completely out of danger.

All the grades in the city schools were dismissed at three o'clock this afternoon on account of the hot weather. The younger school children have been dismissed every day this week about fifteen minutes early.

Mrs. Anna Beachbard entertained at dinner today Mrs. O. C. Hackleman and daughter, Miss Elizabeth and Dr. F. G. Hackleman and family.

The services Sunday evening at the Main Street Christian church will be unique in character. The platform will be decorated with products of the farm. Mrs. Ida Spurrier McDaniel and Jesse Pugh will sing appropriate songs and the congregation will sing harvest hymns.

Ralph Stiffler has gone to Butler college and will probably attend school there during the year. Butler students, especially those interested in football, have been anxious for Stiffler to enter school there. Concerning Stiffler's work at Thursday afternoon's practice, the Indianapolis Star says: "One of the strongest candidates for the back field is Stiffler of the Rushville high school. Stiffler played end on the Rushville team, and although he is being worked at half now, he may be changed to full."

Mrs. Nannie H. Ross has gone to Columbus, Ohio, to visit her daughter, Mrs. Paul Mesar and family. On her return she will be at home with Mrs. Will Jay in North Main street.

Dr. and Mrs. C. H. Parsons have returned from an extended visit in the East.

Mrs. Douglas Morris will entertain the Coterie next Monday at her home in East Fifth street with a cleverly planned afternoon of enjoyment.

Fon Riggs can now play on piano from Beethoven, Handel, Chopin and other great composers with marked preciseness. But he plays with his feet, having recently installed a piano player in his home.

Miss Edith Wilk has been pledged to the Kappa Alpha Theta sorority at Indiana University.

Carl Gunning, who is a candidate for quarterback on the high school football team has a badly bruised nose, received in practice last night. However, he will be able to go in Saturday's game with Shelbyville.

Miss Clara Gregg has been sick for several days at her home in North Harrison street.

The Western Horseman has a frontpiece this week of Aileen Wilson, 2:03 1/2, with Dick Wilson up.

## From The Provinces

'at's Telling Truth and Shaming, & (Houston Post)

The circumstance that Jack Dempsey can make a half million in a single fight is no great tribute to his ability as a fighter, but to the streak of fool that runs through the American mind.

Will Make Eighth Wonder of World (Detroit Free Press)

Senator Willis says he favors Coolidge as the next Republican candidate. Can it be that Ohio is going into the convention for once without a favorite son?

One Nobody's Ever Solved (Washington Post)

Now that coal miners and operators have decided to bury the hatchet, the problem is to prevent them from burying it in the public.

It's Glory That is "Loaded" (Indianapolis Star)

No one will likely attempt to deprive Governor Pinchot of full credit for saddling an additional charge on the coal buyer.

He's Riding For a Fall (Louisville Courier-Journal)

Mussolini seems to be riding D'Annunzio's Pegasus. Anyway he is on a high horse and is planning to seize Fiume.

# Buy Your Tires from a Firestone DEALER

## At the Latest Prices—The Lowest in History

You will find the Firestone Dealer one of the stable business men of your community. He offers a clean, fresh stock, backed by a well organized service. He wants you as a permanent customer.

That is the reason he sells Firestone tires. He knows and has plenty of proof that they are the best tires on the market. He can give you the greatest value and thereby retain your trade for years.

Every day you find new proof of this unequalled value. On the 15th of this month, Firestone Tires set two new dirt track records at Syracuse when Tommy Milton slid around four turns at every mile and covered the 100 miles in 75 minutes, 33 hundredths seconds. He also established a new world's record for one mile by covering it in 42 and 28 hundredths seconds. The next four cars to finish were also equipped with Firestone Gum-Dipped Cords. Each one of them

went the entire race without a stop. This and every other important race this year was won on Firestone Gum-Dipped Cords and Steam-Welded Tubes. Such performance gives you conclusive proof of their strength and durability.

Not only do race drivers use Firestone Tires as protection to their lives and the surest way to victory, but the largest tire buyers in the world insist on and buy Firestone Tires for economy and service. These buyers include the leading car manufacturers, the biggest commercial car operators and the taxicab and motorbus operators. 57,639,714 tire miles were sold to taxicab and motorbus operators in the month of August.

Think this over. You cannot afford to accept anything less than Firestone service and economy. You can buy this service and economy from any of the dealers listed below.

# Blazing the Way

PERHAPS the outstanding characteristics of the Standard Oil Company (Indiana) and its success lies in the fact that in all of its activities it has had to establish precedent—there was none to follow.

For this reason it was forced to delve far into science—to analyze—to deduce—to conclude—to act.

It was the task of the Standard Oil Company (Indiana) to eliminate haphazard—to eliminate the speculative.

If the products of petroleum were to be a staple and become an integral part in the operation of other industries, the entire process of refining petroleum must be based on scientific accuracy.

It was on this premise that the Standard Oil Company (Indiana) established its immense research laboratories, equipping with every modern facility.

The findings of the men in these laboratories have contributed much to the success of the Standard Oil Company (Indiana) and enabled it to earn its rightful position as a leader in the industry.

Scores of new products have been evolved in these laboratories. All were taken from the single base—crude petroleum. They have enabled you to partake of many of the refinements of life and to enjoy comforts that otherwise would have been denied you.

Viewed broadly, the pioneer work of the Standard Oil Company (Indiana) has done much to stabilize industry; to put production on a standard of accuracy; to reduce the cost of commodities; to develop new methods; to give inventive genius a starting point.

The Standard Oil Company (Indiana) has not confined its pioneering alone to the manufacturing and selling of petroleum products.

It has inaugurated new methods of industrial relations within its own organization that have gone a long way towards solving the problems confronting industry generally.

Thus, by blazing its own trail has the Standard Oil Company (Indiana) grown big—big in size and big in service—to the thirty million people of the Middle West.

## NEWSY GOSSIP IN THE WORLD OF SPORT

TRACK AND FIELD  
EVENTS—WRESTLINGTO SPEND WINTER  
PICKING UP DOUGH

Luis Angel Firpo Will Not Bother  
With Any Preparation For Next  
Fight With Dempsey

## TO HAUL IN COIN FOR 6 MONTHS

Will Make Exhibition Tour in Canada  
And Then Return to South  
America Before Training

By HENRY L. FARRELL  
(U. P. Staff Correspondent)

New York, Sept. 25—Luis Angel Firpo is going to spend the winter picking dough and will not bother with any preparations for his next fight with Jack Dempsey.

Plans being made now by the big Argentine have no room for the higher education in the use of fists which the critics insist he must acquire if he wants to win the heavyweight championship.

Firpo is going to use his hands only to haul in coin for six months and then he may get himself some instructors and go through the process of learning how to act in the ring.

He is going to make an exhibition tour in Canada and then grab a boat for South America where he wants to show the natives the man who gave the great Dempsey his hardest fight.

After Firpo's fight with Dempsey, Benny Leonard, the lightweight champion, said that he had been leased to act as a tutor for Firpo.

It was reported also that Jack Johnson, the former heavyweight champion, was being considered as a teacher and later the story was heard that Firpo was considering Jimmy DeForest whom he "canned" before his big fight, as the best professor in sight.

Tex Rickard, who is planning another meeting next summer between the champion and the Argentine, has been trying to induce Firpo to start training at once.

Firpo still maintains that he was rushed into the match before he was ready and that he could have won the championship in another year. There is some logic in his contention as in another year Dempsey might not be in the same perfect condition that enabled him to take everything Firpo had and come back for more.

The South American, in acting with such little interest about his future prospects in the ring, may be trying to fool the public and perhaps will spend the winter in South America in sincere training.

## YAZEL DID NOT PITCH

In the report of the baseball game Monday, it was stated that Yazel pitched the game for Rushville against Fabmouth, but this was an error, and the game was pitched by McCarty, who allowed only one scratch hit, which came in the eighth inning. McCarty has been playing first base for the local team, and took the mound Sunday, and his pitching and hitting enabled the locals to shut out the visitors, 7 to 0.

## SPORT CHATTER

Boston—Pancho Villa, worlds flyweight champion, won a ten round decision from Tony Thomas, New Bedford.

New Haven, Conn.—Newell Neidlinger, Yale's regular quarterback has reported to the squad and is working out with the second team. Richardson, a newcomer, is calling signals for the varsity. George Coumers new trainer from Exeter, has taken charge of the squad.

Cambridge—With the squad cut down to four teams, Harvard football coaches have made tentative varsity selections and are working the first team in secret. Lack of kicking material is bothering the coaches.

Princeton—Princeton varsity football candidates have been reduced to 43 players. The squad reveals a wealth of brilliant backfield players but few new linemen have been found to fill the holes left from last year's team.

New York—Zev, the Rencocas 3-year-old and one of the American candidates for the international race against Papyrus, has resumed training. He is working well and Sam Hildreth, trainer, for the stable said he would be in shape to run if selected.

New York.—Everett Scott, iron man of the Yankees made a unquestionably record when he completed yesterday in 1,128 straight games. His claim for a record when he played in 1,000 straight games was questioned.

Covington, K. Y.—Joe Anderson, Covington, floored Bobby Lee, Indianapolis, five times in the fifth round here Monday night, Lee taking the full count on the fifth knockdown.

## Shatters World Record

This action photo of Paavo Nurmi, brilliant Finnish runner, was taken when he recently ran a mile in 4:10.25 at Stockholm, lowering the world mark of 4:12.25 set by Joie Ray of America.

## Wills On Dempsey Blacklist

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Sept. 25—When the court decided that Harry Wills had no legal rights to force his way into a contest for the world's heavyweight championship with Jack Dempsey he lost what little chance he had remaining for the title.

Wills may be held up as a martyr in that circumstances seemed to militate against his chances to win the championship and a fortune, but when the facts are considered dispassionately, the big colored fighter has no one to blame but himself.

He had many supporters up to the time he sought to prevent the Dempsey-Firpo fight at a time when all the arrangements had been completed and when Tex Rickard had spent more than \$50,000 in preliminary arrangements. It placed him in the position of a bad sport and it cost him a lot of public sympathy.

Had Wills been that aggressive in forcing the issue a year or two ago he would have had a crack at Dempsey before Firpo and he would have had a better chance to win the championship two years ago, because it is known that he has slipped considerably in the last year. It is only natural that he could not retain whatever form he possessed without fighting.

Firpo worked himself into a heat for the title by building himself up on a lot of fights. He wanted a crack at the championship and he submitted to the process of being built up to the position of the logical contender by fighting everyone he was asked to meet.

Wills would have had the bout a long time ago if he had agreed or been willing to do the same thing. When he started out to build himself up, he made himself look bad, especially in the bout with Clem Johnson, and he apparently decided then that he had only one shot in him and that was good for a losing end with Dempsey.

He was offered \$10,000 to meet George Godfrey in one of the bouts on the Milk Fund show, where Firpo and Jess Willard appeared, but he turned down the offer, saying that he was too good to appear in anything that looked like a preliminary.

Firpo might have considered himself as being better than a preliminary fighter, but he had business sense enough to see the opportunity of making such a good showing that the fans would consider him the best of the lot on the card.

Wills could have gone on in a preliminary and he might have made such a fine showing that the crowd would have given the verdict that Willard and Firpo were both hams and that Wills was the real contender for the title.

The colored fighter would have been asked to meet Firpo, but it is almost sure that he would have refused.

Floyd Johnson, the young Iowa heavyweight, was willing to fight Wills, and several promoters were willing to offer a fancy purse, but Wills would not consider the fight.

While other contenders were fighting around and trying to force themselves into a title bout, Wills sat back and wept that he was being given a raw deal, but he made no move to help himself and in the boxing game there are few helping hands extended for anyone.

## The Score Board

Chester Fowler rookie shortstop, accounted for four runs with a single and a homer and batted the Red Sox in the second game after Boston had lost the first game 6-1.

Nine runs scored in the sixth inning when Cole blew to the clouds, gave the Yanks a 12 to 4 win over the Tigers.

Schlieber's single in the tenth inning drove in two runs that gave the Browns a 4 to 2 victory over the Red Sox in the second game after Boston had lost the first game 6-1.

Grimes and Reuther were in good form and the Robins took a double header from the Cards at 8 to 2 and 7 to 3.

Alexander marked up his twenty-first victory when he pitched the Cubs to a 7 to 2 victory over the Braves.

After losing the first game 4 to 2, the Pirates beat the Phils 4 to 3.

Sheely's single after a pass and an error scored one run and the White Sox beat the Senators 1 to 0.

MEN'S SHOES  
AND OXFORDS

That Combine Comfort  
with Style.

Comfort first and then good looks —  
that's what every man wants when he  
looks for shoes.

The Florsheim "Rialto"  
Can be had in Shoes or Oxfords  
Black or Tan  
At \$7.50

You will find both of them combined in our display of Fall Shoes. Heavy stitching is the predominating style note. Nearly all the shoes have rubber heels. The square toe and medium round toe are the leaders. The colors are black, brown and tan. They are just the kind of shoe you have been looking for, at \$4.00, \$5.00 and \$6.50

## THE MAUZY COMPANY

## AMUSEMENTS

## Mae Murray At Her Best

Mae Murray has done the best work of her photoplay career in her latest Metro picture, "Jazzmania," presented by Robert Z. Leonard at the Princess Theatre where it was seen for the first time yesterday and on view again today. The amazing versatility of this gifted screen star was never more fully evidenced than in this film, and it is by all odds the most popular and entertaining of her pictures.

"Jazzmania" has everything in it. As a matter of fact, it is more than one photoplay. It has its background for the most part in the colorful kingdom of Jazzmania, a tiny Balkan principality. It shifts to Paris for a while; then to the Casino at Monte Carlo; and finally to New York. Spectacular scenes follow each other with incredible swiftness; and no sooner has one glimpsed a scene of rare beauty than another is flashed on the screen in its stead. "Jazzmania" is really a New York Hippodrome of filmdom.

The story is concerned with the troubles of a young Queen—Ninon—whose kingdom is beset by enemies. She flees to avert a revolution, and her love of jazz and excitement leads her to Monte Carlo and New York. During her stay in the American metropolis she learns of the plight of the women and children of her own country, and is persuaded to return to them. She arrives in time to prevent the betrayal of the kingdom. The people rejoice at her return, and she turns her tiny state into a happy jazz kingdom.

Miss Murray is throughout admirable in her portrayal of Ninon. She makes the transition from sheer comedy to dramatic emotionalism very easily and her dancing and costumes are even more attractive to the eye than usual.

## Gypsy Story At Mystic

Gypsies and their nomadic life have ever held a fascination for most of us, and in "The Bohemian Girl," the Harley Knoles production which comes to the Mystic again today, they are important in telling the fascinating romantic story, played by Ivor Novello, Gladys Cooper, Ellen Terry, Constance Collier, C. Aubrey Smith and a hundred other English celebrities.

"The Bohemian Girl" is a picture of the famous opera of the same name. Were it written today, instead of in 1844, it would be called "The Gypsy Girl." At that time, however, all gypsies were "Bohemians" because they were supposed to be native of that part of Austria. From this came the freely-used word of today, yet we never mean a gypsy when we say a person is bohemian. In fact there are far more bohemians today than there are gypsies, and prohibition has lessened the number of bohemians.

The gypsies in "The Bohemian Girl" are the traditional kind, clad in bright-hued garments, richly embroidered with spangles and tambourines, and with a great caravan of horses and then those wagons which are really houses on wheels. There is a Gypsy Queen

too, played by Constance Collier, and her redoubtable henchman, the wicked Devilshoof, in person of C. Aubrey Smith. Also there are the hero and heroine, Thaddeus and Arline, whose lot is cast with the gypsies while their hearts are not.

CAPITALISTIC  
SYSTEM PRACTICED

Continued from Page One

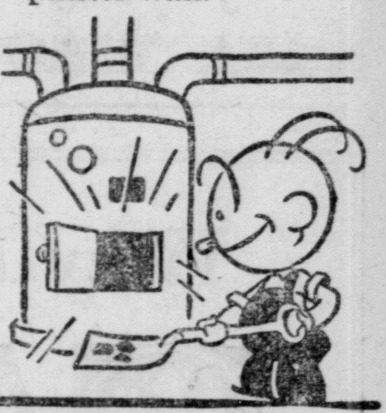

our government, in their attacks upon the institutions which have made America a great democracy, affording more opportunities for success and happiness than anywhere else in the world," Mr. Puelicher said. "Although every human being hopes for ultimate success, warfare against the successful is volubly raging. The dreamer, usually honest but usually impractical, the demagogue, never honest but often too practical, the professional reformer for personal profit, are all preaching the gospel of unrest, of class hatred, of disrespect for law and order, of discontent with honest endeavor. "Their stock in trade is appeal to the jealousy and envidy of the less fortunate. Capitalism is to be destroyed. Individual initiative is to be throttled. Its rewards confiscated. The lazy and the indolent hope to secure to themselves the earnings of the thrifty and the diligent. As in Russia, some would use force, others would through taxation 'bleed capital white.' To justify confiscation, in one form or another, the faults of capitalism are magnified, its virtues decried.

"Only as industry is rewarded by the possession and use of its accumulations can it be hoped that accumulations or capital will be striven for and preserved. Without the aid of capital or the accumulations of yesterday, each day is a new beginning. The mechanical aids to production encouraged under the capitalistic system have released human energy into a further multitude of inventions. Machinery has increasingly overcome the need and the hardship of manual labor, bringing increased opportunity, increased remuneration, increased possessions. "The wonderful progress and prosperity of America are due to the protection of the reward of individual initiative. The reward of individual initiative is the outstanding attribute of the capitalistic system. When Russia substituted Sovietism for individualism, only the generosity of the world saved her people from starvation.

"So that the inspiration of individual reward may remain the heritage of our people, equality of opportunity must be maintained; equality of capacity is a biological impossibility. The capitalistic system has brought to all the people more comfort and greater leisure than has any other thus far tried system. Its higher evolution demands that, with the further development of the machine, there must be given greater consideration to the development of the man. If we wish to preserve the good which this system brings to humanity, we must abolish in it whatever is bad and detrimental to progress, to happiness, to liberty. Those men who have courageously and honestly demanded that evils of the capitalistic system be corrected, should command our admiration and respect.

"There should be no child labor. If it is impossible to restrict it legally, the moral force of the entire capitalistic system should protect child life and child opportunity. It begins with protecting womanhood and motherhood, compelled to labor and is intelligent self-interest, intelligent self-preservation.

The coal dealer is a good fellow, but you don't have to give him all your money. If you will build a furnace room of Sheetrock—the fireproof wallboard—you will keep the heat in, keep the cold out, and keep dollars in your pocket. This different wallboard insulates like a standard plaster wall.

The American Literary Club will be entertained Wednesday afternoon at 2:15 o'clock by Mrs. P. H. Chadwick at her home in North Willow street. An interesting program has been arranged for this meeting.

Mrs. Bert Norris will be hostess to the members of the Happy-Go-Lucky club Thursday, when she will entertain with a one o'clock luncheon at her home, 134 west Seventh street. All the members are requested to bring their thimbles.

The Woman's Relief Corps will meet Wednesday afternoon in the G. A. R. room of the court house. The meeting is called for two o'clock and a good attendance is desired as arrangements will be made to attend the district meeting at Connersville, October 5.

The Band of Workers of the First Presbyterian church will be entertained Wednesday afternoon in the parlors of the church, with Mrs. B. O. Simpson, Mrs. J. R. Carmichael and Mrs. Henry Rugenstein as the

hostesses. All the members of the organization are cordially invited to attend this meeting.

The employees of the Rushville Glove Company enjoyed a pitch-in chicken dinner today at noon at the factory in East Third street. It is an annual event and the employees enjoyed the affair. A bonafide dinner was served on a long table, placed in the factory room.

The Get-To-Gether Club enjoyed a very delightful informal social afternoon Monday when they were entertained at the home of Mrs. John Davis in North Morgan street. At the close of the afternoon delicious refreshments were served by the hostess. The next meeting of the club will be held at the home of Mrs. Homer Cole.

Arrangements are being made for the entertainment of the grand matron, Mrs. Mae Reeves, of Clinton, Ind., and Mrs. Alice Kennedy, of Liberty, a grand officer, of the Eastern Star, by the Martha Poe Chapter, Friday evening, and also for the annual inspection which will take place on that night. At 6:30 o'clock a banquet will be served at the lodge rooms, honoring the grand officers of the lodge, and the inspection will follow the serving of the dinner. All members who have no tickets are requested to notify Mrs. Verl Behout. A large attendance is expected at this meeting.

Mr. and Mrs. Fred Beall and family of this city attended the wedding dinner Sunday given by Mrs. Mary J. Schmidt and daughter Maude, in honor of Mr. and Mrs. G. Bryan Wilson, whose recent marriage came as a great surprise. Mrs. Wilson was formerly Miss Barbara Schmidt. The Newcastle Courier had the following item in Monday's issue, describing the dinner:

Beautiful in all of its appointments was the wedding dinner given Sunday by Mrs. Mary J. Schmidt and daughter, Maude, in honor of Mr. and Mrs. G. Bryan Wilson, whose recent marriage came as a great surprise. At 5 o'clock a lovely three-course dinner was served, the color scheme of yellow and orchid being used. A large bouquet of asters and marigolds adorned the center of the table. The place cards were hand painted, representing brides and bride grooms in Colonial style. At the bride's place was a miniature bride. The ices were in the colors of orchid and yellow.

The guests were Mr. and Mrs. L. G. Shelley of Richmond, Mr. and Mrs. Fred Beall and family of Rushville, Mr. and Mrs. W. L. Schmidt of Indianapolis, Mrs. George Schmidt of Atlanta, Ga., Maxine, Helen and Janice Schmidt, Mr. A. Benson and the honored guests.

The first reunion of the Dearing family was held Sunday at Memorial park in this city. There were eighty-seven members registered during the day. At the noon hour a pitch-in dinner was served and in the afternoon a short devotional service was held. During the business meeting the following officers were elected: President, J. R. Dearing; secretary, Mrs. Ethel Krammes; treasurer, Russell Dearing; program committee, Mrs. Carl Dearing, Mrs. Chester Dearing and Miss Bessie Percell. The literary program was composed of reading of several letters from distant relatives who were unable to be present. It was voted to hold the next reunion at the same place next year, the fourth Sunday in September.

The guests were Mr. and Mrs. J. R. Dearing, Mr. and Mrs. Carl Dearing, Mr. and Mrs. Russell Dearing and family, Mr. and Mrs. Wilbur Dearing and daughter, I. N. Dearing, Mr. and Mrs. Waylon Dearing and son, Mr. and Mrs. Clara Delinger, Harlan Dearing and son, Mr. and Mrs. Rolla Grocox, Mr. and Mrs. John Burd and daughter, Mr. and Mrs. William English, Mr. and Mrs. Chester Anderson and daughter, Mr. and Mrs. Ert Dearing and son, Mr. and Mrs. Bern Percell and family, Mr. and Mrs. Chester Dearing, Mr. and Mrs. Herbert Dearing, and family, Mr. and Mrs. D. W. Dearing and son, Mr. and Mrs. E. M. Unger and son, Mr. and Mrs. Claude Collins and family, Mr. and Mrs. Roy Dolan and family, Mr. and Mrs. R. O. # FROCKS

Conform Delightfully

With

Fashions Whims

A REVIEW of Fall frock modes as revealed in our selections points a new way to smartness and economy. Through careful merchandising we have assembled a collection of frocks representing the smartest and most becoming of Fall trends at very reasonable prices. You can not appreciate the scope of this display until you have inspected our ready-to-wear floor. We shall be pleased to show you.

CLOTH FROCKS HAVE NEVER BEEN MORE STYLE-RIGHT THAN THIS SEASON

The cloth frock is the smart street frock this season and since it is frequently worn without a coat it necessarily feels it must perform a coat-like duty. Hence the straight-line silhouette. Those here of twill, rep, and tricotine are especially smart. You are dressed for almost any day time occasion.

AFTERNOON FROCKS  
Prefer Satin as Their Background

Generally speaking, satin and other members of the shiny fabric family take the stand for afternoon frocks. Brocaded crepes and satin canton are lovely too when it comes to fashioning clever frocks that meet with popular favor. Those here are bound to furnish fascinating selection. They are all charmingly youthful.

Dresses Here For Every Occasion and Every Purse

You will delight in our selection. Dresses here for every purse—and styles to suit every occasion. Dresses that can be

worn for dinner or those little informal evening parties during the Winter. We advise you to make your selection early.

## The Mauzy Company

### You too will Congratulate the Lincoln

On the food they are serving since it has been purchased by W. H. EDMONDSON, former owner of the Home Restaurant. Eat to better advantage, make every mouthful count. Merely filling the stomach does not answer the purpose.

This restaurant is building up a reputation by serving toothsome meats that really hit the hungry spot.

Mr. Edmondson personally invites both old and new trade to come and try his meals.

### FIVE INJURED IN CRASH

One Occupant of Machine in National Road Accident May Die

Lewisville, Ind., Sept. 25.—Five persons were injured, one probably fatally, when two automobiles collided at 11 o'clock Sunday night, east of Straughn on the National road.

Mrs. Bert Cameron, 35, of 1316 English avenue, Indianapolis, suffered a fracture of the skull, badly lacerated scalp, and it was thought her chest was crushed, probably injuring her internally. Mrs. Cameron was riding with her husband, going east.

Four occupants of the other machine, driven by Green Bastian, 41, of 13 West 15th street, Cincinnati, Ohio, were badly cut and bruised.

### MAY ERECT DORMATORIES

Trustees At Indiana University Make Plans For The Future

Bloomington, Ind., Sept. 25.—A committee of three members of the board of trustees of Indiana University today began an investigation of the possibility of the university constructing dormitories to house the rapidly increasing student body.

Erection of dormitories was seen by some members of the board of trustees as the best solution of the housing problem, which is becoming more acute every year with construction of privately owned rooming quarters lagging behind the increase in enrollment.

### CONDITION ENCOURAGING

T. M. Green, Rushville attorney, who has been seriously ill following an operation at the Dr. F. H. Green, hospital, is reported to be showing encouraging signs of recovery.

### PURDUE FINISHES SECOND

Wins Monors In Livestock Judging Contest At Waterloo, Iowa

Waterloo, Ia., Sept. 25.—Victory in the livestock judging contest in the cattle contest went to the Iowa state college it was announced last night.

Individual honors were captured by B. R. Rosenbury, Purdue University. L. L. Perry, Purdue, was second and R. Bushnell, Nebraska third.

Purdue finished second in the intercollegiate contest; Kansas third; North Dakota fourth; Nebraska fifth; Illinois sixth; Minnesota seventh; Missouri eighth; South Dakota ninth; Wisconsin tenth.

### OPERATION AT GREENSBURG

Mrs. Charles Lamberson of this city underwent an operation at the Decatur county Memorial hospital in Greensburg Monday. The operation was performed by Dr. Deprez Inlow of Shelbyville.

### FRENCH FRANC IMPROVES

Paris, Sept. 25.—The French franc continued to improve sharply here today as result of the official news that Germany has abandoned passive resistance in the Ruhr. Francs opened at 15.99 to the dollar.

### IS SERIOUSLY ILL

B. F. Miller of this city, who has been taking treatment at the Methodist hospital in Indianapolis, is reported to be seriously ill, and his condition is not the most encouraging. He is suffering with anemia, according to reports received here.

### PLEDGED TO FRATERNITY

Herman Phillips, who left today for Chicago, Ill., to enter Chicago University, has been pledged to the Sigma Alpha Epsilon fraternity. Loren Hunt and Glen Ruddle, who accompanied Mr. Phillips to Chicago, are also members of the fraternity.

### MADE STATE DEPOSITORY

Indianapolis, Ind., Sept. 25.—The American National bank of Rushville, a newly organized institution, was made depository by the state finance committee today for \$10,000 of state funds. The committee was in session for some time but Robert Bracken, auditor of state, said this was the only matter considered.

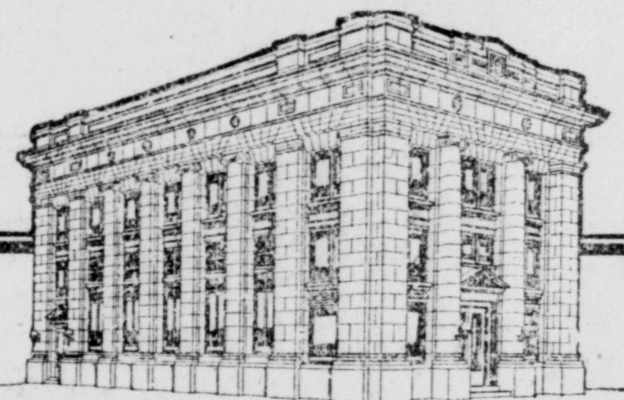

### PLAYS IN BAND

Roy Mitchell, Rushville musician, was in Connersville this afternoon playing with the Odd Fellows band

of that city at the cornerstone laying of the new high school building. The ceremonies today were in charge of the Masonic lodge, and a half holiday was declared by the factories and business of that city, in order to participate in the event.

### F. J. EWBANK IMPROVES

F. J. Ewbank, living northeast of the city, underwent a second operation at the Methodist hospital in Indianapolis last Friday and is reported to be on the road to recovery.

## Mortgage Loans

Our Eastern Banking Connections afford an opportunity of offering 5% money for acceptable FARM LOANS. Charges are reasonable and terms liberal. Our TWENTY YEAR LOAN is exceedingly attractive.

## NEW PARK MAY BE ADDED TO SYSTEM

Part Of Reclaimed Land Along The Kankakee River Likely To Be Devoted To Parking Purposes

### REMAINDER WILL BE SOLD

Money Derived For Balance To Be Put On Market Expected To Pay For Reclamation Work

Indianapolis, Ind., Sept. 25. — Winding four miles along that will o'the wisp of rivers, the Kankakee, in Starke and LaPorte counties, lies a stretch of 1,500 acres of virgin timber land which may shortly be dedicated as a public park.

The land, formerly subject to floods at the whim of nature has been reclaimed by the state by extensive dredging operations. It is ideal for a state park.

The state board of public lands, composed of the governor, the auditor of state and treasurer of state, will meet shortly to decide the future of the 6,678 acres of this mean-

der land in Starke, LaPorte and St. Joseph counties, belonging to the state, which has now been reclaimed.

It is understood, that 1,500 acres will be turned over to the state conservation department for a state park. The rest of the land may be sold. It is believed that sufficient money can be realized by the sale of this land to fully pay the dredging assessment, approximately \$73,000, leaving the proposed state park a gift to the people of Indiana.

The Kankakee, once free to spread out over this territory, is now confined to a channel some seventy feet in width. In times of great rainfall in the spring, it may overflow its banks slightly, but for the rest of the year it flows within its channel.

Possibilities of converting the proposed state park into a game preserve have been discussed, it is understood, and in the future may become a reality. It is also suggested that a fish hatchery could be constructed there without too great cost to the state.

The Kankakee has long been known to lovers of nature as a wildly beautiful spot. Even in dry weather, lovers of the solitary out-of-the-way places, say the Kankakee is beautiful. This last August, the river averaged three feet in depth.

## GLENWOOD

Mr. and Mrs. William Gray and Mr. and Mrs. Leslie Hinchman and son Lowell were among the guests that were entertained to dinner Sunday by the former's parents, Mr. and Mrs. James Gray of Maunzy.

Mr. and Mrs. William Trennepohl and Mr. and Mrs. Ollie Brown of Rushville were the Sunday guests of Mr. and Mrs. A. P. Reynolds.

Mr. and Mrs. John Morgan and family of near Rushville were the Sunday guests of Mrs. Morgan's parents, Mr. and Mrs. John Roberts.

Mrs. George Dukate spent the week-end in Indianapolis with her daughter, Mrs. Charles Sparks and husband.

Mr. and Mrs. J. Hammond and Mrs. Eva Reed of near Hawkinsville and George Heizer of Orange were Sunday dinner guests of Mrs. Caroline McConnel.

Mr. and Mrs. Charles Holland of fit-U-visitorsmuh.s Commersville visited the latter's brother, Alva Worsham and wife, Sunday.

Mrs. Everett Harrison and daughter have returned to their home in Indianapolis after a two weeks visit with her sister, Mrs. Sol Morford and family.

Mr. and Mrs. Otto Cameron of Commersville were Sunday afternoon guests of Mr. and Mrs. A. J. Britt.

Mr. and Mrs. Charles Slonaker and family of near Commersville visited their parents, Mr. and Mrs. Charles Douthitt and family.

Mr. and Mrs. O. Stevens of Orange visited the former's sister, Mrs. John Mapes Friday.

Wilbur Laughlin of Anderson spent the week-end with his sister, Mrs. Frank Hinchman.

Mr. and Mrs. Val Wilson and family of Hamilton, Ohio, visited the former's brother Edgar Wilson and family Sunday.

Mr. and Mrs. Alpheus Morris and family spent the week-end with the former's father, White Morris and son Jesse.

Mr. and Mrs. Earl Ruff and daughter Edna and Miss Allie Alexander were Sunday dinner guests of the former's sister, Mrs. Clyde Wilson and family near New Salem.

Mrs. Anna Lindale of Indianapolis is visiting her daughter, Mrs. Hilton Simpson.

Mr. and Mrs. V. E. Lewark spent Saturday in Indianapolis on business.

Mr. and Mrs. Howard Pyke and children were Sunday guests of Mr. and Mrs. Carlton Chaney and family.

Mr. and Mrs. Bert Rigby and baby and Mrs. Clara Rigby of near Arlington, and the Misses Lydia and Julia Barnard of Oscola, Iowa, were guests of Mr. and Mrs. James Norris Saturday.

Mr. and Mrs. Howard Hanley and children of Commersville spent Friday night with Mr. and Mrs. Glenn Thatcher and family.

Miss Mildred Pippin of East Commersville spent the week-end with Miss Margaret Britt.

Miss Meda Bostie was a guest of Miss Emma Beaver Sunday.

Mr. and Mrs. Walter Combs and family of Commersville visited the former's mother, Mrs. Alice Combs Sunday.

Mrs. Bell Beaver has returned from Chicago where she was called by the death of a relative.

Mr. and Mrs. Forest Brooks were Sunday dinner guests of the former's mother, Mrs. Alice Brooks and daughter Myrtle.

Mr. and Mrs. Guy Bussel and sons and the former's father, John Bussel, of near Maunzy spent Sunday afternoon with the latter's daughter, Mrs. Claud Thompson and husband.

Mr. and Mrs. Otto Miles visited with relatives at Hamilton, Ohio, over the week-end.

Frank Hollingsworth of Indianapolis visited with Mrs. Mary Beaver Sunday.

Mrs. Avery Putnam has returned several days stay here with relatives to her home in Indianapolis after times.

Dr. and Mrs. J. E. Walther and sons spent the week-end in Indianapolis on business and with friends.

### CONSIDER COMMUNITY CHEST

Walsh, Ind., Sept. 25.—The directors of the Wabash Chamber of Commerce are considering establishing a permanent community chest to finance benevolent and charitable organizations. The plan calls for an annual budget, with each organization assigned a certain sum. The money will then be raised in a one drive. Merchants believe such a plan

will eliminate endless soliciting and prevent overlapping of the activities of different organizations.

Scratch Pads for sale, 2 for 5c at The Republican Office.

### CITY PROPERTY SOLD

Judge Will M. Sparks has purchased the property at 524 North Perkins street, which belonged to the Nancy Furry estate. The house has been occupied by Will E. Inlow and sisters for some time.

# The J.B. Howard Combustion Device

With the Damper Back of the Firepot Has Made the Hot Blast Air Tight

## FLORENCE

famous, burning the cheapest soft coal or slack with the same regularity and cleanliness as the burning of gas, and maintaining a steady heat day and night, requiring filling morning and night only.

The Hot Blast Air Tight Florence will pay for itself in a few seasons in the Saving of Coal

For the past twenty-one years I have offered \$5,000.00 (and make the same offer now until January 1st, 1924), to any stove manufacturer or dealer who would produce a heating stove of any kind that depends upon a flue for draft that will consume all the ingredients in soft or hard coal from the moment the fire is started outside the construction of the Hot Blast Air Tight Florence with a damper back of the firepot, but have never been taken up, which proves its equal is not made by any stove manufacturer.

J. B. HOWARD,

### The Damper Back of the Firepot

is why the Hot Blast Air Tight FLORENCE should be used in every home that is heated with a stove.

The Damper Back of the Firepot has revolutionized combustion. It makes its own gas and burns it and makes its own coke and burns it, in the burning of the cheapest soft coal or slack.

The Damper Back of the Firepot is the means of burning the cheapest soft coal or slack with the same regularity and cleanliness as the burning of gas, and will heat three times the space at one-third the cost of any other heating stove burning coal or wood.

The Damper Back of the Firepot regulates the heat in burning coal or wood the same as a key in burning gas.

The Damper Back of the Firepot can be set to whatever degree of heat is required, maintaining a steady heat day and night, and only burns coal or wood according to the amount of heat required.

A FLOOR HEATER

The Florence heats the floor 5 or 6 feet from the stove

The Damper Back of the Firepot eliminates the soot, dust, dirt and clinkers that must be put up with in using all other heating stoves.

The Damper Back of the Firepot enables you to have a steady heat day and night, heating five or six rooms when the weather is twenty degrees below zero.

The Damper Back of the Firepot regulates a slow combustion and will hold fire from 24 hours to 4 days and 4 nights with one filling.

The Damper Back of the Firepot prevents puffing in the burning of soft coal or slack because it burns the gases that cause the explosions.

In all heating stoves depending upon the front damper to regulate the heat there is danger of puffing and explosion when the stove is replenished with fresh fuel.

When the stove gets red hot the metal expands. When it gets cold the metal contracts, which warps and burns out the stove in a few years, besides the constant expense of repairs.

THE FLORENCE STOVE WILL BE JUST AS GOOD TWENTY-FIVE YEARS FROM NOW AS IT IS TODAY

THE HOT BLAST AIR TIGHT FLORENCE has the only JOINTLESS LEG BOTTOM AND BASE with full radiation that has ever been made, which makes it as good a fire-keeper 25 years from now. The first Florence heating stove sold in 1899 is working, wherever it is.

Do not be deceived by unscrupulous manufacturers or dealers when they say that a stove without a damper back of the firepot will do what the Florence does.

## LEADS STATE NOW IN TON LITTERS

Rush County So Far Has First Place  
In Club Project. Because Of  
Good Showing

### FOUR LITTERS IN RUNNING

Every One Has Been Of Pure Bred  
Stock, Which Indicates Pure  
Bred Hog Is Best To Raise

Rush county leads the state in the  
Hoosier Ton Litter Club project so  
far this year. A Rush county man,  
Wilbur Gray, fed the first ton lit-  
ter produced in the state which  
weighed 2140 pounds the day it was  
six months of age.

Chester A. Meal of Orange has  
produced the heaviest litter which  
has been produced so far in the ton  
litter work. This was a litter of  
thirteen which on the day it was six  
months of age weighed a total of  
3210 pounds, an average of 247  
pounds per head. Mr. Meal sold his  
ton litter locally at 25 cents prem-  
ium over the Indianapolis market.

An exceptionally good litter was  
produced by Charlie Phillips of Pos-  
ey township, whose litter of twelve  
fine individuals topped the scales at  
2166 a day before they were 180  
days of age.

The other litter which reached the  
ton mark in this county was pro-  
duced by R. W. Dawson and Son of  
Noble township, and weighed safely  
over the ton in spite of a severe set-  
back due to cholera hitting them  
about six weeks before they were  
six months of age. The fact that  
they overcame this handicap proved  
not only that the litter had the  
right kind of stuff in them, but also

## SOME ASSOCIATIONS EXEMPT FROM INCOME

Co-operative Concerns, Working For  
Farmers, Interest, May Not Have  
To Pay Taxes

### REVENUE DEPARTMENT PLANS

The Internal Revenue Department  
has just issued a statement showing  
how co-operative associations may  
be exempt from income tax. The  
American Farm Bureau Federation  
has been interested for some time in  
obtaining a decision of this kind,  
since many of the co-operative sell-  
ing and buying associations have  
applied to it for such information.

"Co-operative associations, act-  
ing as sales agents for farmers,  
fruit growers, live stock growers,  
dairymen, etc," the decision reads,  
"of engaged in marketing farm pro-  
ducts and turning back to the pro-  
ducers the proceeds of the sales of  
their products, less the necessary  
operating expenses on the basis  
of produce furnished by them, are  
exempt from income tax and shall  
not be required to file returns.

"In every case the association will  
be required to show that the owner-  
ship of the capital stock has been  
restricted as far as possible to ac-  
tual producers, and that the associa-  
tion has not voluntarily sold or is-  
sued stock to non-producers. Co-  
operative associations organized and  
operated as purchasing agents for  
farmers are also exempt."

### FEED WHEAT SURPLUS

Everybody is lamenting about a  
200,000,000 bushel wheat surplus. A  
litter of pigs in Ohio recently broke  
the world's record for weight per  
head in six months on a wheat ration  
which proves it is good hog feed.

## MUCH SEED WHEAT WILL BE TREATED

Indications Are That 3,000 Bushels  
Will be Treated by Farmers For  
Stinking Smut

### NEW METHOD IS POPULAR

Copper Carbonate Will be Used to  
Treat Two-thirds, as Drug Stores  
Report Good Sale

At least three thousand bushels of  
seed wheat will be treated in Rush  
county this fall for the control of  
stinking smut, according to the coun-  
ty agent's office. The drug stores of  
Rushville cooperated with the office  
in distributing enough copper car-  
bonate to treat two thousand bush-  
els and it is estimated that formal-  
dehyde will be used by a great many  
farmers.

The county agent urges universal  
treating of seed wheat in the county  
by either the copper carbonate or  
formaldehyde method, both of which  
are effective in controlling the stink-  
ing smut, but neither will control  
loose smut.

In treating wheat with formalde-  
hyde it is important that the power  
dilution of the material be used.  
The right dilution is a pint of formal-  
dehyde to 40 gallons of water, and  
not any stronger than that because  
of danger of injuring the germina-  
tion.

If smut balls are present in the  
seed the wheat should be treated by  
dipping in a barrel of the solution,  
using a wire basket or some other  
open topped container for the wheat  
which will allow for stirring the  
wheat with a stick. The stirring will  
cause the smut balls to rise to the

## FLY FREE DATES IMPORTANT THING

Wheat Growers Urged to Observe  
Dates For Sowing, Because of  
Hessian Fly in Stubbles

### NEW MAPS ARE READY

Fly is More Prevalent in Southern  
Part Than in Northern Part of  
State This Fall

The Hessian fly is rather abundant  
in the stubble in sections of south-  
ern Indiana but is not noticeably  
abundant in the northern half of the  
state. Because of the existing condi-  
tions it is important that all wheat  
growers in southern Indiana adhere  
to the fly-free sowing dates and it is  
equally important, if not more so,  
that the wheat growers of northern  
Indiana use similar precautions and  
co-operate in sowing after the fly-  
free dates in order to maintain the  
minimum infestation, say Purdue  
University Entomologists.

Wheat-sowing experiments have  
been conducted in various sections  
of Indiana, Ohio, and Illinois by the  
respective Agricultural Experiment  
Station entomologists and investiga-  
tors of the Federal Bureau of Ento-  
mology for a number of years and a  
study of the results of these sowing  
plots has resulted in suggesting  
slight changes in the sowing dates.

The dates in the southern half of  
Indiana remain the same but the  
dates in the northern half show  
slight changes, the greatest change  
being two days, or September 22, for  
the extreme north end of the state,  
the amount of change lessening to-  
wards the south. New maps giving  
the dates for sowing in all sections

## STATE FARM HOME MEETING PLANNED

Conference at Purdue Will Bring To-  
gether People Working in Interests  
of State

### TO HAVE SPECIAL EXHIBITS

Farm Home is Important Problem  
And Must be Put on Best Possi-  
ble Basis, Says G. I. Christie

Lafayette, Ind., Sept. 25—An In-  
diana Farm Home Conference will be  
held at Purdue University, October  
11 and 12, was the decision reached  
at a conference at Purdue University  
of representatives of the Indiana  
Farm Bureau Federation, Federation  
of Women's Associations, Parent-  
Teachers Association, State Home  
Economics Association, State Board  
of Health, Department of Public In-  
struction and Purdue.

This conference will be a climax  
to a week of instruction to Agricul-  
tural Extension Workers and will  
bring together the representatives of  
the large agencies of the state work-  
ing in the interests of the people of  
Indiana. Special exhibits and demon-  
strations will be arranged by the  
different organizations and agencies.  
It is also planned to have time for  
round tables for discussion of the  
special problems and the work of  
these Associations and Departments.

"The farm home is felt to be the  
most important problem before our  
people at this time and everything  
possible must be done to give assis-  
tance in placing this on the best  
possible basis," said Director G. I.  
Christie, of the Agricultural Exper-  
iment Station, in commenting on the  
conference.

## MEMBERSHIP DRIVE IS BEING PLANNED

Actual Work to Add New Members  
to Farm Bureau Federation to  
Start Oct. 15

### TO CONTINUE FOR 6 MONTHS

Preliminary plans for a 1923-24  
membership drive of the Indiana  
Farm Bureau Federation, the actual  
work of which will start this year  
on October 15, are under way at the  
state offices of the Federation at In-  
dianapolis and in the various dis-  
tricts of the state. Much of the pre-  
liminary organization work has been  
done, but the work of paving the way  
for the soliciting crews will continue  
up to the time the solicitation opens  
in each county.

The drive for members will open in  
the Second Federation district com-  
prising Elkhart, Kosciusko, La-  
Grange, Noble, Whitley, Steuben, De-  
Kalb and Allen counties. At a meet-  
ing at Fort Wayne on September 12,  
of Federation officials from the var-  
ious counties of the district, the plan  
worked out by the state officers for  
conducting the drive was explained  
by Lewis Taylor, Treasurer of the  
Federation and in charge of the cam-  
paign, and was accepted. This plan  
calls for an intensive drive, which  
between October 15, the start, and  
the end of March, when it is expect-  
ed the campaign will end, will cover  
every county and township in the  
state. The drive will enlist every  
state officer of the Federation and  
practically all the district, county  
and township officers as well as the  
leading women workers in the organ-  
ization.

## PIG CLUB SHOW MARKS PROGRESS

Recent State Fair Pig Club Show  
Was Best Gilt Show Ever Seen  
in Hoosier State

### MORE BREEDING NOTICEABLE

For Five Years The Duroc-Jersey  
Breeders Have Staged Leading  
Pig Club Class at Fair

By F. MSHANKLIN  
(Asst. State Club Leader, Purdue  
University.)

One of the Stock-Yards hog buy-  
ers recently remarked that the qual-  
ity of hogs coming into the market in  
recent years was greatly improved.  
More breeding was noticeable, more  
uniformity in type and better condi-  
tion in the hogs coming from the  
counties some distance from the  
leading hog counties. Investigation  
will show that the pig club movement  
is largely responsible for this im-  
provement. The recent State Fair pig  
club show was the best gilt show  
ever seen in the Hoosier state. Two  
of the gilts became Junior Champion  
sows and one of these went on the  
Grand Champion Sow in the open  
classes. It is the first time a pig  
club member has owned the Grand  
Champion Sow in the open class.  
These two gilts were the first prize  
gilts in the Duroc and Yorkshire  
classes, while the Yorkshire gilt  
shown by Catherine Schroeder, Mar-  
tinsville, was made Grand Cham-  
pion. Eugene Williams, Lebanon, won  
the Duroc honors.

For five years the Duroc-Jersey  
breeders have staged the leading  
pig club class at the State Fair, if  
numbers and quality are considered.

canner. Our prices have been very low all season.

## SMUT IS KNOWN TO BE EXPLOSIVE

Wheat Badly Infected May Cause  
Damage to Threshing Outfit if  
Conditions Are Right

### HENRY COUNTY CASE CITED

Stinking Smut Dust is Cause of Ex-  
plosion North of Here. When Ma-  
chine Became Clogged

According to A. D. Myers, a farmer near Newcastle, a serious explosion and fire in the threshing machine occurred at the Henry County farm near Newcastle on August 2. Myers story, as related to a Purdue University extension worker at the state fair was, "There was a flash and boom. A door of the separator had been blown off and the smoke was rolling out of both ends of the machine."

The stinking smut dust was the cause of this explosion for as Myers said, "We had noticed how very smutty this wheat was. The straw and grass around the machine were black with the smut spores."

"It has long been known that the smut spores make a very explosive mixture, needing only a small electric spark, such as is often developed in a machine, to set the explosion off. In this case luckily no one was hurt and the machine was only slightly damaged." This is one of only a few cases where stinking smut has caused explosions in threshing machines in Indiana. However, it serves to show what may happen but the wheat that was threshed was almost worthless.

The losses from stinking smut are rather common this year. W. H. Hardin of Knightstown told of a farmer who had the greatest difficulty in getting rid of his wheat difficulty in the smut and was glad to take 70 cents a bushel for it.

With the latest method of treating wheat there is no need for having any stinking smut. Any farmer who has a good variety that he desires to keep and which is so badly smutted that he does not dare use the seed, can safely use this wheat after treating it with copper carbonate. Here is the method as outlined by Purdue University botanists:

Three ounces of copper carbonate dust per bushel is all that is needed. It is also necessary to have some way of thoroughly mixing wheat with the disinfectant. A tight barrel, a box, a concrete mixer or a tight can will all serve. A barrel or box can be put on an axle thus making

the mixing easier. See your county agent or write to Purdue for details of this treatment and for information as to where the carbonate can be purchased.

## PURDUE SWINE DAY SET FOR SEPTEMBER 28

Farmers And Hog Producers To  
Gather At University To Get  
Latest Experimental Data

### PLANS BEING PERFECTED

Lafayette, Ind., Sept. 25—The fourth annual Purdue Swine Day will be held at Purdue University Friday, Sept. 28, when farmers and hog producers from not only Indiana but several adjoining states will gather to get the latest experimental data on hog feeding. Plans for the day are being perfected now by Claude M. Vestal in charge of the experimental hog feeding.

The program will start at 10 o'clock in the judging pavilion at the main university farm with a discussion of the various expedients underway. The corn-soybean-mineral mixture ration as evolved by Purdue will occupy considerable attention but several new rations that are showing good results will be discussed.

Most of the afternoon will be given over to an inspection of the hogs on the experimental swine farm and further discussion of the results where the men may ask all the questions they wish about the hogs and rations after seeing the results obtained on the farm which is operated as any farmer would have to do it.

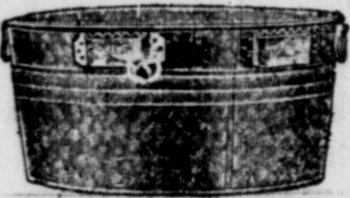

Several ton litters of pork produced within six months on the Purdue rations will be shown and ton litter entrants are especially invited to attend. The meeting is free and will hold something of an interest to every farmer who feeds any hogs.

### FLY-FREE DATES IMPORTANT THING

Continued from Page One  
of the state have been issued by the Purdue Agricultural Experiment Station, Lafayette, Indiana, and copies are available for free distribution.

The Purdue Station recommends sowing after the fly-free date as a regular practice every year but further advises against delaying much after that date. The best time to sow is as soon after the fly-free date as possible and unless unavoidable the sowing should not be delayed longer than ten days after the specified sowing date.

### "I Hear Yo' Callin' Me"

It is estimated that 100,000 Negroes have left the farm districts of South for industrial plants in the North.

#### PIG CLUB SHOW MARKS PROGRESS

Continued from Page One  
More than 100 entries were made in this class, and if the heavy storm Sunday night and Monday morning, had not interfered about half of them would have brought their pigs to the fair. The rules permit the pig club pigs to come into the Grounds Monday morning and if no prize is won, they may leave that evening. All over the State, pig club members leave their beds soon after midnight Monday morning of the State Fair,

brushed up the pigs, get them into a light crate, tie the crate on the running board of the car and head for Indianapolis, where they usually arrive about daybreak. This year, only about half of them were able to face the storm and get to the State Fair Grounds in time for the show, and they were a half-drowned, hungry lot of youngsters. In spite of handicaps, they staged a real pig exhibit. No one would have guessed whether the pigs or their owners were wearied or had lost any sleep. Two of the Morgan County boys had

not exhibited their pigs at noon, and while they were at lunch, their class was called, so they were unable to show their pigs. They stated that after a breakfast at 3 o'clock they were beginning to get hungry a little after 12 and they were told the class would not be called until 1:30. They were real sportsmen however and took their disappointment standing up. Such youngsters as these are making the breeders hustle. There is the best cooperation with the breeders and real progress is being made along lines of better type and management.

Skill in herdsmanhood is being developed by the pig club shows. There was hardly a class shown all week in any of the breeds in which some of the pig club members were not assisting the breeders to show, when they were not showing their own pigs in the open classes. A few years ago, a boy showing hogs in the open classes was a novelty.

There were seven breed classes shown, the Duroc class numbering twenty-nine, with the Poland China, Hampshire, and Yorkshire classes numbering a little under twenty each. The Chester White, Berkshire and Spotted Poland China classes were under ten each, giving a total pig club show of 102. These are all registered gilts of splendid quality. The pig club borrow show will be the next step, and will do more to help the Stock Yards Commission Houses take notice that the pig club is a real factor in swine progress.

#### STATE FARM HOME MEETING PLANNED

Continued from Page One  
A committee was appointed to work up the program and to carry forward the plans as agreed upon. Those attending the meeting were as follows: Mrs. Schuyler Marks, Mrs. S. Seigel Brown, Miss Mary Mathews (Parent Teachers Association); Mrs. Virginia C. Meredith, Mrs. W. J. Tournee (Indiana Federation of Women's Clubs); Z. M. Smith (State Dept. of Public Instruction); Dr. H. W. McKane, (State Board of Health); Perry Crane, (Indiana Farm Bureau Federation); Mrs. Edward Hatch,

(Indiana Home Economics Association); Miss Lella Gaddis, T. A. Coleman, H. J. Reed, Mr. W. Q. Fitch, I. D. Mayer, Prof. W. C. Latta, L. E. Hoffman, Prof. Wm. Aitkenhead, W. V. Kell, and Director G. I. Christie; Purdue University.

#### MUCH SEED WHEAT WILL BE TREATED

Continued From Page One  
surface to be skimmed off. This is important for the solution can not penetrate the oily smut ball and after the wheat is treated these balls will be crushed in handling and by the drill thereby reinfesting the treated wheat.

But if smut balls are not present and the wheat is being treated to clean it from infection gotten through the separator, it will not be necessary to use the dip method. The sprinkling method, which consists of sprinkling over enough solution to thoroughly wet the wheat and covering it over for at least two hours, will be satisfactory. After treating the wheat should be either sowed at once or spread out in a thin layer and allowed to air.

#### LEADS STATE NOW IN TON LITTERS

Continued From Page One  
the ability of the Dawsons as feeders.

Every ton litter produced in Rush county has been of pure bred stock and in the state every successful entry has either been pure bred or the first cross of a pure bred sire and dam. It begins to look like the pure bred hog is the one to raise. doesn't it?

#### FARM OF 157 ACRES SOLD

A farm of 157 acres belonging to Paul Daubenspeck, about five miles south of Rushville, on the New Salem pike, was sold at public auction Monday to Lake W. Duffey of Indianapolis for \$105.25 an acre. Receipts from the personal property sale amounted to \$8,100. The house on the farm burned down during the past summer and Mr. and Mrs. Daubenspeck bought the Stricker property at the corner of Ninth and Cherry streets where they now live.

## COCKLEBUR PLANT POISON TO STOCK

Young Plants Generally Looyed Upon  
As A Weed, Have Been Found To  
Contain Poison

**BULLETIN ON THE SUBJECT**  
  
Very Young Plants, Before Leaves  
Form, Are Regarded As Serious  
For Animals

The cocklebur, variously thought to have been troublesome only as a weed and because of its stiffly armed burrs, has been demonstrated definitely to be poisonous to livestock in the early stages of its growth, as was reported by other observers. The report on this demonstration is made by C. D. Marsh, G. C. Roe, and A. B. Clawson of the United States Department of Agriculture, and the results published in Department Circular 283, Livestock Poisoning by Cocklebur. Only the very young plants, before leaves have formed, produce poisoning, and the dose which produces sickness or death is about 1 1/2 pounds to a 100-pound animal. This means that young pigs up to 50 pounds in weight, which have been found the most susceptible are poisoned by 12 ounces or less of the small cocklebur plants. Cattle or sheep also may be poisoned if they eat enough of the plants in proportion to their weight.

Little can be said so far about medical treatment for this kind of poisoning. Feeding of whole milk was found to prevent pigs feeding on the cocklebur plants from being poisoned. Salted bacon grease, lard and raw linseed oil also gave good results. The best method, says the circular, is to keep pigs off pasture infested with cockleburs until the plants are large enough to be harmless; or to kill out the plants by mowing them before they seed. It must be remembered in this connection that each burr contains two seeds and that ordinarily only one of them will grow the first year after ripening, consequently it is not possible to kill out a patch of the plants the first year.

Copies of the circular may be ob-

tained from the Department of Agriculture Washington, D. C., as long as the supply lasts.

## MINERAL MATTER IS ESSENTIAL TO FOWLS

In addition to the grain, mash, green feed, etc., consumed by fowls, a certain amount of mineral matter, both insoluble and soluble, is essential.

The insoluble mineral matter is necessary because fowls have no teeth with which to chew their food and the grit or insoluble material performs the function of teeth.

The food eaten by fowls first goes into the crop, where it is softened by water, and then passes into the gizzard, and by the action of small sharp stones or grit during the churning process in that organ is ground into a pasty mass. Almost any kind of grit will do for this. The best grit is usually considered to be sharp irregular pieces of limestone, about the size of corn kernels or smaller. The reason this is considered superior to other forms of grit is that part of it is soluble and supplies lime for the body and egg shells.

Mineral matter is essential for the good health of fowls and for egg shell forming material. A deficiency of this in the regular ration may be supplied by grit, limestone, plaster, broken oystershells or shells of any kind. Granulated bone and bone meal serve the purpose fairly well, but the lime in the shells seems to be more quickly dissolved in the gizzard, and hence is somewhat better than the bone. In case bone meal is used, it should have been previously steamed in order to prevent the spread of disease.

Charcoal is another of the necessities of poultry feeding and should be constantly kept before the birds. The action of charcoal is to assist digestion, spring the crop, gizzard and intestines and prevent ailments of the digestive tract. The charcoal used should be broken into small pieces and should be supplied with the oyster shell and grit.

The use of salt in poultry feeds is not always considered a necessity. However, whenever a forcing ration is fed the fowls, either for

the production of boilers or to fatten them or to produce eggs, some salt should preferably be used to assist digestion. About 8 ounces of salt to 100 pounds of grain is enough. A quantity larger than this is liable to injure the digestion of grown fowls and it is positively unsafe to feed more to young chicks.

## ARLINGTON

Mrs. Mattie Moore has returned to her home in Newcastle after visiting a few days in Summer. She attended the funeral of her sister, Mrs. McMichael.

Harry Hawk, and family have moved into Perry Collin's property.

Cris Olive has sold his property to Joe Coats and has bought the Doris Beckner property from Mr. Noland.

Mr. and Mrs. D. M. Pressnall have returned to Arlington from Indianapolis where they attended the Hollins convention.

W. O. Folger has bought property in Indianapolis.

Mr. and Mrs. Mark Stout are living with John Eaton. Mr. Stout is clerking in Mr. Eaton's store and Mrs. Stout is keeping house for Mr. Eaton.

The Rev. and Mrs. Shawl visited Mr. and Mrs. D. M. Pressnall Sunday afternoon.

The reunion of the scholars and teachers of No. 9 school, Posey township, held September 8, in the school house, was well attended. Some of the former scholars who were there from a distance were Julia and Lydia Barnard of Iowa, Dan Swain of Wabash, Jap Barnard and his sister and Mrs. Jennie Merrill of Indianapolis. At the noon hour a bountiful pitch-in dinner was served cafeteria style.

Mary Swain was surprised on her seventieth birthday Sunday with a pitch-in dinner. Covers were laid for thirty-five of her relatives and friends.

## K. K. K. MEETING POSTPONED

The Ku Klux Klan public meeting, which was advertised for New Salem tonight, has been postponed indefinitely, according to an announcement to that effect given the Daily Republican today. The postponement of the meeting was given on account of the death of John O. Williams, a prominent citizen, who resides in New Salem.

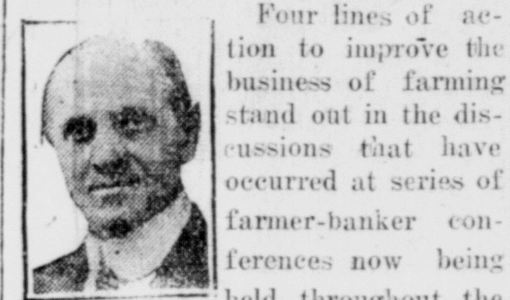

## CONFERENCES AS AGRICULTURE AID

Collective Marketing, Diversified Farming, Promotion of Education, And Use of Banks, Cited

BY FARMER-BANKER MEETING

Such Conferences Bring Out The  
Four Lines of Action to Improve  
Farming Business

By D. H. OTIS  
(Director, Agricultural Commission,  
American Bankers Association)

Four lines of action to improve the business of farming stand out in the discussions that have occurred at series of farmer-banker conferences now being held throughout the United States. They are collective marketing, diversified farming, the promotion of agricultural education and the use of more economical bank credit rather than mercantile credit. At many points active steps to foster action along these lines have been taken.

The conferences were initiated by the Agricultural Commission of the American Bankers Association to the end that the condition of the man on the farm be improved. The first conference was held in conjunction with the Wisconsin College of Agriculture at Madison. An important point of contact for the work of the Commission was established at this meeting in the form of co-operation with the agricultural colleges.

In five other states—California, Washington, Oregon, Idaho, and Utah—it was agreed at subsequent conferences that bankers' agricultural committees would meet at the state agricultural colleges and, in co-operation with the college officials, work out a program that they would recommend to the banks.

It was at the Texas conference that it was developed that the officials of both the bankers' association and of the state college felt the big problem for that state was the establishment of a system of collective, orderly marketing. In order to bring this problem effectively before the farmers and bankers it was agreed to hold a banker-farmer meeting in December. Efforts will be made to get from 200 to 250 bankers to attend, each banker to bring with him several representative farmers of his community. The program and demonstration will emphasize the need of meeting the marketing problem and point ways to satisfactory solution.

At Athens, Georgia, the conference recommended that the State Bankers Association take steps to raise a fund for assisting deserving students to complete a college course in agriculture or home economics. This conference, recognizing the valuable work being done by county agricultural and home demonstration agents also went on record as favoring the employment of agents in each county.

At the Raleigh, North Carolina, conference the pressing problem, in addition to loans for worthy students, was held to be encouragement of the farmer to practice greater crop diversification. The conferees felt that the first big step was to get farmers at least to produce sufficient vegetables, fruit, milk, meat and poultry to live on. Many farmers, it was brought out, now depend entirely on the cotton crop, and buy the products named for their own tables.

At the conference at Ithaca, N. Y., those participating felt that a better understanding between farmers and bankers would be beneficial to both. At present a large amount of the credit used by farmers is in the form of mercantile credit, which, it was pointed out, is much more expensive for them than bank credit. It was felt that a campaign of education is needed to acquaint farmers with banking facilities. The conference, therefore, recommended that the Agricultural Committee of the State Bankers Association, the agricultural college and representatives of the Farm Bureau and the State Grange get together for the purpose of working out programs and plans for further meetings to be held in the various counties of the state.

At a conference held at Amherst, Massachusetts, there were representatives from Vermont New Hampshire, Massachusetts, Rhode Island and Connecticut. Emphasis was placed on the importance of the Boys' and Girls' Club work. The New England conference also felt that the importance of bank credit over mercantile credit should be stressed.

## PROPER FEEDING BIG DAIRY FACTOR

Purdue Expert Gives Hints On Feeding Cow Before And After Freshening—Gives Mixture

### URGE BALANCED RATION

If Maximum Production Of Milk Is To Be Maintained Herd Must Be Kept In Good Condition

By G. A. Williams  
(Dairy Extension Staff Purdue University)

Cows that are milked down may be gotten in condition by feeding an extra amount of corn in the grain ration. A dry cow should always gain in weight and this gain can be made as quickly and cheaply with corn as any other grain. A mixture of 6 parts ground corn, 2 parts of ground oats or bran and 1 part of oil meal by weight is a very satisfactory mixture. Cotton seed should not be fed at this time owing to the lack of succulent feeds consumed. When the cow has gained as much weight as is desired, the corn should be replaced by bran and ground oats. At least ten days before the cow is due to freshen bran, oats and oil meal should constitute the grain ration. Equal parts by weight of the first two with about 1 pound of oil meal per day forms a satisfactory ration.

When the cow is within a few days of freshening, her grain ration should be considerably reduced. Bran mashes are excellent at this time because of the laxative and cooling nature. If constipation is in evidence, 1 quart of raw linseed oil or 1 pound of Epsom salts should be given. Many cases of milk fever could be avoided if proper care were given just previous to freshening. With the exception of a few hours before calving, some roughage such as clover, alfalfa or soybean hay should be provided in liberal quantities.

For five or six days after calving feed the cow bran mash with a legume roughage and a limited amount of silage. The water supply should not be overlooked at this time, also the appetite of the cow must be watched carefully. The grain ration must be increased very slowly at first. After four or five days, during which time oats and corn have again been introduced into the ration, the regular 4-2-1 ration may be fed, up to 4 to 5 pounds per day. From this on the increase should be made at the rate of 1 pound every third or fourth day until the maximum output is reached. When any additional increase of concentrates does not increase the flow, it is well to drop back slightly and it will be noted that the cow will then increase still further in production. Full feeding should not be reached until four to six weeks after freshening. No definite rule can be given, but one pound of grain is a safe guide for each three pounds of Jersey and Guernsey milk or four pounds of Ayrshire, Holstein or Short Horn milk produced daily.

The condition of the cow for two or three months after freshening is of great importance. At the time of parturition, certain chemical substances are thrown into the blood stream which exert a stimulating effect on udder cells. These chemical substances become exhausted as the stage of lactation advances or when the condition of the cow becomes run down. Once this stimulus is lost the cow does not respond so readily to feed, even if the original body weight be regained. It is very necessary, therefore, if the maximum production of milk is to be maintained, that the herd be kept in good working condition. The animal possessing true dairy temperament seldom becomes over fat when fed the proper kinds of feed. The cow cannot alter the composition of her product. If her ration does not provide enough protein, and our home grown grains are low in this material, she cannot produce the maximum flow of milk. A balanced ration fed to a high producing cow will give the largest returns during the winter months.

### MADE BEANS STRINGLESS

Few know that the man who took the string out of string beans was Calvin N. Keeney, of Le Roy, N. Y., says The Farm Journal. Keeney went through his bean patch, and picked out the beans that were minus the strings. Whenever he found one he would save the beans and repeated this year after year, and eventually secured a supply of genuine stringless beans.

## THE FINEST SHOWING OF NEW MERCHANDISE FOR

# FALL

Rush County Ladies have long since learned to come to Casady's for the very newest things in wearing apparel, knowing full well that whatever they see here is absolutely style correct because of this store's reputation in presenting only that which is certain to be in vogue for the approaching season.

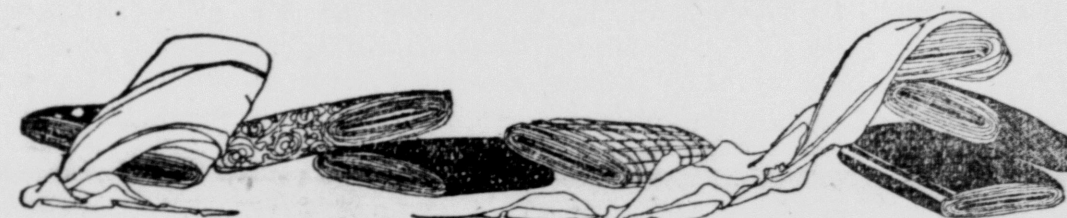

Our assemblage of New FALL Styles, which in completeness, variety and exclusiveness is as near perfect as care, thought, experience and discrimination can possibly make it, with the added advantage of a wide reputation for showing none but the accepted styles in dependable merchandise.

### OUR ATTRACTIVE GARMENT SHOWING

Notwithstanding the complete and comprehensive showing of garments that we have had in other seasons, we are positive this Fall showing is superior in every way to any we have ever had, especially in variety and range of sizes. Still there are no two garments alike which gives an exclusiveness to the display that every woman will appreciate.

## HONOR IS PAID TO J. T. ARBUCKLE

Newly Elected District Governor of  
Kiwanis Clubs And District Sec-  
retary Honorary Guests

### AT ROTARY CLUB MEETING

Felicitated by Judge Will M. Sparks.  
They Respond That Honor is Be-  
stowed on Rushville

Honor was paid by the Rotary club  
today to J. T. Arbuckle, who was  
recently elected district governor of  
Kiwanis clubs of Indiana, and Omer  
Trusler, the new district secretary,  
at the weekly meeting of Rotarians  
at the Social club at noon.

Dr. J. B. Kinsinger, president of  
the Kiwanis club, and Samuel L.  
Trubee, the first president of the  
Rushville club, were also guests. A  
number of other guests were present  
and Miss Helen C. Jaehne, Latin in-  
structor in the high school, sang two  
songs that received vigorous ap-  
plause. Miss Virginia Lucas played  
the piano accompaniment.

George Griesser, who presided as  
president in the absence of Hugh  
Mauzy, the president, on account of  
illness, introduced the Kiwanis and  
other guests and the Kiwanians hon-  
ored by the club were welcomed by  
Judge Will M. Sparks.

"We want you men to know that  
we keenly appreciate the great honor  
that has come to the great Kiwanis  
club of Rushville," Judge Sparks  
said. "We esteem it a great honor to  
have been associated with you and  
to have been benefited by it, and we  
hope that you likewise have been  
benefited by it."

"We think it a great honor to Rush  
county for you men to have been  
elected to these high offices and we  
are glad that you are honoring Rush  
county because we love it above all  
other counties in the state and in  
the United States."

"We feel that this is a distinct  
honor that has come to us as a  
community. But the fact that Tom  
Arbuckle has been preferred above  
others is significant. The fact is  
that he has never failed to help the  
other fellow, that a call for assis-  
tance for any community enterprise  
has never gone unanswered. He has  
never failed to show his interest in  
his fellows' welfare."

Judge Sparks said that the same  
held true with Mr. Trusler—that he  
was always ready and willing to  
roll up his sleeves and go out and  
work for any undertaking that had  
the betterment and improvement of  
the community as its goal.

Judge Sparks praised the spirit  
that moved men to serve others and  
said that Rotarians and others took  
great pride in the elevation of the  
Rushville Kiwanians to their high

## FIRST GAME SCHEDULED TO BE PLAYED OCT. 10

World's Series Will Open in New  
York Yankee Stadium, According  
to Arrangements

### GAMES TO BE ALTERNATED

New York, Sept. 25.—The first  
game of the 1923 world series be-  
tween the New York Yankees and the  
winner of the national league pen-  
nant, will be played in New York on  
Wednesday, October 10.

Details of the conduct of the se-  
ries were announced here this after-  
noon by Kenesaw M. Landis, com-  
missioner of baseball, after confer-  
ences with officials of the National  
and American leagues.

The series will open in the New  
York stadium and if the Giants  
should win the National league pen-  
nant, the second game will be played  
at the Polo grounds.

The Yanks will be regarded as the  
home team in games number 1, 3 and  
5; the Giants will be home team in  
games 2, 4 and 6.

If the Cincinnati Reds should win  
the National League pennant, the  
first two games will be played in  
New York and the next two games  
will be played in Cincinnati. It would  
be decided later when the remaining  
games of the New York and Cincin-  
nati series will be played if they are  
necessary.

## WOULD REPLEVIN TWO HOGS

S. C. Kirkpatrick Files Suit Against  
Isaac Campbell

Sylvester C. Kirkpatrick is plain-  
tiff in a suit filed in Justice Stech's  
court against Isaac Campbell, the  
complaint being to replevin two  
hogs, which are alleged to be in the  
custody of the defendant. The  
plaintiff also seeks \$25 judgment as  
damages. The case will be heard  
September 27.

The Starr Piano Company also  
has filed a replevin suit against Scott  
and Lizzie Lawson for the posses-  
sion of a phonograph, and with the  
demand being for \$65 judgment. This  
case will be heard September 28.

## LOCAL TELEPHONE PLANT INSPECTED

Mayor C. J. Horne Of Anderson Here  
To Get Ideas Regarding A Co-  
operative System

### MAY INSTALL AN AUTOMATIC

C. J. Horne, mayor of Anderson,  
was in Rushville Monday afternoon  
inspecting the local telephone build-  
ing and plant, getting an idea as to  
how an automatic exchange is oper-  
ated.

The people of Anderson, upon pro-  
test of the high rates charged by the  
Bell Telephone company, are plan-  
ning the financing of an independent  
system, and they are thinking seri-  
ously of installing the automatic  
system which is used here and at  
Richmond.

The rates at Anderson were said  
by Mayor Horne to be \$7.00 for  
business houses and \$4.00 for resi-  
dences, which has brought up the agi-  
tation for a co-operative system. Mayor  
Horne was highly pleased  
with the results obtained here.

Anderson, Ind., Sept. 25.— Fol-  
lowing the movement started by In-  
dianapolis civic organizations to or-  
ganize an independent telephone  
company in protest against the Indi-  
ana Bell's \$1,600,000 annual rate in-  
crease, Mayor Horne today suggest-  
ed a similar movement on the part  
of Anderson citizens.

Mayor Horne, who is chairman  
of the committee of the Indiana Mu-  
nicipal league which will lead the  
fight against the rate boost, declar-  
es he is opposed to two phone sys-  
tems in Anderson, and if an in-  
dependent system is started, the  
Bell may eventually be squeezed out  
of Anderson.

## PRINCIPALS TO MEET HERE ON WEDNESDAY

School Officials Will Be Given In-  
structions, Putting Ban on School  
Hazing in Future

### OTHER BUSINESS MATTERS

The principals of the Rush county  
schools, who recently organized an  
association to promote their welfare  
in the county, will hold their first  
official meeting in the assembly room  
of the court house Wednesday night  
at 7:30 o'clock, and several matters  
will come before them.

B. D. Farthing, county school su-  
perintendent will take up the matter  
of school hazing, and will call at-  
tention to the fact that hazing in any  
form, either in fun or of a serious  
nature, is to be banned from the ru-  
ral schools. This action is being taken  
on account of an affair near New  
Salem last week when Vernon Walke  
a high school student committed sui-  
cide, and there was some intimation  
that he had brooded over the fact  
that he had been hazed at school on  
the day before.

Among other things to be dis-  
cussed are plans for a basketball  
team, representing the coaches of  
the county schools, who may orga-  
nize a strong team to play independ-  
ent ball this winter. Every school in  
the county has college players for  
coaches, and the schools could pro-  
duce what is believed to be a winning  
independent team.

Plans also will be taken for the  
principals to have charge of a col-  
umn each week in the Daily Repub-  
lican, which will give school activi-  
ties in brief from all parts of the  
county.

## IN THE NOT FAR DISTANT FUTURE

## MUSCLE SHOALS PROJECT FAILS

Falls Through Due to Sale of Gorgas  
Power Plant by War Department  
Belief in Washington

### INCLUDED IN FORD'S BID

Secretary of War Weeks Receives  
Message From Ford Engineer Ex-  
pressing Surprise at Sale

By A. L. BRADFORD  
(U. P. Staff Correspondent)

Washington, Sept. 25.—The war  
department is without information  
concerning Henry Ford's future in-  
tention regarding Muscle Shoals, it  
was stated today at Secretary  
Weeks' office.

Weeks denied he had received  
from Ford any answer to the sug-  
gestion that the Gorgas Power plant  
be eliminated from Ford's offer to  
leave the Muscle Shoals project from  
the government.

The next move is up to Ford, of-  
ficials said. The sale of the Gorgas  
Power plant to the Alabama Power  
company yesterday makes it neces-  
sary for him to revise his offer if it  
is to be considered any further.

Washington, Sept. 25.—Official  
Washington believes Henry Ford's  
Muscle Shoals project has fallen  
through as the result of the sale by  
the war department of the Gorgas  
Power plant to the Alabama Power  
Company.

The sale of this property was an-  
nounced on page three

## DISMISSED FROM THE FORCE

Indianapolis Policemen Found Guilty  
of Insubordination in Watson Case

Indianapolis, Ind., Sept. 25.—Lieut.  
Arthur McGee and Patrolman Har-  
vey Bedford, were dismissed from  
the Indianapolis police force today  
by the board of public safety.

The board found them guilty of  
insubordination upon testimony that  
they went to Colfax, Ind., with a  
warrant, charging a young man  
there with murder of Robert Wat-  
son, a stabbing victim, without hav-  
ing obtained permission from super-  
ior officers to make the trip.

Demand for their removal was  
made at a stormy session of the  
board of safety last week, at which  
Mayor Shank declared differences  
over the Ku Klux Klan were threat-  
ening to disrupt the Indianapolis po-  
lice force.

## DUE TO LAWYER'S ILLNESS

Case Scheduled For Trial In Court  
Today Is Postponed

Little court business was trans-  
acted today, as the case scheduled  
for trial was continued on account  
of the illness of an attorney, and  
only a few minor matters came up  
before Judge Sparks in the circuit  
court.

Charles H. Tompkins is plaintiff  
in a suit filed today against Eva  
Bell McDaniel, the complaint being  
on an account demanding \$100 judg-  
ment.

Albert C. Stevens has also filed a  
petition in court against Barton Rob-  
bins, alleging that he is a person of  
unsound mind, and incapable of  
managing his own affairs, asking the  
court to commit him.

## PROBE OF M'CRAY AFFAIRS IS ASKED

Marion County Grand Jury Is Re-  
quested To Investigate Governor's  
Financial Affairs

### REQUEST COMES FROM MARION

Attorney For Bank Says There Are  
Circumstances Which Would Re-  
ceive Grand Jury Consideration

Indianapolis, Ind., Sept. 25.—A  
request has been made that the  
Marion county grand jury investigate  
the private financial affairs of Gov-  
ernor McCray in connection with  
notes endorsed by the governor, it  
was learned today.

The request came from Gus Con-  
do, of Marion, Ind., attorney for the  
Marion National Bank. That bank  
has pending a suit for \$3,500  
against McCray in a court at Joliet,  
Ill.

"It was felt that there were cir-  
cumstances which should receive  
grand jury consideration," Condo  
said.

Requests for the grand jury  
probe was made of William P. Evans  
Marion county prosecutor.

Judge James A. Caldwell, of the  
criminal court has been told that  
neither Evans, who is a son-in-law  
of the governor, nor the governor  
would stand in the way of an in-  
vestigation.

In the event an investigation is  
ordered, it is understood that Evans  
will consent to the appointment of  
a special prosecutor to handle it.  
Continued on Page Three

## TO ENDEAVOR TO MEET PEACEABLY

Leader of Oklahoma Legislature  
Seeking to Meet Wednesday Says  
They Will Avoid Trouble

### "SHOOT TO KILL," ORDER

Gov. Walton Instructs Adjutant Gen-  
eral to Use All Forces Necessary  
to Prevent Meeting

(By United Press)

Oklahoma City, Okla., Sept. 25.—  
Members of the Oklahoma legislature  
leading the movement to start im-  
peachment proceedings against Gov-  
ernor J. C. Walton held steadfast  
today in their determination to meet  
Wednesday noon despite the execu-  
tive's orders to troops to "shoot to  
kill" if necessary to prevent the  
session.

The governor issued instructions  
to Adjutant General R. H. Markham  
to stop the legislature from meeting  
"at any time and any place in Okla-  
homa" and use all of the military  
forces of Oklahoma needed to carry  
out the order.

At the same time Governor Wal-  
ton commanded all citizen soldiers  
in the state between the ages of 21  
and 45 to hold themselves in readi-  
ness for service in the open warfare  
between the visible government and  
the invisible empire.

"At least seventy members of the  
legislature will be here tomorrow  
Continued on Page Three

## REMUS IS FACING ARREST

Suspected in Connection With Li-  
quor Cache Near Morristown

Shelbyville, Ind., Sept. 25.—  
George Remus, wealthy Cincinnati  
lawyer, said by federal authorities  
to be the head of one of the great-  
est liquor rings that ever operated  
in the United States, faced arrest  
here today.

Remus was expected to come here  
from Cincinnati to replevin a pass-  
enger car, which was wrecked near  
Morristown, Ind., September 16.  
Eighty gallons of whiskey and a  
coat bearing Remus' name, were  
found in the car.

Sheriff Rees Smith, E. R. Crosby,  
deputy sheriff, and John D. Thomp-  
son chief of police, met all Cincin-  
nati trains today, looking for Re-  
mus. They were armed with a war-  
rant charging violation of the pro-  
hibition law.

## SCHOOL HACK LAW IS CITED

Auto Drivers Given Preliminary  
Warning About Passing Hacks

Drivers of school hacks are com-  
plaining now to county officers about  
negligent automobile drivers, who  
are failing to heed the law in driving  
their machines past a school hack  
that is either loading or unloading  
school children. An active campaign  
will be launched soon in the county,  
and drivers will be asked to report  
the machine licenses that fail to obey  
the law.

Many persons have been fined in  
the local courts during the last two  
years on account of the violation of  
the law. No machine can be driven  
past the school hack, whether it is  
stationed in front of a residence or  
school, while pupils are being loaded  
or unloaded, and the drivers of all  
approaching vehicles should not pro-  
ceed to pass unless given the signal  
by the driver of the hack. The law  
applies only to school hacks that  
are standing still.

## PREMIERS FAVOR GOVERNMENT IDEA

German State Leaders Approve De-  
cision to Abandon Passive Resis-  
tance In The Ruhr

### OUTSIDE AID IS SOUGHT

Chancellor Stresemann Looks To  
England And Belgium In Reach-  
ing An Agreement

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Sept. 25.—The German  
state premiers, in their conference  
with Chancellor Stresemann today  
fully approved the decision of the  
government to abandon passive resis-  
tance in the Ruhr without further  
conditions.

The German government was pre-  
paring to attempt negotiations with  
England and Belgium to obtain their  
aid in reaching a basis for settle-  
ment of the reparations question.

Following Chancellor Stresemann's  
official announcement of abandon-  
ment of passive resistance in the  
Ruhr, without conditions, the govern-  
ment looked to Brussels and London  
to obtain leniency from France.  
Early reports indicated the people  
as a whole were accepting the  
statement more calmly than had been  
expected.

As has been reported previously  
by the United Press the government  
is certain the question of return of  
expelled and arrested German citi-  
zens to their homes in the occupied  
areas can be adjusted easily, with  
Continued on Page Three

## MEMORIAL PARK BONDS ARE SOLD

Issue Goes To Rushville National  
Bank, Assuring Additional Ground  
And Improvements

### BOULEVARD TO BE ADDED

The bonds for the purchase and  
improvement of Memorial park, to-  
talling \$24,000, were sold this af-  
ternoon at two o'clock in the coun-  
cil chamber to the Rushville Nation-  
al bank for a premium of \$209.20,  
paying the highest of five competitors.  
Bids of the other banking insti-  
tutions were as follows: Meyer-Kis-  
ser bank of Indianapolis, \$100; Peo-  
ple State bank, Indianapolis, \$144;  
American National bank, Rushville,  
\$116.01; Thomas D. Sherrin & Com-  
pany, Indianapolis, \$26.

Now that the bonds are sold, and  
the purchase of the park is assured,  
the council will next take steps to  
go forward with their plans of the  
improvement.  
A driveway, known as Memorial  
boulevard, will be extended from the  
north end of Jackson street, along  
the party to the North end of Main  
street, at a place near Sixteenth  
street, or a length of about 3-4 of a  
mile. The bond sale includes the im-  
provement of the park by adding the  
road, and other minor features that  
will be undertaken next spring.

## CAPITALISTIC SYSTEM PRAISED

Brings To All People Comfort And  
Greater Leisure Than Any Oth-  
er, Banker Says

### NATIONAL MEETING OPENS

President Of American Bankers As-  
sociation Assails Various Schools  
Of Radicals Today

Atlantic City, N. J., Sept. 25.—  
Justifying the capitalistic system as  
having "brought to all the people  
more comfort and greater leisure  
than has any other system thus far  
tried," J. H. Puelicher, President of  
the American Bankers Association,  
in his convention address here to-  
day made a vigorous assault on the  
various schools of radicals of the  
day. At the same time Mr. Pueli-  
cher recognized a number of evils of  
the capitalistic system, declaring  
that there should be no child labor,  
no seven day labor week, no unduly  
long hours of labor, and no "treach-  
erous business cycles." He said that  
"any system of society can last only  
if its adherents promptly abolish  
evils as they develop," or else re-  
form will be forced from without  
"by those who will destroy with the  
evil all that is good."

Denouncing Government manage-  
ment of business as "a demonstra-  
tion of its disqualification in that  
field," Charles F. Mitchell, presi-  
dent of the National City Bank of  
New York, in an address today be-  
fore the general convention of the  
Association, demanded "economy in  
government expenditures that will  
bring relief from taxation as fast as  
it can be given. He advocated an  
immediate revision of the "present  
income surtaxes that dam the natu-  
ral flow of wealth in the channels  
of wealth producing enterprise and  
divert it into tax exempt investments  
that mean State and municipal non-  
productive development and waste."

"We are enjoying in this country  
today a real state of prosperity" he  
added, "and we should be cognizant  
of it and instill so far as we are  
able a spirit of confidence through-  
out 'Business America' that will ex-  
tend the life of the prosperous peri-  
od. I am not afraid of the ability  
of this country to compete in the  
long run, to secure an ample share  
of world trade, provided we now re-  
cognize that competition is equing,  
that it is going to be vigorous and  
that to meet it we must loosen every  
restraint to American industrial de-  
velopment to the end that in this  
country there may be an efficiency

## RALLY DAY TO BE HELD OCTOBER 7

Workers' Conference of Main Street  
Christian Church Arranges For a  
Program

### DURING SUNDAY SCHOOL HOUR

At the meeting of the workers'  
conference of the Main Street Chris-  
tian church Sunday school, held  
Monday evening in the Sunday  
school department of the church,  
arrangements were made for a Rally  
Day program to be held Sunday  
morning, October 7, during the Sun-  
day school hour.

Committees were appointed to take  
charge of arranging for a program  
and plans were discussed for an ex-  
cellent program at that time. The  
church observes Rally Day each  
year, and an effort is being made to  
make this one of the best services  
ever given by the church.

There will be no conference meet-  
ing during the month of October,  
owing to the meeting for this month  
being held so late in the month. The  
next meeting will be held in Novem-  
ber. At the close of the meeting Mon-  
day evening the primary department  
served those present with a delicious  
course luncheon.

# Going Out of Business Sale!

Having been in the Wall Paper and Paint business either as a retailer or general contractor in Rushville and Rush County for nearly a quarter of a century, we have decided to close out our entire stock of Wall Paper, Paints, Varnish, Glass, Brushes, Lead, Oil, Mouldings, Etc., and discontinue our business. In order to do this quickly, we are going to offer to both our old and new customers for just 15 days, beginning

## Thursday, Sept. 27 and Ending Saturday, Oct. 13

an opportunity to buy goods at far below present cost levels. We wish to make it to your interest to buy goods even for your next season's requirements, for all stock must be closed out at some price regardless of first cost or present values. At this time we take this opportunity to thank our customers and friends who

have always been faithful and loyal to our store and have contributed to make our business what it is today. While our business has always shown a steady growth and is quite satisfactory in every way we are retiring for the present at least for personal reasons and contemplate spending the Winter in the South.

### 5,000 Rolls of Wall Paper

Anticipating our plans several months ago we have greatly reduced our usual large stock of Paper and Decorations, but have several thousand rolls of paper from 5 cents a roll and up.

—Hal Green and Pon Riggs will attend the Republican district meeting at Newcastle Wednesday.

—Miss Christina Stiers has returned to this city after a visit with relatives and friends in Indianapolis.

—Edward Kelly left today for Newark, New Jersey, where he will visit his son, Edmund Kelly and wife.

—Miss Phoebe Shepherd, of North Vernon, is spending a few days in this city as the guest of Mr. and Mrs. Wilbur Wilson.

—Mrs. Frank Smith spent today in Connersville and attended the laying of the cornerstone at the new high school building.

—Mrs. Merrill Ball, Mrs. Ethel Fiebert and Mrs. Minnie Beher attended Major Wilson's funeral at Shelbyville this afternoon.

—Mr. and Mrs. Tom Trowbridge, and family, Mr. and Mrs. Fred Fiebert visited the former's mother at De Muesville, Ky., Sunday.

—Will Rosup of Wilmington, Delaware, has returned to his home at

ter a visit with Mr. and Mrs. Frank McCoy living west of the city.

—Mrs. Katherine Roth and children Mary L. and Ernest of Connersville are visiting her parents, Mr. and Mrs. Michael O'Reilly.

—Mrs. Howard Thomas of Gas City, Ind., who has been visiting relatives at Milroy, came to Rushville today for a visit before returning home.

## JAPANESE RELIEF

Ten dollars more has been added in four contributions, to the Japanese relief fund that is being raised by the Rush county chapter of the American Red Cross, for the aid of the earthquake sufferers. The total is now near \$900.00, and those who have in mind giving to the fund are urged to do so at once. New contributions are as follows:

Previously reported	\$882.22
Zora Carney	3.00
Mrs. Olie Martin	1.00
Ruth Martin	1.00
Mrs. C. H. Parson	5.00
Total	\$892.22

## ROYAL NEIGHBORS MEET

Quite a number of enthusiastic Royal Neighbors met last night at the Modern Woodman hall and enjoyed a fine pitch in supper, at the close of the regular session of the lodge. The menu consisted of ham sandwiches, peanut butter sandwiches, potato salads, various kinds of pie and cake, sweet and sour pickles, etc. Plans for the fall campaign were discussed, and the possibility of having the Batesville Royal Neighbors degree team come here in the near future and initiate a class of candidates was also considered. The meeting was a very friendly one, and those who failed to attend missed a delightful evening's entertainment, it was announced.

Crowdsfordville —Simple services marked the passing of "Cute," pet poodle of Mr. and Mrs. Arthur Jackson. After the body had been embalmed and placed in a specially designed casket, services were held in the theatre owned by Jackson. "Cute's" last resting place is under the box office of the theater.

## DENIES ATTEMPT TO OUST M'CRAY

Clyde A. Walb, Republican State Chairman, Back in Indianapolis to Arrange For Meeting

## PARTY WORKERS TALK IT OVER

Indianapolis, Ind., Sept. 25.—Denying that there is an organized attempt on the part of some Republican workers to oust Governor McCray, Clyde A. Walb, state chairman returned to Indianapolis today to start preparations for the special meeting of the state committee next Monday.

The meeting, originally called for Saturday, was postponed until Monday because Postmaster General New will be unable to reach Indianapolis until Monday.

Walb declared the committee will go over the entire situation brought about by the governor's financial adversities with an open mind to determine what course is best for the interests of the party.

Numerous party workers are due at the state headquarters this week to talk the situation over with Walb.

## PROBE OF M'CRAY AFFAIRS IS ASKED

Continued From Page One

Judge Collins has not indicated what action, if any, he will take on the request made by Cando.

Meantime, plans are being made for the meeting of the Republican state committee next Monday at which McCray's financial affairs will be discussed.

Clyde A. Walb, of LaGrange, republican state chairman, was expected to arrive in Indianapolis today to take up matters preliminary to the session.

Republican leaders denied there was an organized attempt on the part of some Republican workers to oust Governor McCray.

The committee, it was declared, will go over the entire situation brought about by the governor's financial adversities with an open mind to determine what course is best for the interest of the party.

Numerous party workers are due at the state headquarters this week to talk the situation over with Walb.

## PREMIERS FAVOR GOVERNMENT IDEA

Continued From Page One

the exception of a few cases where the French are expected to retain prisoners at least temporarily.

At the opening of yesterday's conference, preceding the chancellor's official announcement of surrender, Herr Stresemann revived the international situation and said the nation could not bear any continuance of resistance.

Last week's payment into the Ruhr alone amounted to the equivalent of more than \$5,000,000 for support of resistance, Stresemann said.

Diplomatic efforts to reach an agreement were fruitless, Stresemann continued, confirming previous dispatches of the United Press which pointed out that the offer through the Belgian minister failed by France's refusal to accept the German conditions.

A continuation of resistance could not help Germany's situation the chancellor said.

Following Stresemann's explanation all the delegates attending the conference agreed to surrender, although at first there was bitter opposition from the Deutsche nationalists.

Today's developments cannot be forecast. Herr Knilling, the Bavarian premier, already is in Berlin and has indicated he will balk at accepting the decision.

The Ruhr and Rhine leaders, however have adopted a solemn vow of unity with the Reich and it is learned the government, contrary to other reports, is breathing more easily regarding the threatened Bavarian outbreak. Through a clever ruse, under guise of troop maneuvers, the government has succeeded in getting all Bavarian Reichswehr troops into Wurttemberg and Baden, leaving only trusted Saxon soldiers in Bavaria.

The fear previously had existed that the Reichswehr might be induced to join the various Bavarian "fighting bands" in coup against the Berlin government.

## LAST ENTRANT LOCATED

Brussels, Sept. 25.—The final entrant in the James Gordon cup race which started Sunday and cost five lives, was accounted for this afternoon when the Spanish balloon, Estheria was reported as descending near Woldendorf, Holland. The aero-club has started checking up reports to determine the winner.

## MRS. KATE PHILLIPS DIES

Wife of Albert Phillips, Colored, Expires This Afternoon

Mrs. Kate Phillips, colored, wife of Albert Phillips, an employ of the Joe Clark garage, died this afternoon about two o'clock at their apartment above the garage, 1133 East First street. The deceased was about 50 years old, and had been ill for several weeks suffering with tuberculosis.

Besides the husband, she is survived by her mother, Mrs. Henry Hughes of this city, and several brothers and sisters.

The funeral arrangements were not completed today and will be announced later.

## MUSCLE SHOALS PROJECT FAILS

Continued From Page One

nounced last yesterday by Secretary of War Weeks.

The Gorgas plant was included in Ford's Muscle Shoals bid. He said he would not bid for Muscle Shoals without Gorgas. He has not replied to a request by President Coolidge and Secretary Weeks that he eliminate the Gorgas plant from his offer. The only word that has come from him on it was indirect.

Weeks yesterday got a telegram from W. B. Mayo, Ford's chief engineer on the Muscle Shoals plan, expressing surprise at the sale and stating that Ford was away from Detroit on business.

Some officials were inclined to think that Ford would fight in whatever way is possible to overturn the sale of the Gorgas plant to the power company, basing his objections on an opinion rendered months ago by Attorney General Daugherty, that the contract with the Alabama Power Company giving it an exclusive option to purchase of the plant was made without due authority. This contract has been under fire for a long time. It was made during the war by Army officers in charge of the Muscle Shoals nitrate project.

In announcing the sale, late yesterday for \$3,472,487.25, Weeks set forth the existence of the contract, stated that under it the government was powerless to do anything but sell to the power company or scrap its plant and remove it from the power company's land on which it was erected.

"Under the circumstances, no other course was open to the government but to sell to the Alabama Power Company, and it has thereby succeeded in successfully salvaging its interest in the Gorgas property," Weeks said.

Weeks has always been opposed to the Ford offer. He and Mr. Coolidge have determined, however, to get some final settlement of the question without further delay. Ford now must either renew his bid without the Gorgas plant, or drop the whole project officials here believe.

## TO ENDEAVOR TO MEET PEACEABLY

Continued From Page One

and will make every effort to meet peaceably," said W. D. McBee, chief agitator for impeachment of the governor.

The citizen soldiers were instructed to be in readiness with such arms as "they may possess or can obtain." These instructions, however, were practically superfluous because every man in Oklahoma who has any kind of a gun, or other weapon has it oiled and ready for action.

Oklahoma, whose history from the time of settlement of the "strip" to the warfare over the location of the state capitol at Muskogee or Oklahoma City has been marked by tense situations, has never witnessed a more critical moment than the eve of the scheduled meeting of the legislators.

All of the surviving famous peace officers, led by "Buck" Garrett and Zack Mulhall, mingle with the milling crowds in hotel lobbies. Hip pockets bulge, but not suspiciously, for everyone knows a six shooter dangles there. Machine guns command strategic points in the city from the hotels to the capitol.

Youthful guardsmen patrol streets and roads with guns of heavy army calibre displayed. Practically all members of the legislature who are expected to answer the summons for the special meeting were on hand today. Anti-Walton forces claimed there were seventy members of the lower house in that city.

Governor Walton in his final drastic orders forbidding the meeting said it was "a-betting the cause of the invisible empire, or the Ku Klux Klan" and that the Klan is an "enemy of the sovereign state of Oklahoma." He declared evidence presented to the military court showed it had taken over political government in many cities and

counties and as an organization, has murdered, whipped, beaten, flogged and out ragged many citizens."

Great activity was apparent among the troops enforcing martial law here through the day. Huge trucks roared through the streets carrying heavy loads of uniformed men. All movements of the military were kept secret at headquarters.

## HONORS PAID

TO J. T. ARBUCKLE

Continued from Page One

"I can't express the pleasure I have," said Mr. Arbuckle in response, "for having been invited to be with this bunch of men today. I can't tell you how glad I was to hear the friendly regard expressed by the Rotary club in the letter from its secretary read at our last meeting."

"I have been signally honored—an honor which I feel is not personal. I feel that it is not a personal honor, that the Kiwanis clubs of Indiana wanted to bestow an honor on the Rushville Kiwanis club and also on this city, which is famed for its hospitality and for its citizenship all over the country."

"I don't know anything that gives me more pleasure than to have the good will and confidence of my fellowmen. And I hope that I will continue to have it. I don't feel that I merit it, but I hope that I will."

Mr. Arbuckle said that Rushville seemed to have the habit of "bringing home the bacon," referring to the valuable licks that were put in for him at the South Bend convention by local Kiwanians. He declared that he could never say too much "for this fair city."

"We should be ready at all times to say a good word for Rushville," Mr. Arbuckle continued, illustrating it with an apt story. "I don't believe there is any place that has a higher standard of citizenship and education, or a more industrious people to be found any place."

He referred to the mottoes of the two clubs and said that they should ever be put in practice as they have been in the past.

Mr. Arbuckle said people of Rushville and Rush county had just pride in their factories, beautiful homes, lawns and shade trees, and modern highways and improved farms, but that the enduring thing is a community spirit.

"It is the people of which you are a part that has made this the Eden of the country," he declared in conclusion.

Mr. Trusler said that he was grateful to his friends to have the confidence that they had reposed in him and was glad of the opportunity to be present at the meeting.

"It is a great thing," he continued, "this wonderful spirit of friendliness that you are glad for us. This spirit is going to be a big help to Tom Arbuckle in his work. For, after all, he is as much your governor as he is ours, because our ideals are identical. Whatever measure of success comes to him comes to us also."

Mr. Trabue, who spoke briefly, said he wanted to correct the opinion that "Uncle Tom" did not merit the honor. While it was true, he said, that the standing of the community and the local club did help, "but when you go into a campaign with a man like Tom Arbuckle, there is nothing but success certain. He said that it had been demonstrated that he two clubs can co-operate for the betterment of the community, and

added that the farm bureau, with Fred Bell at its head, was entitled to much credit for helping to build up the community spirit."

Other guests present at the meeting were Paul Green of Los Angeles, Calif., Floyd Keepers, Indiana editor of the Prairie Farmer, and Mr. Price, a Kiwanian from St. Louis.

## STOLEN CAR RECOVERED

A Ford coupe belonging to Clarence Foster, R. F. D. 10, Rushville, was stolen Monday night from near the Windsor hotel on West Second street, and recovered this morning south of here near the Week's slaughter house. The machine was not damaged, except that a new tire was stolen, when the thieves abandoned it.

## TO HOLD INSPECTION

An inspection of Company C. of the Indiana National guard, of this city, will be held at the armory in South Pekins street tonight and will be conducted by Major Albert P. Rich, senior inspector of the guard, and Sergeant Bert Cordell. Captain Will B. Brann asks a full attendance of members of the company at inspection.

## ANNUAL HARVEST FESTIVAL

Donations Of Fruit, Vegetables And Clothing Sought By Salvation Army

The annual Fall Harvest Festival of the Salvation Army will be held Wednesday evening at the church, and arrangements have been made by Lieut. McFall and Cadet Turpin, officers in charge of the Army work in this city, for a splendid meeting.

Anyone who will donate fruit, vegetables, chickens and clothing, to the festival, are requested to notify the officers in charge at 440 West First street. If they wish someone to call for their donations, they may call phone 2250 and arrangements will be made to get the food or clothing.

Bluffton —Mrs. James C. Runyon bride of a day, waited patiently for hubby to come, wondering if he had deserted her so soon after the wedding. Hubby was only spending the night in jail at the request of authorities in order to appear as witness in a court case next day.

## WOMAN SO ILL COULD NOT STAND

Says Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

Glens Falls, N. Y.—"For over two months I was so sick I was not able to stand on my feet, and my husband did my housework. The doctor said an operation might be necessary. I read testimonials about Lydia E. Pinkham's Vegetable Compound and began to take it. Before I had finished taking the first bottle I saw what good it was doing me. I am now well and strong, doing all my work for a family of four, all my washing and my sewing, which I think is remarkable, as I had not dared to run my sewing machine, but had done all my sewing by hand. I truly feel that were it not for your medicine I would not be here today as my case seemed very serious." Mrs. GEORGE W. BURCHILL, Glens Falls, N. Y.

Free upon Request  
Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free, upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information that every woman should have.

## MYSTIC The Little Show With Big Pictures TODAY

"THE BOHEMIAN GIRL"

The Sweetest Romance Ever Screened

Beautiful Gladys Cooper plays the role of Bohemian Girl

If there is a spark of Romance in your make-up, this story will fan it into a blaze of enthusiasm. It has done that for millions of people since 1869. For this is the picturization of the famous opera, whose popularity has remained undimmed for over half a century.

ABUNDANT PARDON: — Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and He will have mercy upon him; and to our God, for He will abundantly pardon.—Isaiah 55: 7.

## Wheat Free of Chaff

An American business man who has just returned from Europe tells us that "France has raised enough wheat this year to supply her needs without imports. Italy has raised a bumper crop and will import 25 percent less than last year. Russia is exporting wheat. European countries can produce food cheaper than the American farmer can lay it down in Europe."

There we have the true explanation of the present depression in the

price of wheat in America. Europe is not buying so much American wheat because she does not need it. All the "participation in European affairs" that the internationalists ask, would not increase the consumption of American wheat in Europe to the extent of a fraction of one percent. Europe will buy only as much American wheat as necessity compels, and she will buy that much regardless of our much agitated "participation."

## Making The Unfit Fit

Intensive military training develops weak men into hardy ones.

During the past summer an experiment was conducted at Camp McClellan, Ala., which has demonstrated the truth of this statement.

One hundred and twenty military training camp students were selected for their physical unfitness for military service. At the end of three busy weeks of military training they were turned out as "potentially capable fighting men."

Investigation showed that there was a remarkable improvement in weight, chest expansion, height, mental alertness and enthusiasm, thus transforming physical defectives into real men.

This ought to be an argument for military training for all of our boys. Any kind of training that is good for the individual is equally good for our country, and should be encouraged in every way.

## League Amendment Suggested

Italy claimed the league of nations was without jurisdiction in the controversy with Greece because it was a case involving Italy's honor. There is nothing in the league covenant which admits of any such interpretation but since the league acquiesced in being supplanted by the council of ambassadors, which imposed on Greece the very conditions demanded by Italy, it would seem that the league accepted Italy's statement as correct. Therefore, the covenant should be amended something after this fashion: "Provided, however, that in any case where the honor of a member nation has been attacked by another nation, member or non-member, the provisions of this covenant shall be without force or effect."

The question as to what constitutes an attack upon the honor of a member nation shall be decided by the member nation which believes its honor to have been attacked."

## Bills by Billions

"America should invest in Europe," says a prominent financier. Unless newspaper reports are in error, we have been doing that for some time. For instance, Americans are supposed to have put a billion or more into German marks. Thus far that was nearly all profit for Germany. Daily reports of bond transactions on the New York Stock Exchange show that large amounts of French, Belgian and British bonds are bought in America. These are manifestly bought by Americans, for if bought by people of Europe they would be bought in the London market. The people of the United States through their government, invested \$11,000,000,000 in Europe through the war loans. They have added enormously to that investment through private channels since.

Tom Sims Says

The first sign of a winter is when you wish it was summer.

Do your eyes hurt you? Quit looking daggers at people.

Does dandruff bother you? Worry about it until you are bald and the dandruff will leave.

Do your trousers bag at the knees? Loan them to a bowlegged man and he will take the bag out.

Always chew tobacco while calling on a girl you do not want to kiss. It works fine.

Cry when a girl starts kissing you. Stomping on her feet is another way to make her stop it.

Damp feet are said to be one cause of bad colds. It shouldn't be so hard to give them up.

When a bad cold meets a good disposition the bad cold wins.

Put on too much speed ahead and you may meet with reverses.

Is your face your fortune? That is why so many men feel cheap when they need a shave.

Screens may be taken down properly by hiring a man to help you and then you helping him.

A woman marries a man to mend his ways and finds all he wants her to mend is his clothes.

Never worry about how late it is because it never is as late as it will be a little later.

A grouch may be a man who married a woman to share his troubles only to learn she caused them.

The Hodge - Podge  
By a Paragrapher with a Soul

A railroad conductor's wife couldn't sue her husband for \$8,500 alimony before the war with any prospect of collecting, as a Loganport woman has done.

Turkey wants the United States fleet withdrawn, but how does the United States know that Turkey is going to behave?

The disarmament conference never contemplated that vessels should be scrapped on the rocks.

Taxing the rich more doesn't hurt the rich, but the poor who help make the rich, rich.

When President Coolidge wrote that letter to shoemaker Lucy saying that "if it had not been for you, I would not be here," he put a quietus on the numerous individuals who were beginning to claim that they "saw him first."

A man may be the 'first citizen' but he can't be both first and last.

G. O. P. minds are said to be open in McCray's case, but no one seems to know what is in them.

Recovering anything on oil stock seems about as fruitless as the proverbial hunt for a needle in the haystack.

FIFTEEN YEARS  
AGO TODAY

From The Daily Republican  
Friday, Sept. 25, 1908

When Mrs. W. O. Headlee received a letter from her husband this morning, she learned for the first time that her daughter Norma, had been suffering with scarlet fever for the past three weeks. The little girl went to Asheville, N. C. about four weeks ago with her father, County Supt. Headlee, who hoped that his health would be benefited by the change of the atmosphere. They had been there only a week when the daughter was taken sick with scarlet fever, and has been under quarantine in the care of a special nurse for the past three weeks. The child is now on the road to recovery and completely out of danger.

All the grades in the city schools were dismissed at three o'clock this afternoon on account of the hot weather. The younger school children have been dismissed every day this week about fifteen minutes early.

Mrs. Anna Beachard entertained at dinner today Mrs. O. C. Hackleman and daughter, Miss Elizabeth and Dr. F. G. Hackleman and family.

The services Sunday evening at the Main Street Christian church will be unique in character. The platform will be decorated with products of the farm. Mrs. Ida Spurrier McDaniel and Jesse Pugh will sing appropriate songs and the congregation will sing harvest hymns.

Ralph Stiffler has gone to Butler college and will probably attend school there during the year. Butler students, especially those interested in football, have been anxious for Stiffler to enter school there. Concerning Stiffler's work at Thursday afternoon's practice, the Indianapolis Star says: "One of the strongest candidates for the back field is Stiffler of the Rushville high school. Stiffler played end on the Rushville team, and although he is being worked at half now, he may be changed to full."

Mrs. Nannie H. Ross has gone to Columbus, Ohio, to visit her daughter, Mrs. Paul Meser and family. On her return she will be at home with Mrs. Will Jay in North Main street.

Dr. and Mrs. C. H. Parsons have returned from an extended visit in the East.

Mrs. Douglas Morris will entertain the Coterie next Monday at her home in East Fifth street with a cleverly planned afternoon of enjoyment.

Fon Riggs can now play on piano from Beethoven, Handel, Chopin and other great composers with marked preciseness. But he plays with his feet, having recently installed a piano player in his home.

Miss Edith Wilk has been pledged to the Kappa Alpha Theta sorority at Indiana University.

Carl Gunning, who is a candidate for quarterback on the high school football team has a badly bruised nose, received in practice last night. However, he will be able to go in Saturday's game with Shelbyville.

Miss Clara Gregg has been sick for several days at her home in North Harrison street.

The Western Horseman has a frontispiece this week of Aileen Wilson, 2-034, with Dick Wilson up.

## From The Provinces

'at's Telling Truth and Shaming, & (Houston Post)

The circumstance that Jack Dempsey can make a half million in a single fight is no great tribute to his ability as a fighter, but to the streak of fool that runs through the American mind.

Will Make Eighth Wonder of World (Detroit Free Press)

Senator Willis says he favors Coolidge as the next Republican candidate. Can it be that Ohio is going into the convention for once without a favorite son?

One Nobody's Ever Solved (Washington Post)

Now that coal miners and operators have decided to bury the hatchet, the problem is to prevent them from burying it in the public.

It's Glory That is "Loaded" (Indianapolis Star)

No one will likely attempt to deprive Governor Pacht of full credit for saddling an additional charge on the coal buyer.

He's Riding For a Fall (Louisville Courier-Journal)

Mussolini seems to be riding Dr. Annunzio's Pegasus. Anyway he is on a high horse and is planning to seize Fiume.

# Buy Your Tires from a Firestone DEALER

At the Latest Prices—The Lowest in History

You will find the Firestone Dealer one of the stable business men of your community. He offers a clean, fresh stock, backed by a well organized service. He wants you as a permanent customer.

That is the reason he sells Firestone tires. He knows and has plenty of proof that they are the best tires on the market. He can give you the greatest value and thereby retain your trade for years.

Every day you find new proof of this unequalled value. On the 15th of this month, Firestone Tires set two new dirt track records at Syracuse when Tommy Milton slid around four turns at every mile and covered the 100 miles in 75 minutes, 33 hundredths seconds. He also established a new world's record for one mile by covering it in 42 and 28 hundredths seconds. The next four cars to finish were also equipped with Firestone Gum-Dipped Cords. Each one of them

went the entire race without a stop. This and every other important race this year was won on Firestone Gum-Dipped Cords and Steam-Welded Tubes. Such performance gives you conclusive proof of their strength and durability.

Not only do race drivers use Firestone Tires as protection to their lives and the surest way to victory, but the largest tire buyers in the world insist on and buy Firestone Tires for economy and service. These buyers include the leading car manufacturers, the biggest commercial car operators and the taxicab and motorbus operators. 57,639,714 tire miles were sold to taxicab and motorbus operators in the month of August.

Think this over. You cannot afford to accept anything less than Firestone service and economy. You can buy this service and economy from any of the dealers listed below.

America Should Produce Its Own Rubber—Firestone

## Blazing the Way

PERHAPS the outstanding characteristics of the Standard Oil Company (Indiana) and its success lies in the fact that in all of its activities it has had to establish precedent—there was none to follow.

For this reason it was forced to delve far into science—to analyze—to deduce—to conclude—to act.

It was the task of the Standard Oil Company (Indiana) to eliminate haphazard—to eliminate the speculative.

If the products of petroleum were to be a staple and become an integral part in the operation of other industries, the entire process of refining petroleum must be based on scientific accuracy.

It was on this premise that the Standard Oil Company (Indiana) established its immense research laboratories, equipping with every modern facility.

The findings of the men in these laboratories have contributed much to the success of the Standard Oil Company (Indiana) and enabled it to earn its rightful position as a leader in the industry.

Scores of new products have been evolved in these laboratories. All were taken from the single base—crude petroleum. They have enabled you to partake of many of the refinements of life and to enjoy comforts that otherwise would have been denied you.

Viewed broadly, the pioneer work of the Standard Oil Company (Indiana) has done much to stabilize industry; to put production on a standard of accuracy; to reduce the cost of commodities; to develop new methods; to give inventive genius a starting point.

The Standard Oil Company (Indiana) has not confined its pioneering alone to the manufacturing and selling of petroleum products.

It has inaugurated new methods of industrial relations within its own organization that have gone a long way towards solving the problems confronting industry generally.

Thus, by blazing its own trail has the Standard Oil Company (Indiana) grown big—big in size and big in service—to the thirty million people of the Middle West.

## But Few Will Follow It

(Indianapolis News)  
In deciding not to make any speeches this fall, President Coolidge has set a fine example for the other politicians.

Take Real Money For That  
(Pittsburgh Gazette-Times)

American speculators in German marks may get a chance to buy German bonds but not with their bales of marks.

And a Place to Park the Car  
(St. Louis Globe-Democrat)

Word "home" is not so obsolete as some have feared. It is still necessary to have some place to read.

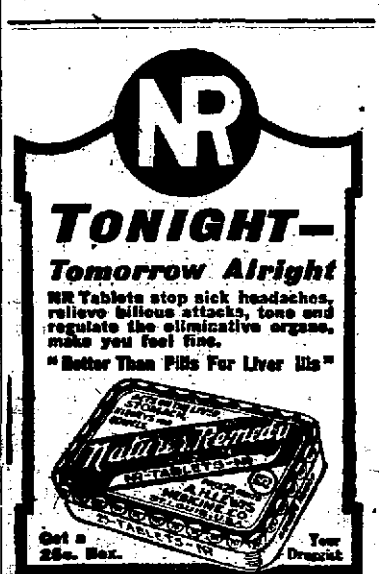

See! But He's Slow!  
(Dallas News)

Mr. Coolidge has been President all this time and hasn't introduced a single pet word or slogan yet.

## SAFETY SAM

Earthquakes may come an' floods may go, but you'll notice th' rail crossin' keeps right on, doin' business at th' same ol' stand!

## NEWSY GOSSIP IN THE WORLD OF SPORT

TRACK AND FIELD  
EVENTS—WRESTLINGTO SPEND WINTER  
PICKING UP DOUGHLuis Angel Firpo Will Not Bother  
With Any Preparation For Next  
Fight With Dempsey

TO HAUL IN COIN FOR 6 MONTHS

Will Make Exhibition Tour in Cana-  
da And Then Return to South  
America Before TrainingBy HENRY L. FARRELL  
(U. P. Staff Correspondent)New York, Sept. 25.—Luis Angel  
Firpo, is going to spend the winter  
picking dough and will not bother  
with any preparations for his next  
fight with Jack Dempsey.Plans being made now by the big  
Argentine have no room for the high-  
er education in the use of fists which  
the critics insist he must acquire if  
he wants to win the heavyweight  
championship.Firpo is going to use his hands  
only to haul in coin for six months  
and then he may get himself some  
instructors and go through the pro-  
cess of learning how to act in the  
ring.He is going to make an exhibition  
tour in Canada and then grab a boat  
for South America where he wants  
to show the natives the man who  
gave the great Dempsey his hardest  
fight.After Firpo's fight with Dempsey,  
Benny Leonard, the lightweight  
champion, said that he had been  
leased to act as a tutor for Firpo.It was reported also that Jack  
Johnson, the former heavyweight  
champion, was being considered as  
a teacher and later the story was  
heard that Firpo was considering  
Jimmy DeForest whom he "eamed"  
before his big fight, as the best pro-  
fessor in sight.Tex Rickard, who is planning an-  
other meeting next summer between  
the champion and the Argentine, has  
been trying to induce Firpo to start  
training at once.Firpo still maintains that he was  
rushed into the match before he was  
ready and that he could have won  
the championship in another year.  
There is something in his contention  
as in another year Dempsey might  
not be in the same perfect condition  
that enabled him to take everything  
Firpo had and come back for more.The South American, in acting  
with such little interest about his  
future prospects in the ring, may be  
trying to fool the public and perhaps  
will spend the winter in South Amer-  
ica in sincere training.

## YAZEL DID NOT PITCH

In the report of the baseball game  
Monday, it was stated that Yazel  
pitched the game for Rushville  
against Fairmount, but this was an  
error, and the game was pitched by  
McCarthy, who allowed only one  
scratch hit, which came in the eighth  
inning. McCarthy has been playing  
first base for the local team, and  
took the mound Sunday, and his  
pitching and hitting enabled the lo-  
cals to shut out the visitors, 7 to 0.

## SPORT CHATTER

Boston—Pancho Villa, worlds fly-  
weight champion, won a ten round  
decision from Tony Thomas, New  
Bedford.New Haven, Conn.—Newell Neid-  
linger, Yale's regular quarterback  
has reported to the squad and is  
working out with the second team.  
Richison, a newcomer, is calling  
signals for the varsity. George  
Conners new trainer from Exeter, has  
taken charge of the squad.Cambridge—With the squad cut  
down to four teams, Harvard foot-  
ball coaches have made tentative  
varsity selections and are working  
the first team in secret. Lack of  
kicking material is bothering the  
coaches.Princeton—Princeton varsity foot-  
ball candidates have been reduced to  
43 players. The squad reveals a  
wealth of brilliant backfield players  
but few new linemen have been  
found to fill the holes left from last  
year's team.New York, Zev, the Reneoan 3-  
year-old and one of the American  
candidates for the international race  
against Papyrus, has resumed train-  
ing. He is working well and Sam  
Hildreth, trainer, for the stable said  
he would be in shape to run if select-  
ed.New York.—Everett Scott, iron  
man of the Yankees made a unques-  
tionably record when he completed  
playing yesterday in 1,128 straight  
games. His claim for a record when  
he played in 1,000 straight games  
was questioned.Covington, K. Y.—Joe Anderson,  
Covington, floored Bobby Lee, Indi-  
anapolis, five times in the fifth round  
here Monday night, Lee taking the  
full count on the fifth knockdown.

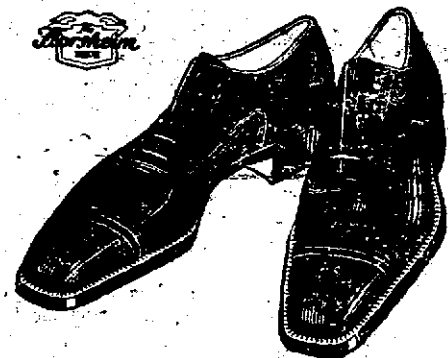

## Shatters World Record

This action photo of Paavo Nurmi, brilliant Finnish runner, was  
taken when he recently ran a mile in 4:10.25 at Stockholm, lowering the  
world mark of 4:12.25 set by Joe Ray of America.

## Wills On Dempsey Blacklist

By HENRY L. FARRELL  
(United Press Sports Editor)New York, Sept. 25.—When the  
court decided that Harry Wills had  
no legal rights to force his way into  
a contest for the world's heavy-  
weight championship with Jack  
Dempsey he lost what little chance  
he had remaining for the title.Wills may be held up as a martyr  
in that circumstances seemed to mi-  
litate against his chances to win the  
championship and a fortune, but  
when the facts are considered dis-  
passionately, the big colored fighter  
has no one to blame but himself.He had many supporters up to the  
time he sought to prevent the Dem-  
psey-Firpo fight at a time when all  
the arrangements had been completed  
and when Tex Rickard had spent  
more than \$50,000 in preliminary ar-  
rangements. It placed him in the po-  
sition of a bad sport and it cost him  
a lot of public sympathy.Had Wills been that aggressive in  
forcing the issue a year or two ago  
he would have had a crack at Dem-  
psey before Firpo and he would have  
had a better chance to win the  
championship two years ago, be-  
cause it is known that he has slipped  
considerably in the last year. It is  
only natural that he could not retain  
whatever form he possessed without  
fighting.Firpo worked himself into a bout  
for the title by building himself up  
on a lot of fights. He wanted a crack  
at the championship and he submit-  
ted to the process of being built up  
to the position of the logical con-  
tender by fighting everyone he was  
asked to meet.Wills would have had the bout a  
long time ago if he had agreed or  
been willing to do the same thing.  
When he started out to build himself  
up, he made himself look bad, espe-  
cially in the bout with Clem Johnson,  
and he apparently decided then that  
he had only one shot in him and  
that was good for a losing end with  
Dempsey.He was offered \$10,000 to meet  
George Godfrey in one of the bouts  
on the Milk Fund show, where Firpo  
and Jess Willard appeared, but he  
turned down the offer, saying that  
he was too good to appear in anything  
that looked like a preliminary.Firpo might have considered him-  
self as being better than a prelimi-  
nary fighter, but he had business  
sense enough to see the opportunity  
of making such a good showing that  
the fans would consider him the best  
of the lot on the card.Wills could have gone on in a pre-  
liminary and he might have made  
such a fine showing that the crowd  
would have given the verdict that  
Willard and Firpo were both bums  
and that Wills was the real contend-  
er for the title.The colored fighter would have  
been asked to meet Firpo, but it is  
almost sure that he would have re-  
fused.Floyd Johnson, the young Iowa  
heavyweight, was willing to fight  
Wills, and several promoters were  
willing to offer a fancy purse, but  
Wills would not consider the fight.While other contenders were fight-  
ing around and trying to force them-  
selves into a title bout, Wills sat back  
and wept that he was being given a  
raw deal, but he made no move to  
help himself and in the boxing game  
there are few helping hands extend-  
ed for anyone.

## The Score Board

Chester Fowler rookie shortstop,  
accounted for four runs with a sin-  
gle and a homer and batted the Reds  
to a 6 to 3 victory over the Giants  
cutting the lead of the champions to  
three games.Nine runs scored in the sixth in-  
ning when Cole blew to the clouds,  
gave the Yanks a 12 to 4 win over  
the Tigers.Schliebner's single in the tenth in-  
ning drove in two runs that gave  
the Browns a 4 to 2 victory over the  
Red Sox in the second game after  
Boston had lost the first game 6-1.Grimes and Reuther were in good  
form and the Robins took a double  
header from the Cards at 8 to 2  
and 7 to 3.Alexander marked up his twenty  
first victory when he pitched the  
Cubs to a 7 to 2 victory over the  
Braves.After losing the first game 4 to 2,  
the Pirates beat the Phils 4 to 3.  
Sheely's single after a pass and  
an error scored one run and the  
White Sox beat the Senators 1 to 0.MEN'S SHOES  
AND OXFORDSThat Combine Comfort  
with Style.Comfort first and then good looks —  
that's what every man wants when he  
looks for shoes.The Florsheim "Rialto"  
Can be had in Shoes or Oxfords  
Black or Tan  
At \$7.50You will find both of them combined in our display of Fall Shoes. Heavy stitch-  
ing is the predominating style note. Nearly all the shoes have rubber heels.  
The square toe and medium round toe are the leaders. The colors are black,  
brown and tan. They are just the kind of shoe you have been looking for, at  
\$4.00, \$5.00 and \$6.50

## THE MAUZY COMPANY

## AMUSEMENTS

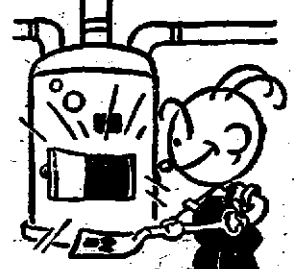

## Mae Murray At Her Best

Mae Murray has done the best  
work of her photoplay career in her  
latest Metro picture, "Jazzmania,"  
presented by Robert Z. Leonard at  
the Princess Theatre where it was  
seen for the first time yesterday and  
on view again today. The amazing  
versatility of this gifted screen star  
was never more fully evidenced than  
in this film, and it is by all odds the  
most popular and entertaining of her  
pictures."Jazzmania" has everything in it.  
As a matter of fact, it is more than  
one photoplay. It has its back-  
ground for the most part in the col-  
orful kingdom of Jazzmania, a tiny  
Balkan principality. It shifts to  
Paris for a while; then to the Casino  
at Monte Carlo; and finally to New  
York. Spectacular scenes follow each  
other with incredible swiftness; and  
no sooner has one glimpsed a scene  
of rare beauty than another is flash-  
ed on the screen in its stead. "Jazz-  
mania" is really a New York Hippo-  
drome of illusion.The story is concerned with the  
troubles of a young Queen—Ninon—  
whose kingdom is beset by en-  
emies. She flees to avert a revolu-  
tion, and her love of jazz and ex-  
citement leads her to Monte Carlo  
and New York. During her stay in  
the American metropolis she learns  
of the plight of the women and child-  
ren of her own country, and is per-  
suaded to return to them. She ar-  
rives in time to prevent the betray-  
al of the kingdom. The people rejoice  
at her return, and she turns her tiny  
state into a happy jazz kingdom.Miss Murray is throughout admir-  
able in her portrayal of Ninon. She  
makes the transition from sheer  
comedy to dramatic emotionalism  
very easily and her dancing and cos-  
tumes are even more attractive to  
the eye than usual.

## Gypsy Story At Mystic

Gypsies and their nomadic life  
have ever held a fascination for  
most of us, and in "The Bohemian  
Girl," the Harley Knoles produc-  
tion which comes to the Mystic  
again today, they are important in  
telling the fascinating romantic  
story, played by Ivor Novello,  
Gladys Cooper, Ellen Terry, Con-  
stance Collier, C. Aubrey Smith and  
a hundred other English celebrities."The Bohemian Girl" is a pictur-  
ization of the famous opera of the  
same name. Were it written today,  
instead of in 1814, it would be called  
"The Gypsy Girl." At that time,  
however, all gypsies were "Bohem-  
ians" because they were supposed to  
be native of that part of Austria.  
From the time the freely-used word  
of today, yet we never mean a gypsy  
when we say a person is bohem-  
ian. In fact there are far more bo-  
hemians today than there are gyp-  
sies, and prohibition has lessened the  
number of bohemiaans.The gypsies in "The Bohemian  
Girl" are the traditional kind, clad  
in bright-hued garments, richly em-  
broided with spangles and tam-  
bourines, and with a great caravan  
of horses and then those wag-  
ons which are really houses on  
wheels. There is a Gypsy Queentoo, played by Constance Collier, and  
her redoubtable henchman, the wick-  
ed Devilshoof, in person of C. Aub-  
rey Smith. Also there are the hero  
and heroine, Thaddeus and Arline,  
whose lot is cast with the gypsies  
while their hearts are not.CAPITALISTIC  
SYSTEM PRACTICED

Continued from Page One

our government, in their attacks up-  
on the institutions which have made  
America a great democracy, afford-  
ing more opportunities for success  
and happiness than anywhere else in  
the world." Mr. Puellier said.  
"Although every human being hopes  
for ultimate success, warfare  
against the successful is volubly  
raging. The dreamer, usually honest  
but usually impractical the de-  
magogue, never honest but often too  
practical, the professional reformer  
for personal profit, are all preaching  
the gospel of unrest, of class hatred,  
of disrespect for law and order, of  
discontent with honest endeavor."Their stock in trade is appeal to  
the jealousy and cupidity of the less  
fortunate. Capitalism is to be de-  
stroyed. Individual initiative is to  
be throttled. Its rewards confiscated.  
The lazy and the indolent  
hope to secure to themselves the  
earnings of the thrifty and the dili-  
gent. As in Russia, some would use  
force, others would through taxa-  
tion 'bleed capital white.' To just-  
ify confiscation, in one form or an-  
other, the faults of capitalism are  
magnified, its virtues decried."Only as industry is rewarded by  
the possession and use of its ac-  
cumulations can it be hoped that  
accumulations or capital will be  
striven for and preserved. Without  
the aid of capital or the accumula-  
tions of yesterday, each day is a  
new beginning. The mechanical aids  
to production encouraged under the  
capitalistic system have released  
human energy into a further multi-  
tude of inventions. Machinery has  
increasingly overcome the need and  
the hardship of manual labor, bring-  
ing increased opportunity, increased  
remuneration, increased possessions."The wonderful progress and pros-  
perity of America are due to the pro-  
tection of the reward of individual  
initiative. The reward of individual  
initiative is the outstanding attri-  
bute of the capitalistic system. When  
Russia substituted Sovietism for in-  
dividualism, only the generosity of  
the world saved her people from  
starvation."So that the inspiration of individ-  
ual reward may remain the heritage  
of our people, equality of opportu-  
nity must be maintained; equality of  
capacity is a biological impossibil-  
ity. The capitalistic system has  
brought to all the people more com-  
fort and greater leisure that has  
any other thus far tried system. Its  
higher evolution demands that, with  
the further development of the ma-  
chine, there must be given greater  
consideration to the development of  
the man. If we wish to preserve the  
good which this system brings to hu-  
manity, we must abolish in it what-  
ever is bad and detrimental to pro-  
gress, to happiness, to liberty. Those  
men who have courageously and hon-  
estly demanded that evils of the  
capitalistic system be corrected,  
should command our admiration and  
respect."There should be no child labor.  
If it is impossible to restrict it le-  
gally, the moral force of the entire  
capitalistic system should protect  
child life and child opportunity. It  
begins with protecting womanhood  
and motherhood, compelled to labor  
and is intelligent self-interest,  
intelligent self-preservation.The coal dealer is a  
good fellow, but you  
don't have to give him  
all your money. If you

# Society

The American Literary Club will be entertained Wednesday afternoon at 2:15 o'clock by Mrs. P. H. Chadwick at her home in North Willow street. An interesting program has been arranged for this meeting.

\*\*\*

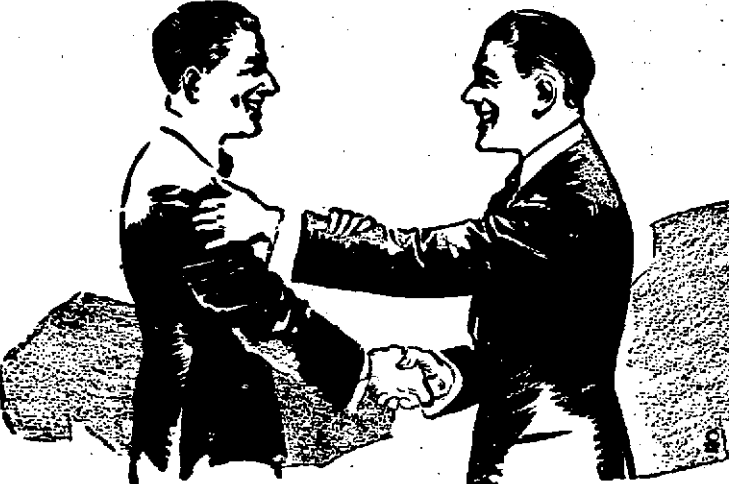

Mrs. Bert Norris will be hostess to the members of the Happy-Go-Lucky club Thursday, when she will entertain with a one o'clock luncheon at her home, 134 west Seventh street. All the members are requested to bring their thimbles.

\*\*\*

The Woman's Relief Corps will meet Wednesday afternoon in the G. A. R. room of the court house. The meeting is called for two o'clock and a good attendance is desired as arrangements will be made to attend the district meeting at Connersville, October 5.

\*\*\*

The Band of Workers of the First Presbyterian church will be entertained Wednesday afternoon in the parlors of the church, with Mrs. B. O. Simpson, Mrs. J. R. Carmichael and Mrs. Henry Rugenstein as the

## You too will Congratulate the Lincoln

On the food they are serving since it has been purchased by W. H. EDMONDSON, former owner of the Home Restaurant. Eat to better advantage, make every mouthful count. Merely filling the stomach does not answer the purpose.

This restaurant is building up a reputation by serving toothsome meats that really hit the hungry spot.

Mr. Edmondson personally invites both old and new trade to come and try his meals.

hostesses. All the members of the organization are cordially invited to attend this meeting.

\*\*\*

The employees of the Rushville Glove Company enjoyed a pitch-in chicken dinner today at noon at the factory in East Third street. It is an annual event and the employees enjoyed the affair. A bountiful dinner was served on a long table, placed in the factory room.

\*\*\*

The Get-To-Gether Club enjoyed a very delightful informal social afternoon Monday when they were entertained at the home of Mrs. John Davis in North Morgan street. At the close of the afternoon delicious refreshments were served by the hostess. The next meeting of the club will be held at the home of Mrs. Homer Cole.

\*\*\*

Arrangements are being made for the entertainment of the grand matron, Mrs. Mae Reeves, of Clinton, Ind., and Mrs. Alice Kennedy, of Liberty, a grand officer, of the Eastern Star, by the Martha Poe Chapter, Friday evening, and also for the annual inspection which will take place on that night. At 6:30 o'clock a banquet will be served at the lodge rooms, honoring the grand officers of the lodge, and the inspection will follow the serving of the dinner. All members who have no tickets are requested to notify Mrs. Verl Bebout. A large attendance is expected at this meeting.

\*\*\*

Mr. and Mrs. Fred Beall and family of this city attended the wedding dinner Sunday given by Mrs. Mary J. Schmidt and daughter Maude, in honor of Mr. and Mrs. G. Bryan Wilson, whose recent marriage came as a great surprise. Mrs. Wilson was formerly Miss Barbara Schmidt. The Newcastle Courier had the following item in Monday's issue, describing the dinner:

Beautiful in all of its appointments was the wedding dinner given Sunday by Mrs. Mary J. Schmidt and daughter, Maude, in honor of Mr. and Mrs. G. Bryan Wilson, whose recent marriage came as a great surprise. At 5 o'clock a lovely three-course dinner was served, the color scheme of yellow and orchid being used. A large bouquet of astors and marigolds adorned the center of the table. The place cards were hand painted, representing brides and bridegrooms in Colonial style. At the bride's place was a miniature bride. The ties were in the colors of orchid and yellow.

The guests were Mr. and Mrs. L. G. Shelley of Richmond, Mr. and Mrs. Fred Beall and family of Rushville, Mr. and Mrs. W. L. Schmidt of Indianapolis, Mrs. George Schmidt of Atlanta, Ga., Maxine, Helen and Janice Schmidt, Mr. A. Benson and the honored guests.

\*\*\*

The first reunion of the Dearing family was held Sunday at Memorial park in this city. There were eighty-seven members registered during the day. At the noon hour a pitch-in dinner was served and in the afternoon a short devotional service was held. During the business meeting the following officers were elected: President, J. R. Dearing; secretary, Mrs. Ethel Krammes; treasurer, Russell Dearing; program committee, Mrs. Carl Dearing, Mrs. Chester Dearing and Miss Bessie Perrell. The literary program was composed of reading of several letters from distant relatives who were unable to be present. It was voted to hold the next reunion at the same place next year, the fourth Sunday in September.

The guests were Mr. and Mrs. J. R. Dearing, Mr. and Mrs. Carl Dearing, Mr. and Mrs. Russell Dearing and family, Mr. and Mrs. Wilbur Dearing and daughter, I. N. Dearing, Mr. and Mrs. Weylon Dearing and son, Mr. and Mrs. Clara Delinger, Harlan Dearing and son, Mr. and Mrs. Rolla Grocox, Mr. and Mrs. John Burd and daughter, Mr. and Mrs. William English, Mr. and Mrs. Chester Anderson and daughter, Mr. and Mrs. Ert Dearing and son, Mr. and Mrs. Bern Perrell and family, Mr. and Mrs. Chester Dearing, Mr. and Mrs. Herbert Dearing, and family, Mr. and Mrs. D. W. Dearing and son, Mr. and Mrs. E. M. Unger and son, Mr. and Mrs. Claude Collings and family, Mr. and Mrs. Roy Dolan and family, Mr. and Mrs. R. O. Veatch, Mr. and Mrs. Oren Veatch, Mr. and Mrs. Harry Fletcher and family, Mr. and

# FROCKS

## Conform Delightfully

With

## Fashions Whims

A REVIEW of Fall frock modes as revealed in our selections, points a new way to smartness and economy. Through careful merchandising we have assembled a collection of frocks representing the smartest and most becoming of Fall trends at very reasonable prices. You can not appreciate the scope of this display until you have inspected our ready-to-wear floor. We shall be pleased to show you.

### CLOTH FROCKS HAVE NEVER BEEN MORE STYLE-RIGHT THAN THIS SEASON

The cloth frock is the smart street frock this season and since it is frequently worn without a coat it necessarily feels it must perform a coat-like duty. Hence the straight-line silhouette. Those here of twill, rep, and tricotine are especially smart. You are dressed for almost any day time occasion.

### AFTERNOON FROCKS

#### Prefer Satin as Their Background

Generally speaking, satin and other members of the shiny fabric family take the stand for afternoon frocks. Brocaded crepes and satin canton are lovely too when it comes to fashioning clever frocks that meet with popular favor. Those here are bound to furnish fascinating selection. They are all charmingly youthful.

### Dresses Here For Every Occasion and Every Purse

You will delight in our selection. Dresses here for every purse—and styles to suit every occasion. Dresses that can be

worn for dinner or those little informal evening parties during the Winter. We advise you to make your selection early.

### FIVE INJURED IN CRASH

#### One Occupant of Machine in National Road Accident May Die

Lewisville, Ind., Sept. 25—Five persons were injured, one probably fatally, when two automobiles collided at 11 o'clock Sunday night, east of Strang on the National road.

Mrs. Bert Cameron, 35, of 1316 English avenue, Indianapolis, suffered a fracture of the skull, badly lacerated scalp, and it was thought her chest was crushed, probably injuring her internally. Mrs. Cameron was riding with her husband, going east.

Four occupants of the other machine, driven by Green Bastian, 41, of 13 West 15th street, Cincinnati, Ohio, were badly cut and bruised.

### MAY ERECT DORMATORIES

#### Trustees At Indiana University Make Plans For The Future

Bloomington, Ind., Sept. 25. —A committee of three members of the board of trustees of Indiana University today began an investigation of the possibility of the university constructing dormitories to house the rapidly increasing student body.

Erection of dormitories was seen by some members of the board of trustees as the best solution of the housing problem, which is becoming more acute every year with construction of privately owned rooming quarters lagging behind the increase in enrollment.

### CONDITION ENCOURAGING

T. M. Green, Rushville attorney, who has been seriously ill following an operation at the Dr. F. H. Green, hospital, is reported to be showing encouraging signs of recovery.

### PURDUE FINISHES SECOND

#### Wins Monors in Livestock Judging Contest At Waterloo, Iowa

Waterloo, Ia., Sept. 25.—Victory in the livestock judging contest in the cattle contest went to the Iowa state college it was announced last night.

Individual honors were captured by B. R. Rosenbury, Purdue University. L. L. Perry, Purdue, was second and R. Bushnell, Nebraska third.

Purdue finished second in the intercollegiate contest; Kansas third; North Dakota fourth; Nebraska fifth; Illinois sixth; Minnesota seventh; Missouri eighth; South Dakota ninth; Wisconsin tenth.

### OPERATION AT GREENSBURG

Mrs. Charles Lamberson of this city underwent an operation at the Decatur county Memorial hospital in Greensburg Monday. The operation was performed by Dr. Deprez Inlow of Shelbyville.

### FRENCH FRANC IMPROVES

Paris, Sept. 25. —The French franc continued to improve sharply here today as result of the official news that Germany has abandoned passive resistance in the Ruhr. Francs opened at 15.99 to the dollar.

### IS SERIOUSLY ILL

B. F. Miller of this city, who has been taking treatment at the Methodist hospital in Indianapolis, is reported to be seriously ill, and his condition is not the most encouraging. He is suffering with anemia, according to reports received here.

### PLEGDED TO FRATERNITY

Herman Phillips, who left today for Chicago, Ill., to enter Chicago University, has been pledged to the Sigma Alpha Epsilon fraternity. Loren Hunt and Glen Ruddle, who accompanied Mr. Phillips to Chicago, are also members of the fraternity.

### MADE STATE DEPOSITORY

Indianapolis, Ind., Sept. 25—The American National bank of Rushville, a newly organized institution, was made depository by the state finance committee today for \$10,000 of state funds. The committee was in session for some time but Robert Bracken, auditor of state, said this was the only matter considered.

### PLAYS IN BAND

Roy Mitchell, Rushville musician, was in Connersville this afternoon playing with the Odd Fellows band

of that city at the cornerstone laying of the new high school building. The ceremonies today were in charge of the Masonic lodge, and a half holiday was declared by the factories and business of that city, in order to participate in the event.

### F. J. EW BANK IMPROVES

F. J. Ewbank, living northeast of the city, underwent a second operation at the Methodist hospital in Indianapolis last Friday and is reported to be on the road to recovery.

### PURDUE FINISHES SECOND

#### Wins Monors in Livestock Judging Contest At Waterloo, Iowa

Waterloo, Ia., Sept. 25.—Victory in the livestock judging contest in the cattle contest went to the Iowa state college it was announced last night.

# NEW PARK MAY BE ADDED TO SYSTEM

Part Of Reclaimed Land Along The Kankakee River Likely To Be Devoted To Parking Purposes

REMAINDER WILL BE SOLD

Money Derived For Balance To Be Put On Market Expected To Pay For Reclamation Work

Indianapolis, Ind., Sept. 25. — Winding four miles along that will of the wisp of rivers, the Kankakee, in Starke and LaPorte counties, lies a stretch of 1,500 acres of virgin timber land which may shortly be dedicated as a public park. The land, formerly subject to floods at the whim of nature has been reclaimed by the state by extensive dredging operations. It is ideal for a state park. The state board of public lands, composed of the governor, the auditor of state and treasurer of state, will meet shortly to decide the future of the 6,678 acres of this mean-

der land in Starke, LaPorte and St. Joseph counties, belonging to the state, which has now been reclaimed. It is understood, that 1,500 acres will be turned over to the state conservation department for a state park. The rest of the land may be sold. It is believed that sufficient money can be realized by the sale of this land to fully pay the dredging assessment, approximately \$73,000, leaving the proposed state park a gift, to the people of Indiana. The Kankakee, once free to spread out over this territory, is now confined to a channel some seventy feet in width. In times of great rainfall in the spring, it may overflow its banks slightly, but for the rest of the year it flows within its channel. Possibilities of converting the proposed state park into a game preserve have been discussed, it is understood, and in the future may become a reality. It is also suggested that a fish hatchery could be constructed there without too great cost to the state. The Kankakee has long been known to lovers of nature as a wildly beautiful spot. Even in dry weather, lovers of the solitary out-of-the-way places, say the Kankakee is beautiful. This last August, the river averaged three feet in depth.

## GLENWOOD

Mr. and Mrs. William Gray and Mr. and Mrs. Leslie Hinckman and son Lowell were among the guests that were entertained to dinner Sunday by the former's parents, Mr. and Mrs. James Gray of Manzy. Mr. and Mrs. William Trennepohl and Mr. and Mrs. Ollie Brown of Rushville were the Sunday guests of Mr. and Mrs. A. P. Reynolds. Mr. and Mrs. John Morgan and family of near Rushville were the Sunday guests of Mrs. Morgan's parents, Mr. and Mrs. John Roberts. Mrs. George Dukate spent the week-end in Indianapolis with her daughter, Mrs. Charles Sparks and husband. Mr. and Mrs. J. Hammond and Mrs. Eva Reed of near Hawkinsville and George Heizer of Orange were Sunday dinner guests of Mrs. Caroline McConnell. Mr. and Mrs. Charles Holland of ftU-visitorsmuh.s Connerville visited the latter's brother, Alva Worsham and wife, Sunday. Mrs. Everett Harrison and daughter have returned to their home in Indianapolis after a two weeks visit with her sister, Mrs. Sol Morford and family. Mr. and Mrs. Otto Camerion of Connerville were Sunday afternoon guests of Mr. and Mrs. A. J. Britt. Mr. and Mrs. Charles Stonaker and family of near Connerville visited their parents, Mr. and Mrs. Charles Douthitt and family. Mr. and Mrs. O. Stevens of Orange, visited the former's sister, Mrs. John Mapes Friday. Wilbur Laughlin of Anderson spent the week-end with his sister, Mrs. Frank Hinchman. Mr. and Mrs. Val Wilson and family of Hamilton, Ohio, visited the former's brother Edgar Wilson and family Sunday. Mr. and Mrs. Alpheus Morris and family spent the week-end with the former's father, White Morris and son Jesse. Mr. and Mrs. Earl Ruff and daughter Edna and Miss Allie Alexander were Sunday dinner guests of the former's sister, Mrs. Clyde Wilson and family near New Salem. Mrs. Anna Lindale of Indianapolis is visiting her daughter, Mrs. Hilton Simpson. Mr. and Mrs. V. E. Lewark spent Saturday in Indianapolis on business. Mr. and Mrs. Howard Pyke and children were Sunday guests of Mr. and Mrs. Carlton Chaney and family. Mr. and Mrs. Bert Rigby and baby and Mrs. Clara Rigby of near Arlington, and the Misses Lydia and Julia Barnard of Osceola, Iowa, were guests of Mr. and Mrs. James Norris Saturday. Mr. and Mrs. Howard Hanley and children of Connerville spent Friday night with Mr. and Mrs. Glenn Thatcher and family. Miss Mildred Pippin of East Connerville spent the week-end with Miss Margaret Britt. Miss Meda Hostie was a guest of Miss Emma Beaver Sunday. Mr. and Mrs. Walter Combs and family of Connerville visited the former's mother, Mrs. Alice Combs Sunday. Mrs. Bell Beaver has returned from Chicago where she was called by the death of a relative. Mr. and Mrs. Forest Brooks were Sunday dinner guests of the former's mother, Mrs. Alice Brooks and daughter Myrtle. Mr. and Mrs. Gay Bussel and sons and the former's father, John Bussel, of near Manzy spent Sunday afternoon with the latter's daughter, Mrs. Claud Thompson and husband. Mr. and Mrs. Otto Miles visited with relatives at Hamilton, Ohio, over the week-end. Frank Hollingsworth of Indianapolis visited with Mrs. Mary Beaver Sunday. Mrs. Avery Putnam has returned several days stay here with relatives to her home in Indianapolis after times. Dr. and Mrs. J. E. Walther and sons spent the week-end in Indianapolis on business and with friends.

### CONSIDER COMMUNITY CHEST

Wabash, Ind., Sept. 25.—The directors of the Wabash Chamber of Commerce are considering establishing a permanent community chest to finance benevolent and charitable organizations. The plan calls for an annual budget, with each organization assigned a certain sum. The money will then be raised in one drive. Merchants believe such a plan

# The J.B. Howard Combustion Device

With the Damper Back of the Firepot Has Made the Hot Blast Air Tight

## FLORENCE

famous, burning the cheapest soft coal or slack with the same regularity and cleanliness as the burning of gas, and maintaining a steady heat day and night, requiring filling morning and night only.

The Hot Blast Air Tight Florence will pay for itself in a few seasons in the Saving of Coal

For the past twenty-one years I have offered \$5,000.00 (and make the same offer now until January 1st, 1924), to any stove manufacturer or dealer who would produce a heating stove of any kind that depends upon a flue for draft that will consume all the ingredients in soft or hard coal from the moment the fire is started outside the construction of the Hot Blast Air Tight Florence with a damper back of the firepot, but have never been taken up, which proves its equal is not made by any stove manufacturer.

J. B. HOWARD,

### The Damper Back of the Firepot

is why the Hot Blast Air Tight FLORENCE should be used in every home that is heated with a stove.

The Damper Back of the Firepot has revolutionized combustion. It makes its own gas and burns it and makes its own coke and burns it, in the burning of the cheapest soft coal or slack.

The Damper Back of the Firepot is the means of burning the cheapest soft coal or slack with the same regularity and cleanliness as the burning of gas, and will heat three times the space at one-third the cost of any other heating stove burning coal or wood.

The Damper Back of the Firepot regulates the heat in burning coal or wood the same as a key in burning gas.

The Damper Back of the Firepot can be set to whatever degree of heat is required, maintaining a steady heat day and night, and only burns coal or wood according to the amount of heat required.

A FLOOR HEATER The Florence heats the floor 5 or 6 feet from the stove

The Damper Back of the Firepot eliminates the soot, dust, dirt and clinkers that must be put up with in using all other heating stoves.

The Damper Back of the Firepot enables you to have a steady heat day and night, heating five or six rooms when the weather is twenty degrees below zero.

The Damper Back of the Firepot regulates a slow combustion and will hold fire from 24 hours to 4 days and 4 nights with one filling.

The Damper Back of the Firepot prevents puffing in the burning of soft coal or slack because it burns the gases that cause the explosions.

In all heating stoves depending upon the front damper to regulate the heat there is danger of puffing and explosion when the stove is replenished with fresh fuel.

When the stove gets red hot the metal expands. When it gets cold the metal contracts, which warps and burns out the stove in a few years, besides the constant expense of repairs.

THE FLORENCE STOVE WILL BE JUST AS GOOD TWENTY-FIVE YEARS FROM NOW AS IT IS TODAY

THE HOT BLAST AIR TIGHT FLORENCE has the only JOINTLESS LEG BOTTOM AND BASE with full radiation that has ever been made, which makes it as good a fire-keeper 25 years from now. The first Florence heating stove sold in 1899 is working, wherever it is.

Do not be deceived by unscrupulous manufacturers or dealers when they say that a stove without a damper back of the firepot will do what the Florence does.

## JOHN B. MORRIS, Hardware

## LEADS STATE NOW IN TON LITTERS

Rush County So Far Has First Place  
In Club Project. Because Of  
Good Showing

### FOUR LITTERS IN RUNNING

Every One Has Been Of Pure Bred  
Stock, Which Indicates Pure  
Bred Hog Is Best To Raise

Rush county leads the state in the  
Hoosier Ton Litter Club project so  
far this year. A Rush county man,  
Wilbur Gray, fed the first ton lit-  
ter produced in the state which  
weighed 2110 pounds the day it was  
six months of age.

Chester A. Meal of Orange has  
produced the heaviest litter which  
has been produced so far in the ton  
litter work. This was a litter of  
thirteen which on the day it was six  
months of age weighed a total of  
3210 pounds, an average of 247  
pounds per head. Mr. Meal sold his  
ton litter locally at 25 cents prem-  
ium over the Indianapolis market.

An exceptionally good litter was  
produced by Charlie Phillips of Pos-  
ey township, whose litter of twelve  
fine individuals topped the scales at  
2166 a day before they were 180  
days of age.

The other litter which reached the  
ton mark in this county was pro-  
duced by R. W. Dawson and Son of  
Noble township, and weighed safely  
over the ton in spite of a severe set-  
back due to cholera hitting them  
about six weeks before they were  
six months of age. The fact that  
they overcame this handicap proved  
not only that the litter had the  
right kind of stuff in them, but also

## SOME ASSOCIATIONS EXEMPT FROM INCOME

Co-operative Concerns, Working For  
Farmers, Interest, May Not Have  
To Pay Taxes

### REVENUE DEPARTMENT PLANS

The Internal Revenue Department  
has just issued a statement showing  
how co-operative associations may  
be exempt from income tax. The  
American Farm Bureau Federation  
has been interested for some time in  
obtaining a decision of this kind,  
since many of the co-operative sell-  
ing and buying associations have  
applied to it for such information.

"Co-operative associations, act-  
ing as sales agents for farmers,  
fruit growers, live stock growers,  
dairymen, etc." the decision reads,  
"of engaged in marketing farm prod-  
ucts and turning back to the prod-  
ucers the proceeds of the sales of  
their products, less the necessary  
operating expenses on the basis  
of produce furnished by them, are  
exempt from income tax and shall  
not be required to file returns."

"In every case the association will  
be required to show that the owner-  
ship of the capital stock has been  
restricted as far as possible to ac-  
tual producers, and that the associa-  
tion has not voluntarily sold or is-  
sued stock to non-producers. Co-  
operative associations organized and  
operated as purchasing agents for  
farmers are also exempt."

### FEED WHEAT SURPLUS

Everybody is lamenting about a  
200,000,000 bushel wheat surplus. A  
litter of pigs in Ohio recently broke  
the world's record for weight per  
head in six months on a wheat ration  
which proves it is good hog feed.

## MUCH SEED WHEAT WILL BE TREATED

Indications Are That 3,000 Bushels  
Will be Treated by Farmers For  
Stinking Smut

### NEW METHOD IS POPULAR

Copper Carbonate Will be Used to  
Treat Two-thirds, as Drug Stores  
Report Good Sale

At least three thousand bushels of  
seed wheat will be treated in Rush  
county this fall for the control of  
stinking smut, according to the coun-  
ty agent's office. The drug stores of  
Rushville cooperated with the office  
in distributing enough copper car-  
bonate to treat two thousand bush-  
els and it is estimated that formal-  
dehyde will be used by a great many  
farmers.

The county agent urges universal  
treating of seed wheat in the county  
by either the copper carbonate or  
formaldehyde method, both of which  
are effective in controlling the stink-  
ing smut, but neither will control  
loose smut.

In treating wheat with formalde-  
hyde it is important that the power  
dilution of the material be used.  
The right dilution is a pint of formal-  
dehyde to 40 gallons of water, and  
not any stronger than that because  
of danger of injuring the germina-  
tion.

If smut balls are present in the  
seed the wheat should be treated by  
dipping in a barrel of the solution,  
using a wire basket or some other  
open topped container for the wheat  
which will allow for stirring the  
wheat with a stick. The stirring will  
cause the smut balls to rise to the  
Continued on Page Two

## FLY FREE DATES IMPORTANT THING

Wheat Growers Urged to Observe  
Dates For Sowing, Because of  
Hessian Fly in Stubbles

### NEW MAPS ARE READY

Fly Is More Prevalent in Southern  
Part Than in Northern Part of  
State This Fall

The Hessian fly is rather abundant  
in the stubble in sections of south-  
ern Indiana but is not noticeably  
abundant in the northern half of the  
state. Because of the existing condi-  
tions it is important that all wheat  
growers in southern Indiana adhere  
to the fly-free sowing dates and it is  
equally important, if not more so,  
that the wheat growers of northern  
Indiana use similar precautions and  
co-operate in sowing after the fly-  
free dates in order to maintain the  
minimum infestation, say Purdue  
University Entomologists.

Wheat-sowing experiments have  
been conducted in various sections  
of Indiana, Ohio, and Illinois by the  
respective Agricultural Experiment  
Station entomologists and investiga-  
tors of the Federal Bureau of Ento-  
mology for a number of years and a  
study of the results of these sowing  
plots has resulted in suggesting  
slight changes in the sowing dates.

The dates in the southern half of  
Indiana remain the same but the  
dates in the northern half show  
slight changes, the greatest change  
being two days, or September 22, for  
the extreme north end of the state,  
the amount of change lessening to-  
wards the south. New maps giving  
the dates for sowing in all sections

## STATE FARM HOME MEETING PLANNED

Conference at Purdue Will Bring To-  
gether People Working in Interests  
of State

### TO HAVE SPECIAL EXHIBITS

Farm Home is Important Problem  
And Must be Put on Best Possi-  
ble Basis, Says G. I. Christie

Lafayette, Ind., Sept. 25—An In-  
diana Farm Home Conference will be  
held at Purdue University, October  
11 and 12, was the decision reached  
at a conference at Purdue University  
of representatives of the Indiana  
Farm Bureau Federation, Federation  
of Women's Associations, Parent-  
Teachers Association, State Home  
Economics Association, State Board  
of Health, Department of Public In-  
struction and Purdue.

This conference will be a climax  
to a week of instruction to Agricul-  
tural Extension Workers and will  
bring together the representatives of  
the large agencies of the state work-  
ing in the interests of the people of  
Indiana. Special exhibits and demon-  
strations will be arranged by the  
different organizations and agencies.  
It is also planned to have time for  
round tables for discussion of the  
special problems and the work of  
these Associations and Departments.

"The farm home is felt to be the  
most important problem before our  
people at this time and everything  
possible must be done to give assis-  
tance in placing this on the best  
possible basis," said Director G. I.  
Christie, of the Agricultural Exper-  
iment Station, in commenting on the  
conference.

## MEMBERSHIP DRIVE IS BEING PLANNED

Actual Work to Add New Members  
to Farm Bureau Federation to  
Start Oct. 15

### TO CONTINUE FOR 6 MONTHS

Preliminary plans for a 1923-24  
membership drive of the Indiana  
Farm Bureau Federation, the actual  
work of which will start this year  
on October 15, are under way at the  
state offices of the Federation at In-  
dianapolis and in the various dis-  
tricts of the state. Much of the pre-  
liminary organization work has been  
done, but the work of paving the way  
for the soliciting crews will continue  
up to the time the solicitation opens  
in each county.

The drive for members will open in  
the Second Federation district com-  
prising Elkhart, Kosciusko, La-  
Grange, Noble, Whitley, Stenben, De-  
Kalb and Allen counties. At a meet-  
ing at Fort Wayne on September 12,  
of Federation officials from the var-  
ious counties of the district, the plan  
worked out by the state officers for  
conducting the drive was explained  
by Lewis Taylor, Treasurer of the  
Federation and in charge of the cam-  
paign, and was accepted. This plan  
calls for an intensive drive, which  
between October 15, the start, and  
the end of March, when it is expect-  
ed the campaign will end, will cover  
every county and township in the  
state. The drive will enlist every  
state officer of the Federation and  
practically all the district, county  
and township officers as well as the  
leading women workers in the orga-  
nization.

## PIG CLUB SHOW MARKS PROGRESS

Recent State Fair Pig Club Show  
Was Best Gilt Show Ever Seen  
in Hoosier State

### MORE BREEDING NOTICEABLE

For Five Years The Duroc-Jersey  
Breeders Have Staged Leading  
Pig Club Class at Fair

By F. MSHANKLIN  
(Asst. State Club Leader, Purdue  
University.)

One of the Stock-Yards hog buy-  
ers recently remarked that the qual-  
ity of hogs coming into the market in  
recent years was greatly improved.  
More breeding was noticeable, more  
uniformity in type and better condi-  
tion in the hogs coming from the  
counties some distance from the  
leading hog counties. Investigation  
will show that the pig club movement  
is largely responsible for this im-  
provement. The recent State Fair pig  
club show was the best gilt show  
ever seen in the Hoosier state. Two  
of the gilts became Junior Champion  
sows and one of these went on the  
Grand Champion Sow in the open  
classes. It is the first time a pig  
club member has owned the Grand  
Champion Sow in the open class.  
These two gilts were the first prize  
gilts in the Duroc and Yorkshire  
classes, while the Yorkshire gilt  
shown by Catherine Schroeder, Mar-  
tinsville, was made Grand Cham-  
pion. Eugene Williams, Lebanon, won  
the Duroc honors.

For five years the Duroc-Jersey  
breeders have staged the leading  
pig club class at the State Fair, if  
numbers and quality are considered.

### CANNING SUPPLIES

We still have a full assortment of everything needed for the home  
canner. Our prices have been very low all season.

## SMUT IS KNOWN TO BE EXPLOSIVE

Wheat Badly Infected May Cause  
Damage to Threshing Outfit if  
Conditions Are Right

### HENRY COUNTY CASE CITED

Stinking Smut Dust is Cause of Ex-  
plosion North of Here, When Ma-  
chine Became Clogged

According to A. D. Myers, a farmer near Newcastle, a serious explosion and fire in the threshing machine occurred at the Henry County farm near Newcastle on August 2. Myers story, as related to a Purdue University extension worker at the state fair was, "There was a flash and boom. A door of the separator had been blown off and the smoke was rolling out of both ends of the machine."

The stinking smut dust was the cause of this explosion for as Myers said, "We had noticed how very smutty this wheat was. The straw and grass around the machine were black with the smut spores."

"It has long been known that the smut spores make a very explosive mixture, needing only a small electric spark, such as is often developed in a machine, to set the explosion off. In this case luckily no one was hurt and the machine was only slightly damaged." This is one of only a few cases where stinking smut has caused explosions in threshing machines in Indiana. However, it serves to show what may happen but the wheat that was threshed was almost worthless.

The losses from stinking smut are rather common this year. W. H. Hardin of Knightstown told of a farmer who had the greatest difficulty in getting rid of his wheat difficulty in the smut and was glad to take 70 cents a bushel for it.

With the latest method of treating wheat there is no need for having any stinking smut. Any farmer who has a good variety that he desires to keep and which is so badly smutted that he does not dare use the seed, can safely use this wheat after treating it with copper carbonate. Here is the method as outlined by Purdue University botanists:

Three ounces of copper carbonate dust per bushel is all that is needed. It is also necessary to have some way of thoroughly mixing wheat with the disinfectant. A tight barrel, a box, a concrete mixer or a tight can will all serve. A barrel or box can be put on an axle thus making

the mixing easier. See your county agent or write to Purdue for details of this treatment and for information as to where the carbonate can be purchased.

## PURDUE SWINE DAY SET FOR SEPTEMBER 28

Farmers And Hog Producers To  
Gather At University To Get  
Latest Experimental Data

### PLANS BEING PERFECTED

Lafayette, Ind., Sept. 25—The fourth annual Purdue Swine Day will be held at Purdue University Friday, Sept. 28, when farmers and hog producers from not only Indiana but several adjoining states will gather to get the latest experimental data on hog feeding. Plans for the day are being perfected now by Claude M. Vestal in charge of the experimental hog feeding.

The program will start at 10 o'clock in the judging pavilion at the main university farm with a discussion of the various expedients underway. The corn-soybean-mineral mixture ration as evolved by Purdue will occupy considerable attention but several new rations that are showing good results will be discussed.

Most of the afternoon will be given over to an inspection of the hogs on the experimental swine farm and further discussion of the results where the men may ask all the questions they wish about the hogs and rations after seeing the results obtained on the farm which is operated as any farmer would have to do it.

Several ton litters of pork produced within six months on the Purdue rations will be shown and ton litter entrants are especially invited to attend. The meeting is free and will hold something of an interest to every farmer who feeds any hogs. typical INT-Jdvk

### FLY-FREE DATES IMPORTANT THING

Continued from Page One  
of the state have been issued by the Purdue Agricultural Experiment Station, Lafayette, Indiana, and copies are available for free distribution.

The Purdue Station recommends sowing after the fly-free date as a regular practice every year but further advises against delaying much after that date. The best time to sow is as soon after the fly-free date as possible and unless unavoidable the sowing should not be delayed longer than ten days after the specified sowing date.

"I Hear Yo' Callin' Me"

It is estimated that 100,000 Negroes have left the farm districts of South for industrial plants in the North.

PIG CLUB SHOW  
MARKS PROGRESS

Continued from Page One.

More than 100 entries were made in this class, and if the heavy storm Sunday night and Monday morning, had not interfered about half of them would have brought their pigs to the Fair. The rules permit the pig club pigs to come into the Grounds Monday morning and if no prize is won, they may leave that evening. All over the State, pig club members leave their beds soon after midnight Monday morning of the State Fair,

brushed up the pigs, get them into a light crate, tie the crate on the running board of the car and head for Indianapolis, where they usually arrive about daybreak. This year, only about half of them were able to face the storm and get to the State Fair Grounds in time for the show, and they were a half-drowned, hungry lot of youngsters. In spite of handicaps, they staged a real pig exhibit. No one would have guessed whether the pigs or their owners were wearied or had lost any sleep. Two of the Morgan County boys had

not exhibited their pigs at noon, and while they were at lunch, their class was called, so they were unable to show their pigs. They stated that after a breakfast at 3 o'clock they were beginning to get hungry a little after 12 and they were told the class would not be called until 1:30. They were real sportsmen however and took their disappointment standing up. Such youngsters as these are making the breeders hustle. There is the best cooperation with the breeders and real progress is being made along lines of better type and management.

Skill in herdsman'ship is being developed by the pig club shows. There was hardly a class shown all week in any of the breeds in which some of the pig club members were not assisting the breeders to show, when they were not showing their own pigs in the open classes. A few years ago, a boy showing hogs in the open classes was a novelty.

There were seven breed classes shown, the Duroc class numbering twenty-nine, with the Poland China, Hampshire, and Yorkshire classes numbering a little under twenty each. The Chester White, Berkshire and Spotted Poland China classes were under ten each, giving a total pig club show of 102. These are all registered gilts of splendid quality. The pig club borrow show will be the next step, and will do more to help the Stock Yards Commission. Houses take notice that the pig club is a real factor in swine progress.

STATE FARM HOME  
MEETING PLANNED

Continued from Page One

A committee was appointed to work up the program and to carry forward the plans as agreed upon. Those attending the meeting were as follows: Mrs. Schuyler Marks, Mrs. S. Seigel Brown, Miss Mary Mathews (Parent Teachers Association); Mrs. Virginia C. Meredith, Mrs. W. J. Tomlinson (Indiana Federation of Women's Clubs) Z. M. Smith (State Dept. of Public Instruction); Dr. H. W. McKane, (State Board of Health) Perry Crane, (Indiana Farm Bureau Federation); Mrs. Edward Hatch,

(Indiana Home Economics Association); Miss Lella Gaddis, T. A. Coleman, H. J. Reed, Mr. W. Q. Fitch, I. D. Mayer, Prof. W. C. Latta, L. E. Hoffman, Prof. Wm. Aikenhead, W. V. Kell, and Director G. I. Christie; Purdue University.

MUCH SEED WHEAT  
WILL BE TREATED

Continued From Page One

surface to be skimmed off. This is important for the solution can not penetrate the oily smut ball and after the wheat is treated these balls will be crushed in handling and by the drill thereby reinfesting the treated wheat.

But if smut balls are not present and the wheat is being treated to clean it from infection gotten through the separator, it will not be necessary to use the dip method. The sprinkling method, which consists of sprinkling over enough solution to thoroughly wet the wheat and covering it over for at least two hours, will be satisfactory. After treating the wheat should be either sowed at once or spread out in a thin layer and allowed to air.

LEADS STATE NOW  
IN TON LITTERS

Continued From Page One

the ability of the Dawsons as feeders.

Every ton litter produced in Rush county has been of pure bred stock and in the state every successful entry has either been pure bred or the first cross of a pure bred sire and dam. It begins to look like the pure bred hog is the one to raise. doesn't it?

FARM OF 157 ACRES SOLD

A farm of 157 acres belonging to Paul Daubenspeck, about five miles south of Rushville, on the New Salem pike, was sold at public auction Monday to Lake W. Duffey of Indianapolis for \$105.25 an acre. Receipts from the personal property sale amounted to \$8,100. The house on the farm burned down during the past summer and Mr. and Mrs. Daubenspeck bought the Stricker property at the corner of Ninth and Cherry streets where they now live.

## COCKLEBUR PLANT POISON TO STOCK

Young Plants Generally Looped Upon  
As A Weed, Have Been Found To  
Contain Poison

### BULLETIN ON THE SUBJECT

Very Young Plants, Before Leaves  
Form, Are Regarded As Serious  
For Animals

The cocklebur, variously thought to have been troublesome only as a weed and because of its stiffly armed bars, has been demonstrated definitely to be poisonous to livestock in the early stages of its growth, as was reported by other observers. The report on this demonstration is made by C. D. Marsh, G. C. Roe, and A. B. Clawson of the United States Department of Agriculture, and the results published in Department Circular 283, Livestock Poisoning by Cocklebur. Only the very young plants, before leaves have formed, produce poisoning, and the dose which produces sickness or death is about 12 pounds to a 100-pound animal. This means that young pigs up to 50 pounds in weight, which have been found the most susceptible are poisoned by 12 ounces or less of the small cocklebur plants. Cattle or sheep also may be poisoned if they eat enough of the plants in proportion to their weight.

Little can be said so far about medical treatment for this kind of poisoning. Feeding of whole milk was found to prevent pigs feeding on the cocklebur plants from being poisoned. Salted bacon grease, lard and raw linseed oil also gave good results. The best method, says the circular, is to keep pigs off pasture infested with cockleburs until the plants are large enough to be harmless; or to kill out the plants by mowing them before they seed. It must be remembered in this connection that each bur contains two seeds and that ordinarily only one of them will grow the first year after ripening, consequently it is not possible to kill out a patch of the plants the first year.

Copies of the circular may be ob-

tained from the Department of Agriculture, Washington, D. C., as long as the supply lasts.

### MINERAL MATTER IS ESSENTIAL TO FOWLS

In addition to the grain, mash, green feed, etc., consumed by fowls, a certain amount of mineral matter, both insoluble and soluble, is essential.

The insoluble mineral matter is necessary because fowls have no teeth with which to chew their food and the grit or insoluble material performs the function of teeth.

The food eaten by fowls first goes into the crop, where it is softened by water, and then passes into the gizzard, and by the action of small sharp stones or grit during the churning process in that organ is ground into a pulpy mass. Almost any kind of grit will do for this. The best grit is usually considered to be sharp irregular pieces of limestone, about the size of corn kernels or smaller. The reason this is considered superior to other forms of grit is that part of it is soluble and supplies lime for the body and egg shells.

Mineral matter is essential for the good health of fowls and for egg shell forming material. A deficiency of this in the regular ration may be supplied by grit, limestone, plaster, broken oystershells or shells of any kind. Granulated bone and bone meal serve the purpose fairly well, but the lime in the shells seems to be more quickly dissolved in the gizzard, and hence is somewhat better than the bone. In case bone meal is used, it should have been previously steamed in order to prevent the spread of disease.

Charcoal is another of the necessities of poultry feeding and should be constantly kept before the birds. The action of charcoal is to assist digestion, spring the crop, gizzard and intestines and prevent ailments of the digestive tract. The charcoal used should be broken into small pieces and should be supplied with the oyster shell and grit.

The use of salt in poultry feeds is not always considered a necessity. However, whenever a forcing ration is fed the fowls, either for

the production of boilers or to fatten them or to produce eggs, some salt should preferably be used to assist digestion. About 8 ounces of salt to 100 pounds of grain is enough. A quantity larger than this is liable to injure the digestion of grown fowls and it is positively unsafe to feed more to young chicks.

### ARLINGTON

Mrs. Mattie Moore has returned to her home in Newcastle after visiting a few days in Summer. She attended the funeral of her sister, Mrs. McMichael.

Harry Hawk, and family have moved into Perry Collin's property.

Cris Olive has sold his property to Joe Coats and has bought the Doris Beckner property from Mr. Noland.

Mr. and Mrs. D. M. Pressnall have returned to Arlington from Indianapolis where they attended the Holiness convention.

W. O. Folger has bought property in Indianapolis.

Mr. and Mrs. Mark Stout are living with John Eaton. Mr. Stout is clerking in Mr. Eaton's store and Mrs. Stout is keeping house for Mr. Eaton.

The Rev. and Mrs. Shaw visited Mr. and Mrs. D. M. Pressnall Sunday afternoon.

The reunion of the scholars and teachers of No. 9 school, Posey township, held September 8, in the school house, was well attended. Some of the former scholars who were there from a distance were Julia and Lydia Barnard of Iowa, Dan Swain of Wabash, Jap Barnard and his sister and Mrs. Jennie Merrill of Indianapolis. At the noon hour a bountiful pitch-in dinner was served cafeteria style.

Mary Swain was surprised on her seventieth birthday Sunday with a pitch-in dinner. Covers were laid for thirty-five of her relatives and friends.

### K. K. K. MEETING POSTPONED

The Ku Klux Klan public meeting, which was advertised for New Salem tonight, has been postponed indefinitely, according to an announcement to that effect given the Daily Republican today. The postponement of the meeting was given on account of the death of John O. Williams, a prominent citizen, who resides in New Salem.

## CONFERENCES AS AGRICULTURE AID

Collective Marketing, Diversified Farming, Promotion of Education, And Use of Banks, Cited

### BY FARMER-BANKER MEETING

Such Conferences Bring Out The  
Four Lines of Action to Improve  
Farming Business

By D. H. OTIS  
(Director, Agricultural Commission,  
American Bankers Association)

Four lines of action to improve the business of farming stand out in the discussions that have occurred at series of farmer-banker conferences now being held throughout the United States. They

are collective marketing, diversified farming, the promotion of agricultural education and the use of more economical bank credit rather than mercantile credit. At many points active steps to foster action along these lines have been taken.

The conferences were initiated by the Agricultural Commission of the American Bankers Association to the end that the condition of the man on the farm be improved. The first conference was held in conjunction with the Wisconsin College of Agriculture at Madison. An important point of contact for the work of the Commission was established at this meeting in the form of co-operation with the agricultural colleges.

In five other states—California, Washington, Oregon, Idaho, and Utah—it was agreed at subsequent conferences that bankers' agricultural committees would meet at the state agricultural colleges and, in co-operation with the college officials, work out a program that they would recommend to the banks.

It was at the Texas conference that it was developed that the officials of both the bankers' association and of the state college felt the big problem for that state was the establishment of a system of collective, orderly marketing. In order to bring this problem effectively before the farmers and bankers it was agreed to hold a banker-farmer meeting in December. Efforts will be made to get from 200 to 250 bankers to attend, each banker to bring with him several representative farmers of his community. The program and demonstration will emphasize the need of meeting the marketing problem and point ways to satisfactory solution.

At Athens, Georgia, the conference recommended that the State Bankers Association take steps to raise a fund for assisting deserving students to complete a college course in agriculture or home economics. This conference, recognizing the valuable work being done by county agricultural and home demonstration agents also went on record as favoring the employment of agents in each county.

At the Raleigh, North Carolina, conference the pressing problem, in addition to loans for worthy students, was held to be encouragement of the farmer to practice greater crop diversification. The conferees felt that the first big step was to get farmers at least to produce sufficient vegetables, fruit, milk, meat and poultry to live on. Many farmers, it was brought out, now depend entirely on the cotton crop, and buy the products named for their own tables.

At the conference at Ithaca, N. Y., those participating felt that a better understanding between farmers and bankers would be beneficial to both. At present a large amount of the credit used by farmers is in the form of mercantile credit, which, it was pointed out, is much more expensive for them than bank credit. It was felt that a campaign of education is needed to acquaint farmers with banking facilities. The conference, therefore, recommended that the Agricultural Committee of the State Bankers Association, the agricultural college and representatives of the Farm Bureau and the State Grange get together for the purpose of working out programs and plans for further meetings to be held in the various counties of the state.

At a conference held at Amherst, Massachusetts, there were representatives from Vermont, New Hampshire, Massachusetts, Rhode Island and Connecticut. Emphasis was placed on the importance of the Boys' and Girls' Club work. The New England conference also felt that the importance of bank credit over mercantile credit should be stressed.

# FALL MERCHANDISE

Everything 100 per cent in  
in quality and price

## HOGSETT'S STORE

A resolution was adopted and is being sent to agricultural committees in each State urging that they get in touch with their agricultural colleges and map out a program for educating the farmer in regard to the importance and economy of bank credit over mercantile credit.

The emphasis on this resolution came not so much from the bankers present as it did from the representatives of the agricultural colleges and the farmers.

## PROPER FEEDING BIG DAIRY FACTOR

Purdue Expert Gives Hints On Feed-  
ing Cow Before And After Fresh-  
ening—Gives Mixture

### URGE BALANCED RATION

If Maximum Production Of Milk Is  
To Be Maintained Herd Must Be  
Kept In Good Condition

By G. A. Williams  
(Dairy Extension Staff Purdue Uni-  
versity)

Cows that are milked down may be gotten in condition by feeding an extra amount of corn in the grain ration. A dry cow should always gain in weight and this gain can be made as quickly and cheaply with corn as any other grain. A mixture of 6 parts ground corn, 2 parts of ground oats or bran and 1 part of oil meal by weight is a very satisfactory mixture. Cotton seed should not be fed at this time owing to the lack of succulent feeds consumed. When the cow has gained as much weight as is desired, the corn should be replaced by bran and ground oats. At least ten days before the cow is due to freshen bran, oats and oil meal should constitute the grain ration. Equal parts by weight of the first two with about 1 pound of oil meal per day forms a satisfactory ration.

When the cow is within a few days of freshening, her grain ration should be considerably reduced. Bran mash is excellent at this time because of the laxative and cooling nature. If constipation is in evidence, 1 quart of raw linseed oil or 1 pound of Epson salts should be given. Many cases of milk fever could be avoided if proper care were given just previous to freshening. With the exception of a few hours before calving, some roughage such as clover, alfalfa or soybean hay should be provided in liberal quantities.

For five or six days after calving feed the cow bran mash with a legume roughage and a limited amount of silage. The water supply should not be overlooked at this time, also the appetite of the cow must be watched carefully. The grain ration must be increased very slowly at first. After four or five days, during which time oats and corn have again been introduced into the ration, the regular 4-2-1 ration may be fed, up to 4 to 5 pounds per day. From this on the increase should be made at the rate of 1 pound every third or fourth day until the maximum output is reached. When any additional increase of concentrates does not increase the flow, it is well to drop back slightly and it will be noted that the cow will then increase still further in production. Full feeding should not be reached until four to six weeks after freshening. No definite rule can be given, but one pound of grain is a safe guide for each three pounds of Jersey and Guernsey milk or four pounds of Ayrshire, Holstein or Short Horn milk produced daily.

The condition of the cow for two or three months after freshening is of great importance. At the time of parturition, certain chemical substances are thrown into the blood stream which exert a stimulating effect on udder cells. These chemical substances become exhausted as the stage of lactation advances or when the condition of the cow becomes run down. Once this stimulus is lost the cow does not respond so readily to feed, even if the original body weight be regained. It is very necessary, therefore, if the maximum production of milk is to be maintained, that the herd be kept in good working condition. The animal possessing true dairy temperament seldom becomes over fat when fed the proper kinds of feed. The cow cannot alter the composition of her product. If her ration does not provide enough protein, and our home grown grains are low in this material, she cannot produce the maximum flow of milk. A balanced ration fed to a high producing cow will give the largest returns during the winter months.

### MADE BEANS STRINGLESS

Few know that the man who took the string out of string beans was Calvin N. Keeney, of Le Roy, N. Y., says The Farm Journal. Keeney went through his bean patch, and picked out the beans that were minus the strings. Whenever he found one he would save the beans and repeated this year after year, and eventually secured a supply of genuine stringless beans.

## THE FINEST SHOWING OF NEW MERCHANDISE FOR

# FALL

Rush County Ladies have long since learned to come to Casady's for the very newest things in wearing apparel, knowing full well that whatever they see here is absolutely style correct because of this store's reputation in presenting only that which is certain to be in vogue for the approaching season.

Our assemblage of New FALL Styles, which in completeness, variety and exclusiveness is as near perfect as care, thought, experience and discrimination can possibly make it, with the added advantage of a wide reputation for showing none but the accepted styles in dependable merchandise.

### OUR ATTRACTIVE GARMENT SHOWING

Notwithstanding the complete and comprehensive showing of garments that we have had in other seasons, we are positive this Fall showing is superior in every way to any we have ever had, especially in variety and range of sizes. Still there are no two garments alike which gives an exclusiveness to the display that every woman will appreciate.
